FEDERAL REAL AND PERSONAL PROPERTY INVENTORY REPORT (CIVILIAN AND MILITARY) OF THE U.S. GOVERNMENT, COVERING ITS PROPERTIES, LOCATED IN THE UNITED STATES, IN THE TERRITORIES, AND OVERSEAS, AS OF JUNE 30, 1970

PART I

INTRODUCTION

This Federal property inventory report represents a compilation of assigned values of real and personal property owned or controlled by the Federal Government, located throughout the world, as of June 30, 1970. This comprehensive recording of assets of the Government is the 13th such report issued by the House Committee on Government Operations. The committee has issued, on an annual basis, inventory reports of federally owned real and personal properties, on a fiscal year basis, from June 30, 1955, through June 30, 1964. Early in 1965 it was determined by the chairman of the committee that future inventory reports of the committee would be issued on a biennial basis. Consequently, reports were not issued as of June 30, 1965, June 30, 1967, and June 30, 1969.

The committee staff assigned to this project, aided by the experience of Government department and agency representatives, has explored inventory accounting systems employed by the Federal Government in an effort to include all assets of a department and to bring records covering such assets under accounting control. A comparison of our previous inventory reports, as listed below, shows clearly the great progress which has been made in improving accounting methods and recordkeeping operations employed in recording the amounts of real and personal property owned or controlled by the Federal Government.

COMPARISON OF REPORTED INVENTORY VALUES, WORLDWIDE
[In billions of dollars]

Year	Personalty	Realty	Grand total	Year	Personalty	Realty	Grand total
1955-----	168	40	208	1962-----	213	86	299
1956-----	180	56	236	1963-----	225	90	315
1957-----	186	63	249	1964-----	230	94	324
1958-----	195	67	262	1966-----	244	103	347
1959-----	193	72	265	1968-----	287	113	400
1960-----	200	76	276	1970-----	305	130	435
1961-----	201	82	283				

In this report, as has been done previously, Capitol Hill realty is recorded at estimated present-day evaluations; also public domain is recorded at estimated present-day evaluations. Federal realty listed on Government records at "zero value" or at "\$1 for accounting purposes" is listed in the report at estimated present-day evaluations.

FEDERAL PERSONALTY

Most Federal personalty figures in this report are furnished directly by the Department of the Treasury. The Department of Defense, however, reports all its inventories, real and personal, directly to the committee. These figures cover assets of the three military departments and the Corps of Engineers, civil functions. Personalty inventories of the Architect of the Capitol, the Sergeant at Arms of the U.S. Senate, the Clerk of the House of Representatives, the Library of Congress, the Supreme Court of the United States, the U.S. courts of appeals, U.S. district courts, and special U.S. courts are also reported directly to the committee.

Federal personalty (exclusive of cash and related cash items) is reported herein at acquisition cost. This manner of reporting these assets was discussed with, and supported by, officials of the General Accounting Office and the Department of the Treasury. It is the consensus that this approach represents a realistic method of recording personal property, especially when comparing replacement costs and amounts received for such items when they are declared surplus and offered for sale by the Government. In recording values of paintings, portraits, statues, numerous publications, and volumes of books where records are unavailable as to the known costs, an estimated value has been recorded. It should be noted, however, that numerous personalty assets of the Federal Government are listed on its inventory records at "no value" inasmuch as some such items were donated to the Federal Government (at no cost) and in many instances it is impossible to place a realistic value on these properties because of their patriotic or sentimental value rather than intrinsic value. Such is the case of numerous items to be found in the Library of Congress, the Smithsonian Institution, the National Archives, and in other storehouses of the Nation. The famous Hope diamond, which was donated to the Government, has a value ranging from something like \$200,000 to \$2 million. Nevertheless, its value is not included in the committee's inventory report because it was obtained at no cost to the Government.

The increase in personalty figures in our reports during the past few years represents refinements in recordkeeping within the Government or improvements resulting from inventories having been brought under inventory accounting control. The Department of the Treasury has been instrumental in furnishing personalty data which reflect refinements in many areas of accounting throughout the Government.

FEDERAL REALTY (EXCLUDING PUBLIC DOMAIN)

Federal realty is listed herein, for the most part, at acquisition cost—with usage categories and number of acres noted. In 1960 the committee requested departments and agencies having realty under their jurisdiction which was donated or obtained at no cost (listed

on the books of the Government at "no value" or recorded at \$1 for accounting purposes) to establish an estimated present-day value of such realty. Methods employed in the evaluation of public domain lands were used in the establishment of current evaluations of "no value" lands. This practice has been followed again this year and up-to-date figures on such properties are recorded herein.

At the request of the committee, the Architect of the Capitol has again furnished realty figures for inclusion in this report which reflect estimated present-day evaluations of properties under his control.

Construction work-in-progress figures for all Government departments and agencies, including the Department of Defense, are again recorded in the realty portion of this report. The accepted procedure of recording the value of a Federal building project (on the books of the Government) is to await its completion. When the Government actually takes possession of a building project, the title thereof is then recorded on the books of the Government. It is felt that a realistic manner of recording the Government's investment in a project which is in the process of construction is to record the actual investment at the close of the fiscal year, rather than await the completion of the project to record its value. Our manner of recording construction-in-progress figures is in keeping with our objective of providing a comprehensive and complete listing of all Federal assets in all areas at a given time. This is also consistent with good accounting principles.

It should be borne in mind that the acquisition costs recorded for some buildings and facilities may also represent present-day evaluations. This is true when considering the value of buildings and facilities which have been constructed or purchased during the past few years.

Recorded in the realty portion of the report this year is a listing of Federal realty, excluding public domain, by departmental jurisdiction and general location (whether located in the United States, in the territories, or overseas), as well as a breakdown of acreage in the various States. A further breakdown of real property by State, county, and department, as well as cross-indexed listings of federally owned realty, is available to qualified individuals, in the offices of the Committee on Government Operations, House of Representatives or from the General Services Administration.

PUBLIC DOMAIN LANDS

"Public domain" refers to areas title to which was vested in the United States Government by virtue of its sovereignty. As used in this report, however, the term "public domain" includes—

(a) Original public domain lands which have never left Federal ownership and lands still within Federal ownership obtained by the Government in exchange for public lands or for timber on such lands;

(b) Original public domain lands which have reverted to Federal ownership through the operation of public land laws; and

(c) Lands included with (a) or (b) which have been withdrawn or reserved for specific uses of various Federal agencies.

Public domain acreage is listed in this report at estimated present-day evaluations. In some instances, Federal departments and agencies have been able to place an estimated present-day evaluation on

buildings, structures, and facilities located on public domain lands. However, these estimates are included for information purposes only in the public domain summary table. In order to avoid duplication and for the sake of clarity, all buildings, structures, and facilities are recorded in the realty section of the inventory report at acquisition cost. In some instances, because of the nature of the property and the location of the installation itself, it has not been possible to determine, because of intermingling, whether some structures are located on public domain or other Federal property.

Estimated present-day evaluations of public domain have been determined by field representatives employed in real property field offices of the departments. As a result of much effort, coupled with experience and concentrated interest, it has been possible for all departments and agencies to complete the job of placing estimated present-day values on public domain acreage under their control.

The Department of the Interior is responsible for determining overall values of mineral resources for all Government departments and agencies. Estimated overall values of timberlands, grazing lands, and grazing rights are included in public domain data furnished the committee directly by the department or agency controlling such property.

Since its Federal property inventory report, as of June 30, 1956, the Committee on Government Operations has listed public domain lands in inventory reports at a realistic estimated present-day evaluation. Prior to that date those lands had been listed at "no value." An attempt was made in 1937 by representatives of the Federal Government to evaluate public domain acreage. After considerable time, effort, and funds had been expended in this endeavor, the end result was an overall evaluation of these properties at \$1.25 per acre. Such an unrealistic figure in no way reflects the true value of these lands either in 1937 or today. One of the objectives of the committee's preparation of a Federal property inventory report has been to encourage improved accounting of known Federal property assets on a realistic basis.

"FUNCTIONAL USE BASIS" DATA

This Federal property inventory report reflects assets—real and personal—in a manner prescribed for Federal usage. Major categories, as listed, represent inventories as of June 30, 1966, 1968, and 1970 (for comparative purposes), and cover the major functions of—

- (a) National defense;
- (b) International affairs and finance;
- (c) Space research and technology;
- (d) Agriculture and agricultural resources;
- (e) Natural resources;
- (f) Commerce and transportation;
- (g) Housing and community development;
- (h) Health, labor, and welfare;
- (i) Education;
- (j) Veterans' benefits and services;
- (k) General government; and
- (l) Income Security.

This functional breakdown follows the same analysis as the receipts and expenditure classifications, and has some utility in illustrating how the assets of the Government are being utilized.

ACKNOWLEDGMENTS

Acknowledgment is made to the Government department and agency representatives that have been of such great assistance to the committee in the preparation of this report. Representatives of the property offices of the Architect of the Capitol, the Supreme Court of the United States, the Library of Congress, the Sergeant at Arms of the U.S. Senate, the Clerk of the House of Representatives, and the Administrative Office of the U.S. Courts have also been most helpful in furnishing data direct to the committee for inclusion in this report. The Comptroller General assigned one of his very able employees, Mr. Thomas C. Bittman, to assist the committee in the preparation of this volume. His help has been invaluable.

Without such able assistance, the compilation of accurate and comprehensive data in the realty and personalty fields, as represented herein, would not have been possible. The committee is grateful for this continued interest and cooperation.

CONCLUSION

One of the primary objectives in improving our Federal property inventory reports has been the recording of real and personal property assets of the Federal Government in a realistic manner—recording realty assets at acquisition cost, as well as at estimated present-day values where possible, and recording personal property assets at acquisition cost. Personal property assets will continue to be reported in inventory reports at acquisition cost. This decision is the result of recommendations made by the General Accounting Office representatives and other accounting specialists within the Government. As stated earlier, the report lists estimated present-day evaluations of public domain properties, as well as real properties previously recorded at “zero value, or at \$1 (for accounting purposes).”

The scope of an inventory covering properties owned by the Federal Government is tremendous in size and complex in nature. These inventories are located throughout the world and the recording and reporting of such assets is a massive undertaking. Government property representatives assisting in the property inventory endeavor are keenly interested in improving their property records. It has been definitely established that the need is great for an up-to-date Federal property inventory accounting such as the committee has undertaken. The project will continue to reflect various economic changes in values, as well as improved inventory reporting practices. These results, represented in informative report form, will be of constant utility.

In compiling and reporting data of a classified nature for inclusion in this report, the committee has, of course, complied with necessary security regulations. Efforts have been made to record classified data in a manner which will preserve secrecy, and at the same time remain informative and accurate. This is reflected particularly in some areas of Department of Defense inventories. Breakdown figures have been used in each instance possible, and only in restricted areas have lump-sum figures been recorded. Substantial data covering classified areas are available within the departments for those qualified to see and study on a need-for-use basis.

This Federal property inventory report records Federal real and personal property assets located throughout the world as being \$435 billion, as of June 30, 1970. It is evident that recordkeeping operations involved in the accurate accounting of inventories of this magnitude is an exacting undertaking. Likewise, when considering the values of real and personal property listed in our Federal property inventory, it is interesting to observe the recorded amount of our national debt. It was \$371 billion as of June 30, 1970.

Favorable comments continue to be received on the inventory project and the work the Committee on Government Operations is doing in continuously improving this worthwhile and informative public undertaking. The results to date are eloquent evidence of effective performance by the committee of a task assigned to it by the Congress of the United States. Even so, we remain mindful that constant surveillance of inventories is necessary to assure that they are kept up to date and that the federally owned property assets are properly and accurately accounted for.

Grand total-----	305, 422, 672

DEPARTMENT OF THE TREASURY

Washington, D.C.

SUMMARY STATEMENT

The statements on personal property were compiled by the Department of the Treasury on the basis of reports submitted by Government agencies, and were prepared in accordance with the request of the chairman of the Committee on Government Operations, House of Representatives, in a letter dated February 26, 1971, to the Secretary of the Treasury. These data have been forwarded to the committee annually from 1956 through 1964, and biennially since 1964.

Treasury Department Circular No. 966, requires all agencies to submit financial statements as of June 30 of each fiscal year. These reports made possible the compilation by Treasury of the "Statement of Personal Property of the U.S. Government" shown in Part III and the statement on "Related Real Property of Selected Agencies Other Than Defense" shown in Part VI of this report.

As in previous years, the greater part of the asset reports of the Department of Defense, the legislative branch, and the judiciary are sent directly to the committee. By mutual agreement, selected items of Department of Defense personal property reported to the Treasury, and the amounts reported directly to the committee by the legislative branch and the judiciary are included in this section of the report.

Amounts reported in the comparative summaries are on the basis of the new budget concepts which include assets of trust funds. The Federal National Mortgage Association, secondary market operations trust fund and the Farm Credit Administration trust fund loan programs were converted to private ownership by acts approved August 1, 1968, and October 17, 1968, respectively. In addition to the two-year comparative summaries that follow, overall summaries containing figures on public domain, donated property, and other real property were prepared and are included in Part II of this report.

COMPARATIVE FIGURES ON PERSONAL PROPERTY OF THE U.S. GOVERNMENT (EXCLUDING THE GREATER PART OF THE DEPARTMENT OF DEFENSE SHOWN ELSEWHERE IN THIS REPORT) AS OF JUNE 30, 1970, AND 1968 ¹

[In thousands of dollars]

Classification	June 30, 1970	June 30, 1968 ¹	Increase or decrease (—)
Cash on hand, in banks, etc.....	11, 770, 589	10, 142, 480	1, 628, 109

Commodities for sale.....	2, 292, 348	1, 307, 553	984, 795
Work in process.....	1, 594, 356	1, 530, 615	63, 741
Materials and supplies.....	7, 094, 682	7, 592, 154	—497, 472
Loans receivable.....	³ 56, 905, 613	³ 59, 186, 385	—2, 280, 772
Machinery and equipment.....	16, 703, 523	15, 474, 065	1, 229, 458
Other assets.....	22, 942, 813	18, 643, 103	4, 299, 710
Total.....	132, 507, 672	124, 374, 502	8, 133, 170

¹ Figures as of June 30, 1969, were not compiled.

² Includes net investment in the International Monetary Fund of \$2,412,000,000 for June 30, 1970, and \$965,750,004 for June 30, 1968.

³ Includes trust fund loans of \$948,402,970 for June 30, 1970, and \$12,592,857,924 for June 30, 1968. The 1970 figure excludes loans of the Federal National Mortgage Association, secondary market operations fund; and loans of the Farm Credit Administration banks for cooperatives fund and Federal intermediate credit banks fund.

Note: All assets reported are shown in gross amounts with no deductions for allowances for losses or depreciation and include assets of trust funds. Loans receivable have not been reduced by the amounts of participation certificates issued under trust agreements by the Government National Mortgage Association, participation sales fund, and participation certificates issued by the Export-Import Bank of the United States, all of which are treated as Federal securities in Treasury financial reports. Interagency assets, including public debt securities, and excluded. The assets are in the main valued at acquisition cost (known or estimated).

As shown in the above summary, total personal property inventories increased by \$8,133 million during the fiscal years 1969 and 1970. The increase in other assets of \$4,300 million represented the largest increase. Other increases in asset classifications were as follows: investments, \$1,554 million; accounts and notes receivable, \$1,151 million; commodities for sale, \$985 million; work in process, \$64 million; and machinery and equipment, \$1,229 million. The cash balance with the Treasurer of the United States increased by \$2,322 million. Other cash balances decreased by \$694 million.

Decreases in other personal property inventory classifications were as follows: materials and supplies, \$497 million; and loans receivable, \$2,281 million, due partially to transfer of certain trust revolving fund loan programs to private ownership.

¹ Includes materials for national defense.

² Includes foreign currency loans amounting to \$5,753,706,760 (see footnote 3).

³ Includes balances of foreign currencies in the dollar equivalent of \$2,190,366,264. These currencies, acquired without the payment of dollars, were generated under various Government programs, primarily the Agricultural Trade Development and Assistance Act of 1954, as amended, and the Mutual Security Acts, as amended. Dollar equivalents are computed, for reporting purposes, to provide a common denominator for the currencies of the many countries involved. Foreign currencies on hand and on deposit, and loans under sec. 104 (e) of the Agricultural Trade Development and Assistance Act of 1954, as amended, are stated at the rates as of June 30, 1970, at which the United States could purchase currencies on the market for regular operating purposes. Other loans are stated at the rates at which they are to be repaid or at rates in effect when the loans were extended. Currencies that are dollar denominated or guaranteed as to rate of exchange, are stated at rates specified in the agreements.

⁴ Includes certain figures on personal property for the Department of Defense not included under the special section of real and personal property of that Department in this report.

⁵ Includes judgments of \$413,388,130 in favor of the United States transferred from other agencies. No reduction has been made for future possible uncollectible items.

⁶ Includes foreign exchange due from foreign banks and special account of the Secretary of the Treasury with the Federal Reserve Bank of New York—Gold.

⁷ Does not include the principal of World War I debt accounts amounting to \$11,416,187,067 (see footnote 8).

⁸ Includes World War I indebtedness of Finland and Greece amounting to \$4,110,000 and \$12,954,609, respectively. Does not include an amount of \$28,102,000 representing loans to various States pursuant to an act approved June 23, 1936, on which payments have not been received.

⁹ Less than \$500.

Note.—All assets herein reported are shown in gross amounts, with no deductions for allowances for losses and depreciation. Interagency assets, including public debt securities owned, are excluded. The assets are, in the main, valued at acquisition cost (known or estimated). Assets of trust funds are included.

¹ Includes materials for national defense.² Includes foreign currency loans amounting to \$5,753,706,760. (See footnote 3.)

³ Includes balances of foreign currencies in the dollar equivalent of \$2,190,366,264. These currencies, acquired without the payment of dollars, were generated under various Government programs, primarily the Agricultural Trade Development and Assistance Act of 1954, as amended, and the Mutual Security Acts, as amended. Dollar equivalents are computed, for reporting purposes, to provide a common denominator for the currencies of the many countries involved. Foreign currencies on hand and on deposit, and loans under sec. 104(e) of the Agricultural Trade Development and Assistance Act of 1954, as amended, are stated at the rates as of June 30, 1970 at which the United States could purchase currencies on the market for regular operating purposes. Other loans are stated at the rates at which they are to be repaid or at rates in effect when the loans were extended. Currencies that are dollar denominated or guaranteed as to rate of exchange, are stated at rates specified in the agreements.

⁴ Includes certain figures on personal property for the Department of Defense not included under the special section of real and personal property of that Department in this report.

⁵ Represents judgments in favor of the United States transferred from other agencies. No reduction has been made for future possible uncollectible items.

⁶ Does not include the principal of World War I debt accounts amounting to \$11,416,187,067. (See footnote 7.)

⁷ Includes World War I indebtedness of Finland and Greece amounting to \$4,110,000 and \$12,954,609, respectively. Does not include an amount of \$28,102,000 representing loans to various States pursuant to an act approved June 23, 1836, on which payments have not been received.

⁸ Includes foreign exchange due from foreign banks and special account of the Secretary of the Treasury with the Federal Reserve Bank of New York—Gold.

* Less than \$500.

Note: All assets herein reported are shown in gross amounts, with no deductions for allowances for losses and depreciation. Interagency assets, including public debt securities owned, are excluded. The assets are, in the main, valued at acquisition cost (known or estimated). Assets of trust funds are included.

REAL AND PERSONAL PROPERTY
OF THE
DEPARTMENT OF DEFENSE

AS OF 30 JUNE 1970

(41)

INTRODUCTION AND SUMMARY

Introduction

The National Security Act of 1947 requires the Secretary of Defense to report annually to the President and to the Congress on the property records on "... the fixed property, installations, and major equipment items, and stored supplies of the military departments maintained on both a quantitative and monetary basis ..." (Section 410 of the National Security Act of 1947, as amended, as codified in Section 2701 of Title 10, United States Code).

This report showing the status of Department of Defense real and personal property as of 30 June 1970 has been designed to meet the statutory requirement.

The values reflected in the report for land and buildings and for long-life equipment, such as ships, represent acquisition cost. Acquisition costs of ships as well as land and buildings are often substantially below current replacement values. Construction in progress is valued on the basis of cost of material and labor incorporated in the projects under construction. The value of items other than major equipment in supply system inventories is generally based upon standard prices, representing replacement or estimated purchase price. The value of major equipment is derived from the unit cost based on the most recently executed contract for large quantity production.

The total value as reported is exclusive of: (1) properties and equipment of the National Industrial Plant and Equipment Reserve, which is under the custody of the General Services Administration; and (2) properties and supplies under the jurisdiction of the Civil Works Division, Office of the Chief of Engineers, Department of the Army. The value of properties in these two excluded segments are shown separately, however; the value of the National Industrial Reserve is shown in Section C of Part II of this report and the value of Civil Works properties shown in a footnote to Table 2.

Although reports on some of the inventories of the Department of Defense contain details which, for reasons of military security, cannot be publicly released, detailed, classified data will be made available to appropriate committees of the Congress as required.

Department of Defense Summary (Tables 1 and 2; Chart 1)

The value of Department of Defense property at the end of the fiscal year, 30 June 1970, was \$214.6 billion, \$4.5 billion more than was reported a year ago. Of this increase, \$767 million represents the increased cost of real property which rose from \$39,577 million to \$40,344 million during the year. Construction in progress decreased \$79 million to \$1,756 million. The value of personal property increased from \$168.7 billion to \$172.5 billion, an increase of \$3.8 billion during fiscal year 1970, as contrasted with an increase of \$6.6 billion during fiscal year 1969, \$6.7 billion in 1968, and \$11.7 billion in 1967.

DOD REAL AND PERSONAL PROPERTIES BY MAJOR TYPE AND SERVICE

AS OF 30 JUNE 1970

1/ Includes Marine Corps

2/ Includes Office, Secretary of Defense and other Defense Agencies.

Excess, Surplus, and Foreign Excess Property Inventories	<u>4,096</u>	<u>564</u>	<u>1,194</u>	<u>2,150</u>	<u>188</u>	-

1/ Excluded from the totals are properties of the Civil Works Division, Chief of Engineers, Department of the Army, as shown in Footnote 1, Table 2.

2/ Consists of materials, supplies, and net (unbilled) work in process.

Table 1 shows the total value of property held by each Department of Defense component, i.e., military service or Defense agency. Weapons and supporting equipment assigned to operational units, amounting in value to \$104.5 billion, makes up the largest segment (48.7 percent) of the Department of Defense total of \$214.6 billion; last year it was \$100.7 billion (47.9 percent).

The value of supply system inventories, including stocks afloat and at shore-based installations, amounts to \$47.3 billion, 22.1 percent of the DOD total (last year: 22.5 percent) makes up the second largest segment, followed by real property, valued at \$40.3 billion, 18.8 percent of the total.

Navy and Marine Corps, as has been the case for many years, reported the largest value of property of all kinds, \$85.4 billion, an increase of \$2.2 billion for the year. Air Force reported \$74.9 billion as of 30 June 1970, an increase of about \$800 million, while Army reported \$50.4 billion, an increase of some \$1.5 billion. Defense Supply Agency and other elements of the Department of Defense account for \$3.9 billion, about the same as last year.

Table 2 shows the geographic distribution of properties by principal type located (1) in the United States, (2) in U. S. possessions including the Commonwealth of Puerto Rico, and (3) in foreign countries and afloat. Of the \$214.6 billion total, \$157.2 billion (73 percent) was located in the United States; \$54.4 billion was in foreign countries and afloat; and U. S. possessions accounted for \$3.0 billion.

3/ Includes Reserve Fleet.

4/ Includes Active Fleet, Supplies Afloat, and organic property of Fleet Marine Force.

* Less than \$500 thousand dollars.

PART I - MILITARY REAL PROPERTY

Section A - Inventory of Military Real Property1. General

This section of the report presents a summary and a brief analysis of the inventory of military real property as of 30 June 1970. Detailed statistics on Civil Works property (river and harbor and flood control property under the jurisdiction of the Secretary of the Army) are not included in this report; however, summary totals for informational purposes are shown as memorandum items.

The inventory data covering military real property include land and improvements on such property including installed equipment such as fixed overhead crane runways, elevators, lavatories, plumbing and electrical systems. Machine tools and production equipment at such installations, however, are not included, but are included under personal property, Part II.

2. Department of Defense Summary of Real Property

Cost of Property Controlled - The total cost to the United States Government of real property controlled by the three military departments as of 30 June 1970 was \$40.3 billion (see Table 3). The increase was 1.9 percent over the \$39.6 billion reported one year earlier.

Of the overall increase of \$767 million for FY 1970, Army accounted for \$361 million, Navy for \$269 million and Air Force for \$137 million. During the preceding year, each of the military departments also showed an increase.

The distribution of inventory by military department and by location is shown in Table 3 and in Chart 2. Of the \$40.34 billion total as of 30 June 1970, \$33.65 billion was in the United States, \$1.57 billion in the

^{2/} Includes DOD agencies.

^{3/} Excludes real property in the amounts of \$10297 million for the United States and \$0.5 million for possessions under the jurisdiction of the Civil Works Division, Office, Chief of Engineers, Department of the Army.

United States possessions, and \$5.12 billion in foreign countries.

"Controlled", as used throughout this report, has reference to the right of directing the use of property. In connection with buildings, structures, or land, it includes (1) owned (acquired through purchase, condemnation, donation, or transfer); (2) leased; (3) public domain (withdrawn permanently); (4) temporary use (acquired through license or permit, temporary public land order, temporary executive or territorial order); (5) easements (utility, clearance, etc.); (6) foreign rights (base rights agreements, reciprocal aid, requisitioned, etc.).

This \$40.3 billion of military real property does not indicate present market value, but is based on original cost, if any. There is no cost for public domain lands and in most instances no costs for donated lands.

The data on cost to the Government do not include the amount of rentals paid nor the value of the property under lease. These data, however, do include costs of complete facilities and any improvements made thereto and owned by the Government on the leased properties.

The estimates for public domain lands are shown in Tables 4 and 5. Table 4 shows total estimates for military and civil functions separately, and Table 5 distributes the estimates for military functions by military department.

The estimates for the lands donated to the Department of Defense are shown in Tables 6 and 7. Table 6 shows total estimates for military and civil functions separately, and Table 7 distributes the estimates for military functions by military department.

Chart 2

COST OF MILITARY REAL PROPERTY CONTROLLED

AS OF 30 JUNE 1970

Real Property in Foreign Countries - The \$5.1 billion investment in real property in foreign countries represents the cost of that real property to the United States. (It consists of troop and family housing, storage facilities, airfields, maintenance facilities, hospitals, and various other kinds of real property required by our armed forces overseas.

Ownership and Status - The figures in Table 3 show that on a cost basis 83.4 percent of the military real property controlled is located within the United States. Of the remainder, 3.9 percent is in the United States possessions and 12.7 percent in foreign countries.

Properties at installations classified as industrial in the United States totaled \$5.5 billion as of 30 June 1970. Of this total 50 percent was Navy, 38 percent Army, and 12 percent Air Force. Nonindustrial property in the United States totaled \$28.1 billion: 46 percent Air Force, 30 percent Army, and 24 percent Navy.

Reference to Table 8 shows that properties located at installations in an active status were valued at \$38.8 billion, 96.1 percent of the total; those in an inactive or standby status on a world-wide basis cost \$1.5 billion, 3.9 percent of all properties. As of the end of the preceding year the inactive properties were inventoried at \$1.7 billion, or 4.4 percent of all world-wide properties.

Types of Properties. Table 9 shows the military real property costs for the entire Department of Defense by broad geographical locations and by major facility groupings.

Table 10 and Chart 3 show the 10 categories of real property, listed in order of cost, in which the Department of Defense has the largest

Chart 3
**COST OF THE TEN LARGEST CATEGORIES OF DOD REAL PROPERTY
 WORLD-WIDE**
 AS OF 30 JUNE 1970

dollar investment. The 10 categories on a world-wide basis represent a total cost of \$25.7 billion or nearly two-thirds (63.7 percent) of the cost of all Defense-controlled military real property. Family housing is the largest single category followed by troop housing and airfield pavements.

Comparable data on the 10 largest categories within the United States are presented for each of the military departments in Tables 21 (Army), 25 (Navy), and 29 (Air Force).

Cost of Buildings - The cost of land controlled by the Department of Defense represents only 1.7 percent of the total cost of all real property controlled by the Department of Defense. Cost of buildings, on the other hand, represents 55.8 percent of the total costs of military real property controlled. Other improvements not classified as buildings such as airfield pavements, communication towers, utility systems, operational and test structures, and roads and streets account for 42.5 percent.

The over-all inventory cost of buildings, world-wide, was \$22.51 billion (see Table 11) as compared with \$22.03 billion one year earlier. Of the total cost for buildings 38 percent is for buildings in Air Force inventory, 36 percent for buildings in Army inventory, and 26 percent for buildings in Navy inventory.

Lease Rentals - The total world-wide annual rental bill paid for properties used by the Department of Defense on the basis of leases in effect on 30 June 1970 was \$61.2 million as compared with \$59.7 million one year earlier. Rentals paid for properties in the United States remained about the same whereas those for foreign countries accounted for the

increase. Of all rentals paid about 70 percent are for properties in foreign countries (see Table 12).

Receipts of \$8.2 million were recorded for properties leased to others on the basis of leases in effect at the end of the year (see Table 13). Most (97 percent) of rental receipts were for properties in the United States. About 53 percent of total receipts were from Army, 37 percent from Navy, and 10 percent from Air Force properties leased to others.

Acreage Controlled - The Department of Defense through the three military departments controlled a total of 28.9 million acres of land throughout the world on 30 June 1970 (Table 14). This was a decrease of 643 thousand acres or 2.2 percent over the 29.5 million acres reported a year earlier.

The distribution of world-wide acreage controlled by the Department of Defense is shown in Table 14 and Chart 4. Table 15 shows the type of occupancy of the land on a geographic basis. Public domain land represents 57 percent of the Department of Defense total.

About 91 percent of Defense-controlled acreage is within the United States, 1 percent in the United States possessions, and 8 percent in foreign countries. The Army has 47.5 percent, the Air Force 36.9 percent, and the Navy 15.6 percent of the total world-wide acreage of the Department of Defense. Acreage controlled by the military departments in the United States represents 1.13 percent of the total land area in the 50 States and the District of Columbia (see Table 16).

In each of 5 States the Department of Defense controls more than

1/ Land and improvements.

2 million acres and nearly 2 million acres in a sixth state (see Table 17).

The 6 states are, in order of magnitude of acreage controlled:

California, Arizona, Nevada, New Mexico, Alaska, and Utah. Total acreage in these 6 states under Department of Defense control is 19.4 million, representing 74.1 percent of total Defense-controlled acreage in the United States. Of all DOD controlled acreage within the United States nearly one-sixth is in California.

The 8 states in which the Department of Defense has more than a \$1 billion investment in real property, in order of magnitude of investment are: California, Texas, Alaska, Virginia, Florida, Maryland, New York, and Hawaii. Total costs of the military real property controlled in these 8 states (\$15.3 billion) represent 45 percent of the total controlled in the 50 States and the District of Columbia. Property in California totals \$4.8 billion or 14 percent of the total controlled by the Department of Defense within the United States.

3. Department of the Army

Real properties owned and controlled on a world-wide basis by the Department of Army on 30 June 1970 cost \$12.3 billion, an increase of \$361 million (3 percent) over the \$12.0 billion one year earlier. About 57 percent of this increase was in the United States. Of the Army world-wide total on a cost basis, 85 percent was located within the United States, 3 percent in U. S. possessions, and 12 percent in foreign countries.

Annual rentals (\$37.7 million) paid by Army for property it was leasing world-wide on 30 June 1970 was about the same as at the previous

 $\frac{1}{2}$ / Data represent the cost of land and improvements.

year end. Of the total Army rental bill 71 percent is now for properties in foreign countries a large part of which are for facilities in connection with Southeast Asia operations.

On the basis of leases in effect on 30 June 1970, the Army was receiving \$4.39 million for properties it was outleasing. Part of this is for grazing and agricultural uses.

Total world-wide acreage under Army control as of 30 June 1970 was 13.7 million acres; 92 percent within the United States, 1 percent in U. S. possessions, and 7 percent in foreign countries. (See Table 14)

Military real property under Army control within the United States as of 30 June 1970 (see Table 18) had a total cost of \$10.4 billion dollars, about 85 percent of the Army world-wide total of \$12.3 billion.

The proportion of Army installations in an active status, on a dollar cost basis, within the U. S. was 94 percent (see Table 18) as compared with 93 percent one year earlier. Army's nonindustrial installations within the United States constituted 80 percent of the cost of all Army installations there.

The percent of Army industrial installation property in the United States in an active status rose to 93.3 percent. Of the active industrial installations, 35 percent on a dollar basis, was operated by the Government and 65 percent was operated by contractors.

Annual rentals paid by Army for property it leases in the United States, amounting to \$10.7 million, were offset considerably by rentals received in the amount of \$4.2 million.

The total acreage controlled by Army within the United States is reported in Table 19 by status and by type of tenure and installation.

1/ Data represent the cost of land and improvements.

Chart 5

COST OF 10 LARGEST CATEGORIES OF REAL PROPERTY UNITED STATES

AS OF 30 JUNE 1970

See Tables 21, 25, and 29

Of the 12.66 million acres controlled by the Army within the United States, 4.03 million (32 percent) were owned and 7.32 million (58 percent) were public domain lands.

Table 20 shows the total cost, and the acreage controlled, by type of tenure for each of the 50 States and the District of Columbia.

The total cost represented by the 10 largest Army categories is \$6.8 billion, almost two-thirds of the total Army United States cost (see Table 21 and Chart 5). Troop housing with \$1.2 billion is the largest category. Family housing is in the number two position with investment of \$1.0 billion in dwelling units in the United States.

Department of the Army real properties in foreign countries represented a cost of \$1.52 billion on 30 June 1970 and in possessions of about \$346 million. The Army had control through base rights and leases of about 900 thousand acres in foreign countries at the end of fiscal year 1970. In possessions about 144 thousand acres were under Army control.

4. Department of the Navy

The value of real property controlled and used by the Navy on a world-wide basis totaled \$11.5 billion, an increase of \$269 million dollars (2.4 percent) from that reported a year earlier. Of the \$269 million increase, \$187 million was in the United States, \$15 million in possessions, and \$67 million in foreign countries.

Navy's acreage controlled, on a world-wide basis, was 4.51 million acres, an increase of 6,449 acres during the year. On a cost basis, 83.3 percent of Navy-controlled property is located within the United States, 6.5 percent in the U.S. possessions, and 10.2 percent in foreign

^{1/} Dwellings only (excludes trailers and detached facilities).

^{2/} Excludes liquid fuel, ammunition, and cold storage.

^{3/} Includes operating plants and distribution lines.

^{4/} Piers and wharves; excludes seawalls, bulkheads and other waterfront facilities.

^{5/} Feet of berthing.

countries. Of Navy properties controlled on 30 June 1970 within the United States, 2.7 percent was at inactive installations, measured on a cost basis (see Table 22). The value of properties classified as industrial type facilities comprised 29 percent of the Navy real properties within the United States.

Of the total acreage Navy had under its control within the United States on 30 June 1970, 32 percent, or 1.33 million acres, was owned outright. An additional 2.28 million acres (55 percent of the total) were public domain lands (see Table 23). Of total acreage controlled by the Navy in the United States, 97.5 percent was located at installations which were in an active status on 30 June 1970.

Reference to Table 24 will show the cost and acreage of Navy real property controlled, by type of tenure, in each state of the United States.

The ten real property categories representing the great cost to Navy of properties in the United States are shown in Table 25 and are illustrated in Chart 5. In total, they constitute 60.6 percent (\$5.8 billion) of the over-all Navy real property costs in the United States. See Table 10 for a listing of the ten largest categories on a world-wide basis.

5. Department of the Air Force

Real property under Air Force control throughout the world on 30 June 1970 cost the Government \$16.56 billion as compared with \$16.42 billion one year earlier. This represented about 41 percent

of the Department of Defense total investment in military real property. The Air Force total increased slightly less than one percent during the year. Of the total net increase of \$137 million, U.S. holdings increased \$134 million, those in U. S. possessions increased \$26 million while property controlled in foreign countries decreased \$23 million. Investment in real properties of the Air Force outside of the United States on 30 June 1970 comprised 17.6 percent of all Air Force properties.

Air Force annual rentals paid for property used throughout the world on the basis of leases in effect on 30 June 1970 amounted to \$16.2 million as compared with \$14.5 million for the preceding year end. During the year rentals for properties in foreign countries increased \$1.4 million compared to an increase of \$0.3 million for the United States.

Returns to the Air Force on the basis of leases in effect on 30 June 1970 for Air Force properties used by others amounted to \$841 thousand.

Land controlled by the Air Force throughout the world totaled 10.65 million acres on 30 June 1970, a decrease of 203 thousand acres.

Military real property controlled by the Air Force within the United States represented a cost to the Government of \$13.7 billion (see Table 26). Of the total world-wide Air Force investment, 82 percent represented installations within the United States, 3 percent in U. S. possessions and 15 percent in foreign countries.

Of the Air Force total investment in the United States, 96 percent is at active installations. Industrial activities under Air Force control, all of which are contractor operated, constituted 4.7 percent of the total Air Force property cost in the United States.

^{1/} Dwellings only (excludes trailers and detached facilities).

^{2/} Includes operating plants and distribution lines.

Of the 16.5 million acres held as withdrawals from public domain by the Department of Defense within the United States, the Air Force controls nearly 42 percent. Much of this land is used for missile ranges and advanced fighter bomber training. Of the 9.4 million acres held by Air Force in the United States on 30 June 1970, 1.4 million (15 percent) was owned and 6.9 million (74 percent) was public domain land (see Table 27).

The total cost of the 10 major categories (\$9.8 billion) of real properties within the United States represented 72 percent of the Air Force total cost within the United States (See table 29 and Chart 5). Land operational facilities with \$1.7 billion accounted for the largest segment of total Air Force investment within the United States. Three other categories costing more than one billion dollars each were airfield pavements, family housing, and maintenance facilities.

Air Force-controlled properties in foreign countries, on the basis of cost, amounted to \$2.43 billion on 30 June 1970; the Air Force investment in possessions totaled \$475 million. Land rights were exercised by the Air Force on 1.1 million acres in foreign countries as of 30 June 1970; about the same as last year.

Section B - Military Construction in Progress

The cost of work in place, as reported by the military departments, on construction projects which has been started but not completed and transferred to the inventory, is shown by major geographical areas in Table 30. The cost reported represents the cost of labor and materials incorporated on the construction projects. The Federal Government has a property interest in these projects - most of them are being built on

Table 30 - Cost of Work in Place on Construction in Progress
by Military Department 1/ and Location
as of 30 June 1970

<u>TOTAL</u>	<u>\$1,755,832</u> <u>2/</u>	<u>\$425,715</u>	<u>\$1,100,544</u>	<u>\$229,573</u>
United States	1,021,948	376,941 <u>3/</u>	458,829	186,178
Possessions	37,112	11,232	25,224	656
Foreign Countries	696,772	37,542	616,491	42,739

1/ Includes construction work for DOD agencies.

2/ Includes facilities completed but not yet transferred to real property inventory.

3/ Excludes \$4,135 million cost of work in place on civil works projects.

Government-owned land.

Upon satisfactory completion of the project and acceptance by the military department, the total cost of the completed project is added to the real property inventory account of the respective department. On inclusion in inventory the amount is no longer shown as construction work in progress; thus, the amounts in Table 30 may vary considerably from year to year.

As of the year ending 30 June 1970 the amount of military construction in place for active projects was \$1.76 billion as compared with \$1.83 billion at the previous year end. An additional \$4.1 billion was in place on Civil Works projects of the Corps of Engineers.

PART II - MILITARY PERSONAL PROPERTY

Section A - Inventory of Military Equipment and Supplies in the Consolidated Supply Systems and in Stock Funds1. General

This section of the report deals with the inventories in the supply systems of the Department of Defense. For each of the four military services, and for the Defense Supply Agency, dollar data are presented in terms of the major purposes for which the supplies and equipment are held.

Secretary of Defense logistics guidance establishes an objective for acquisition of materiel related to the Approved Forces specified in the Five Year Defense Program. This objective is the quantity of an item authorized for peacetime acquisition to equip and sustain these U.S. forces in peacetime and in wartime, from D-Day through the period and at the levels prescribed by such guidance. Assets in excess of this level may also be retained, within prescribed limits, to support these forces and for other retention objectives.

The inventories in the following tables are, therefore, stratified into those held for the Approved Force of the component, as well as economic retention stock, contingency retention stock, and potential DOD excess stock for which disposal action has not yet been initiated. The inventories are also subclassified into broad commodity categories representing families of similar kinds of items.

Inventories are accounted for in the supply systems of the military

services and the Defense Supply Agency from time of acceptance until they have been issued to a using unit. The supply system inventories are those being held in the storage or warehousing facilities of these services for issue to the user. They constitute that segment of the overall materiel supply system which is defined in the Joint Chiefs of Staff dictionary as the "phase of military supply which extends from receipt of finished supplies by the military services through issue for use or consumption".

The stocks are physically located at depots, posts, camps, stations and bases in the United States and possessions, and in foreign countries. They are stored in warehouses, open storage spaces, ammunition dumps, fuel tanks, etc.

Supply items which have been issued to the consuming military units, such as divisions, air-wings, and most ships, are not considered as assets of the supply system. These items are in the hands of the ultimate user and as such are carried in unit records until consumed, destroyed, captured, lost, or otherwise disposed of.

In this category, throughout the Department of Defense for the purpose of this report, are ships, complete aircraft, complete ICBM and IRBM missiles, and space vehicles which are generally considered to be operational weapons systems and not supply system items. The Navy and Air Force do not accept aircraft and these types of missiles into the supply system nor are they returned to the supply system for overhaul or modification, control being retained in operational commands. The Army follows a different practice for aircraft and maintains supply system inventories which are issued upon requisition the same as supply

items. To be consistent in this report, however, Army inventories of aircraft have been excluded from the supply system tables and are carried as "in-use".

Part II, Section B, of this report includes data on major items which have been issued from the supply system to the ultimate users and are still in the hands of the user. If such an item in a military unit becomes unserviceable, it is normally replaced by a serviceable item from the supply system. The unserviceable item (if of a repairable type) is returned to the supply system where it may be repaired and put back in supply channels or declared excess and disposed of.

Also not included in the supply inventory totals is the value of excess stocks for which disposal action has been initiated. Table 45 consists of the value of such stocks as well as excess and surplus stocks from other sources such as using units.

Stock Funds

Stock funds do not constitute a separate supply system. They are operational and financial systems employed by the military services and the Defense Supply Agency principally to facilitate financial control over consumption-type supply items for which there is recurring demand. The stock fund mechanism permits the Services to handle inventories of such continuous demand items on a replacement basis much as private business firms do when they replace stocks depleted by sales with new stocks purchased with the proceeds from such sales. Stock fund inventories for each military service and the Defense Supply Agency are shown separately in this section; however, they are also included, as a one-line entry, in the overall totals for the entire supply system of each military service.

Reporting of Inventory Categories and Strata

Data representing the dollar value of inventories in the aggregate supply system, both the items which are financed by stock funds and those financed by appropriated funds, are shown for each of the military services and the Defense Supply Agency (stock fund only) in the numbered tables in this section.

Each of these tables shows the dollar amount of inventories in each major commodity category (groupings of similar kinds of supplies and equipment as reported by the services) and in each stratum (groupings according to the purpose for which the supplies are retained).

The stratification accounts in use by the services and DSA are uniformly prescribed by DOD Instruction 4140.18, and are (1) Approved Force Acquisition, (2) Approved Force Retention, (3) Economic Retention, (4) Contingency Retention, and (5) Potential Excess Stocks. These inventory accounts are defined as follows:

a. Approved Force Acquisition Stock is the value of assets allocated to the Approved Force Acquisition Objective, which is the quantity of an item authorized for peacetime acquisition to equip and sustain the U. S. Approved Force in peacetime and in wartime for the period and at the level of support prescribed by the latest logistics guidance issued by the Secretary of Defense. Stocks in this stratum held by one service are not required to be transferred to another service without reimbursement, but all other strata are subject to transfer without reimbursement.

b. Approved Force Retention Stock (AFRLS) is the value of the assets allocated to the Approved Force Retention Level, which is the quantity, in addition to the Approved Force Acquisition Objective, that is required

to equip and sustain the Approved Forces from D-Day until production equals the rate at which the item is required.

c. Economic Retention Stock (ERS) is the value of assets excess to the Approved Force Retention Level which, it has been determined, will be more economical to retain for future issue than to replenish by procurement.

d. Contingency Retention Stocks (CRS) is the value of assets excess to the Approved Force Retention Level which normally would be allocated to Potential DOD Excess but which, it has been determined, will be retained for possible contingencies for U.S. Forces.

e. Potential DOD Excess Stock is the value of assets above all authorized retention levels of the reporting DOD component which are in process of screening for utilization, but for which final determination as DOD excess has not been made.

Revised Secretary of Defense guidance no longer provides for Allied Force retention stocks, nor undelivered Military Assistance Program (MAP) stocks.

In addition to the stratified stocks shown above, the tables that follow show unstratified stocks consisting of in transit stocks, stocks in hands of contractors, and other stocks that are, for the time being, unstratified for some reason.

In transit stock is that owned by a DOD component, which is enroute (1) from manufacturers or suppliers; (2) from United States depots to overseas commands or vice versa; (3) from United States depots to United States commands or vice versa; and (4) between United States depots; and which has not been received by the consignee. Accounting systems of reporting components may not always reveal these in transit or other stocks separately; instead these stocks may be stratified as appropriate by the DOD component.

2. Summary of DOD Supply System Inventories (Tables 31 and 32)

The total dollar value of equipment and supplies in inventory in the DOD as of 30 June 1970 was \$47,308 million, a decrease of \$67 million from that reported as of June 1969. This total includes \$34 million of supplies owned by Defense agencies which are not normally considered as being in the managed supply system of the DOD.

Excluding these, then, Table 31 shows \$47,274 million of inventories, by source of funds through which they were acquired. Appropriation-financed inventories, accounting for 77 percent of the total, increased \$378 million during the year, while stock funded inventories, at \$10,663 million, decreased \$431 million during that time. Included in this table are a total of \$894 million of Navy-owned Shipboard Supplies and aviation consolidated allowance list material, not included in succeeding tables.

Table 32 shows \$46,381 million of supply system stocks, stratified according to the purpose for which they are held. As of 30 June 1970, Approved Force Acquisition stocks account for 72 percent of the stratified total.

Table 31 - Supply System Inventories - by Source of Funds
and DoD Component

Marine Corps.	2,121,255	76,264	2,044,991	1,609,371	169,229	30,411	55,894	180,086
Air Force	13,639,037	265,287	13,373,750	9,093,937	-	1,929,723	437,679	1,912,411
Defense Supply Agency	2,925,552	61,319	2,864,233	1,962,126	-	488,294		413,813

1/ Excludes excess stocks for which disposal has been authorized or initiated. These are shown in Table 45. Excludes \$894 million of shipboard supplies and AVCAL stocks shown in Table 31 and \$34 million of Defense Agency (other than DGA) stocks shown in Table 1.

2/ Includes stocks in transit, stocks in hands of contractors, stocks temporarily in use, and other inventories that are not, as of the date of this report, stratified by each reporting component according to its accounting practice.

They are valued at \$31,983 million, an increase in this stratum of some \$1,211 million. Transferable/disposable stocks, which include the retention stocks as well as the Potential DOD Excess, amount to \$12,575 million (28% of the stratified total), a decrease of \$708 million. Unstratified stocks decreased \$412 million so that the total stocks in the system increased \$91 million. Decreases in shipboard supplies and in the supplies of other Defense agencies reduced this to a net decrease of \$67 million in the Table 1 total.

The numbered tables that follow show the stratified supply system inventories of each of the DOD components by the commodity categories that each component uses in accounting for its stocks. Since there are some 170 of these categories or classes of items covering the appropriation-financed and stock funded inventories of the several components, differing in nomenclature as well as in content, it has not been practical to prepare a consolidated DOD table using each of them. In an effort, however, to reduce the consolidation to manageable proportions, there has been established a set of 23 standard categories of broad application into which the 170 service categories have been aggregated. The assignment of service categories to the standard grouping has been done with the advice of service personnel, but it is not perfect since some of the service categories contain both principal items and some of the secondary items that support them, while others, for service reasons, join items of more than one standard category. Somewhat experimental in nature, the aggregation is intended to provide a brief summary overview of Defense stocks, by broadly comparable groupings, for management purposes.

1/ Stocks owned by Command Channel stock funds have been distributed by category in the same manner as those of other divisions.

2/ Excludes excess stocks for which disposal has been authorized or initiated. These are shown in Table 45.

3/ Consists of in transit stocks, stocks with contractors, temporarily in use, and other unstratified stocks.

4/ Includes stocks of the Defense Supply Service.

The following table shows, by these standard categories, the stratified stocks of the Department of Defense as of 30 June 1970. Approved Force stocks are not transferable on a non-reimbursable basis, but all other stocks are, and they are aggregated in a subtotal in the last column. The abbreviations shown in the box heads refer to the retention strata described earlier in Section A. L. of this part.

While the dollar values shown here are in millions of dollars and the total of them will conform to the total shown in Table 31 which, as the footnote indicates, includes the shipboard supplies not included in Table 32, and the following tables, the totals shown, although rounded, should essentially conform with those shown in Table 32.

3. Army Supply System Inventories (Table 33)

The total reported value of Army stocks as of 30 June 1970 amounted to \$15,756 million, a decrease of \$118 million in the year. Appropriation-financed inventories made up 80% of this; they increased \$63 million. Stock funded inventories decreased \$181 million.

Approved Force Acquisition stocks of the Army account for 79 percent of the stratified total, leaving only 21 percent in transferable/disposable strata. Table 33 shows appropriation-financed stocks by materiel category. A one-line entry for stock funded items is supported by Table 34, which shows these stocks stratified by materiel category. They belong to the Army Materiel Command, the AMC Installations Division, the Medical-Dental Division, and the Defense Supply Service, as well as to five U. S. and overseas commands, CONARC, USARPAC, USAREUR, USARAL, and USARSO.

4. Navy Supply System Inventories (Table 35)

As of 30 June 1970, Navy reported supply inventories valued at \$11,939

Table 35 - Supply System Inventories (Including Stock Funds) - by Inventory Strata and Category

 2/ Consists of in transit stocks, stocks with contractors, temporarily in use, and other unstratified stocks.

million, a decrease for the year of \$738 million in system stocks. As mentioned earlier shipboard stocks, included in the Table 31 data, decreased another \$143 million.

Appropriation-financed stocks made up 85 percent of the total of systems stocks. A stratification of inventories by materiel category is shown in Table 35. To reduce the number of categories to a slightly more manageable size, there has been some consolidation of similar "cog classes" of the Navy under such captions as Strategic Systems Secondary Items or Electronic Repair Parts. Most of the principal item categories remain uncombined. Approved Force Acquisition stocks represent 66 percent of the Navy stratified total.

Stock funded inventories are shown as a single-line entry on this table, but are shown in detail in Table 36, following.

5. Marine Corps Supply System Inventories (Table 37)

Marine Corps stocks totaled \$2,121 million as of 30 June 1970, as contrasted with \$1,887 million a year earlier, an increase of \$234 million (12 percent). Table 37 shows the categories of appropriation-financed inventories, which account for 88 percent of the Marine Corps total; stock funded categories are included and are detailed in Table 38.

6. Air Force Supply System Inventories (Table 39)

The fiscal year-end values of Air Force inventories totaled \$13,639 million, an increase of \$764 million. Table 39 shows that 68 percent of the stratified inventories are Approved Force Acquisition stocks. Stock funded inventories, 18 percent of the total, are shown in detail in Table 40. The stocks of the System Support Division of the Air Force stock fund are chiefly comprised of aircraft parts.

^{2/} Stocks in transit, in hands of contractors, stocks temporarily in use, and other unstratified stocks.

7. Defense Supply Agency Supply System Inventories (Table 41)

DSA stocks, financed by the Defense Stock Fund, totaled \$2,925 million as of 30 June 1970, a decrease of \$51 million (1.7 percent) during the year. Approved Force Acquisition stocks represent 69 percent of the stratified stocks. Clothing and General Supply stocks increased; all others decreased during the period.

Section B - Personal Property Other Than Supply System Inventories

This section of the report covers personal property owned by the Department of Defense other than materiel in the supply system inventories. It includes various types of personal property, as follows:

1. Weapons and Other Military Equipment in Use

This category of equipment generally comprises items of materiel assigned to using units and includes all major weapons and supporting equipment. The equipment may have been issued from the supply system inventories, at which time accountability is picked up by the using unit or (as in the case of aircraft, ships, etc.) it may have been purchased from a manufacturer, military or private, for direct shipment to a using unit.

Quantitative property records are maintained on major items in use until the item is destroyed, lost or otherwise disposed of; minor and consumable type items are not maintained on property records since they are assumed to be consumed at time of issue. In addition to quantitative records, the Navy and Air Force maintain monetary accounting records of the principal equipment in use. Army derives statistical values of such property by periodically pricing-out quantities of items.

The total value of this type of equipment which had been issued or assigned to using units at the end of fiscal year 1970 was \$104.5 billion, an increase of \$3.9 billion over the value at the end of fiscal year 1969. Because this category includes the more costly types of military items, it constitutes by far the largest element of the total property of the Department of Defense, and one which has been steadily rising in value.

as the more expensive modern weapons are added. Since active fleet ships are included, 39 percent of it is located outside the United States.

a. Army

The reported value of Army weapons and other military equipment in use as of 30 June 1970 was \$15.1 billion, an increase of \$1.5 billion when compared with the 30 June 1969 value of \$13.6 billion. Included in the list are: aircraft valued at \$3,347 million, an increase of \$857 million; guided missiles valued at \$2,177 million, an increase of \$41 million; tanks and combat vehicles, \$2,291 million, an increase of \$162 million; tactical and support vehicles, \$2,434 million, an increase of \$77 million; artillery, small arms and chemical weapons, \$670 million, an increase of \$57 million; **and other** major items, such as communications and electronics, and heavy support equipment, valued at \$4,151 million, an increase of \$274 million.

b. Navy

Ships, service craft, aircraft, missiles, ammunition, aircraft ground support equipment, and Marine Corps organic property in use as of 30 June 1970 was valued at \$50.9 billion, a net increase of about \$2.0 billion in the fiscal year.

Ships of the active and inactive fleets account for \$32.2 billion of this, an increase of \$156 million during the year.

Service craft, such as Utility Landing Craft, Minesweeping Boats, Open Lighters, Floating Derricks and Harbor Tugs, were valued at \$947 million, \$73 million more than last year.

Navy and Marine Corps aircraft, reported to be valued at \$13.0 billion, showed an increase of almost \$900 million during the year. Aircraft ground support equipment of \$1.0 billion is also reported, an increase in value of \$171 million during the period.

Complete missiles, valued at \$1.3 billion, an increase of \$312 million during the year, were reported by Navy. This does not include any of the missile components reported in the supply system. Ammunition and other expendable ordnance to the value of \$936 million is also in use, most of it afloat, an increase of \$240 million.

Fleet Marine Force organic equipment is reported at \$990 million, a \$136 million decrease, and other Marine Corps equipment, at \$114 million, a small decrease during the year.

c. Air Force

As of 30 June 1970, weapons and other military equipment in use are reported by the Air Force to total \$38.6 billion, an increase of \$386 million in value since 30 June 1969. This includes aircraft, valued at \$26.5 billion, an increase of \$180 million; missiles valued at \$3.2 billion, an increase of about \$160 million; ground communications and electronic equipment valued at \$2.2 billion, about the same as last year; vehicles valued at a little over \$1.0 billion, almost unchanged; other Unit Mission Equipment - most of it located at Air Materiel Areas - valued at \$5.5 billion, a little less than last year. Air Force plant equipment in military hands which amounts to \$133 million is also included.

OSD and other Defense Agencies . . .	441,926	759	13,182	427,985

^{1/} Reported by the DOD component to the Defense Industrial Plant Equipment Center (DIPEC). Excludes industrial plant equipment which has been placed in the hands of Property Disposal Offices. These are included in Table 45.

2. Plant Equipment (Tables 42 and 43)

This is personal property of a capital nature, including machinery, equipment, furniture, vehicles, machine tools, and accessory and auxiliary items for manufacturing or administrative use. The Defense Industrial Plant Equipment Center (DIPEC), an element of the Defense Supply Agency, has management responsibility for idle industrial plant equipment within its scope, and it controls the allocation and re-utilization of such equipment. The military departments and DSA itself, for equipment used in its manufacturing processes, retain control over IPE in active use and in mobilization packages. DIPEC, however, maintains the records of much of the equipment and has contributed much of the statistical information appearing in Tables 42 and 43.

Included in these tables are the plant equipment and property owned by the Defense Supply Agency, reported separately as well as that of the Advanced Research Projects Agency, which is included with the equipment of the military department that is managing and using it.

Table 42 also shows the value of the other capital plant equipment, much of it furniture and specialized equipment not usually associated with production or plant use, that is owned by the Office of the Secretary of Defense and the several Defense agencies (other than DSA).

The total value (acquisition cost) of plant equipment reported by DIPEC and the military departments and Defense agencies as of 30 June 1970 was \$12.3 billion, an increase of \$377 million.

The inventory of metalworking machinery, by Production Equipment Code, is shown in Table 43.

Table 43 - Metalworking Machinery Costing \$1,000 or More Each
by Defense Component and Production Equipment Code

1/ Metalworking machinery reported to the Defense Industrial Plant Equipment Center. That shown for the military departments is active equipment owned by them; that shown for DSA is active DSA-owned equipment and idle plant equipment assigned to DPEEC.

3. Inventories Held in Industrial Funds (Table 44)

Reported as personal property of the Department of Defense are inventories, consisting of raw materials, supplies, and work-in-process, held in all industrial funds. Use of industrial funds, authorized by Section 405 of Title IV of the National Security Act, permits the financing of industrial or commercial-type activities and the development of production costs to be used as a basis for charging the appropriations of customers for the products or services furnished to them by the activity financed by the fund. For financial details of the Department of Defense Industrial Funds, see the annual report, "Working Capital Funds of the Department of Defense".

As of 30 June 1970, 103 activities in the Department of Defense were operated under industrial fund charters. The Army operated 32, the Navy, 62 (one of which is a printing activity located in 37 separate plants) the Air Force, 6 (one of which is a printing activity located in 9 different plants; another is a laundry and dry cleaning activity operated at 34 installations); Marine Corps, 2; and DSA, 1.

The net inventories, consisting of raw materials, supplies and work-in-process, held in all industrial funds of the DOD amounted to \$523 million as of 30 June, a decrease of \$9 million in the year.

4. Excess, Surplus, and Foreign Excess Personal Property (Table 45)

This is personal property on which disposal action has been initiated by a DOD component. It may have emanated either from supply system inventories or from equipment in use; in either case accountability is dropped at the time of transfer by the owning agency to disposal channels and is picked up in the property disposal account shown in Table 45.

 Inventories in Process of Screening and Disposal
 as of 30 June 1970

DEPARTMENT OF DEFENSE

(Thousands of Dollars)

DoD Component	Total Inventories	Domestic ^{2/}	Foreign
Department of Defense - Total . .	<u>\$4,096,166</u>	<u>\$3,892,442</u>	<u>\$203,724</u>
Army	563,974	436,544	127,430
Navy (including Marine Corps) .	1,194,231	1,162,209	32,022
Air Force	2,149,563	2,105,291	44,272 .
Defense Supply Agency	188,398	188,398	-

^{1/} Exclusive of combatant ships.^{2/} Includes the United States, Puerto Rico, and the Virgin Islands

Here it is considered an element of DOD personal property until actually disposed of through sale, donation, or transfer to some non-DOD agency. In the case of industrial plant equipment (IPE), although accountability may be picked up by the disposal offices, and the value included in Table 45, the control inventory maintained by the Defense Industrial Plant Equipment Center (DIPEC) will continue to maintain a record so that a piece of IPE for which a requirement develops may be recovered from disposal channels right up to the time of final disposition. As noted in the footnote to Table 42, however, this is not included in the IPE inventory.

The value of property in disposal as of 30 June 1970 totaled \$4,096 million, a net decrease of \$136 million during fiscal year 1970.

the increase in the value of such property affected each component, much the largest part of it was attributable to Air Force which transferred large numbers of several obsolescent models of aircraft to disposal.

Data shown do not include combatant ships which are in process of disposal because they are not personal property as defined by statutes governing disposal of Government property. The value of such ships at 30 June 1970 was \$634 million; this value is included in Section B.1., Weapons and Other Military Equipment in Use, and in Tables 1 and 2.

5. Government-Provided Material (Other than from Supply System)

This is material which has been purchased by the Government from one contractor and furnished to another, generally for incorporation in an end item being fabricated, or has been acquired by the manufacturer under the terms of his contract for Government account for the same purpose. Examples of such equipment are aircraft engines, electronic systems, and

other parts which are furnished to a contractor by procurement offices for incorporation in an airplane, ship, or other weapon. These items do not go through the supply system and therefore are not included in the "Stocks in Hands of Contractors" shown in supply system tables.

When the end item has been delivered, the value of these components is included in the value of the end item. As of any given time, however, substantial dollar values of this Government-owned property are in the contractor's hands awaiting further fabrication. Accountability for such property is vested in the contractor in terms of item and control accounts. The amount of such property in the hands of contractors is reported in Table 1 under the caption of Government-provided property.

Chemical	1	1	-
Ordnance Materiel . . .	1	1	-
Iron and Steel	1	1	-
Jewel Bearings	1	-	1

Section C - National Industrial Reserve

1. General

The Department of Defense has a contingent claim and production priority rights in all the National Industrial Reserve plants, including those which GSA has disposed of or leased with a National Security Clause; thus, data on these are included in this section of this report. However, data on none of the properties in this Reserve have been included in the totals for real property (Part I) or metalworking equipment (Part II, Section B) of this report because they are held by the General Services Administration.

2. Plant Reserve

The National Industrial Plant Reserve contained four facilities as of 30 June 1970, four less than the number at the end of the preceding fiscal year. Only portions of some of the facilities are being set aside for use by the military services. These four plants are assigned to the Department of the Army for sponsorship.

In keeping with Department of Defense policy to release as many Reserve Plants as possible to private corporations, seven of the eight plants have been sold subject to appropriate restrictions and recapture clauses and one which produces jewel bearings is being operated under lease or contract agreement. The status of the four plants by category of product is shown in Table 46.

3. Equipment Reserve

The National Industrial Equipment Reserve on 30 June 1970 contained 8,563 items of metalworking machinery and 669 nonmetalworking items of industrial production equipment. The original acquisition cost of the 8,563 items of metalworking machinery was \$65.7 million and of the 669 other industrial production items, \$1.3 million.

Under existing legislation these tools are available for redistribution to essential civilian industry, Armed Services, qualified nonprofit educational institutions and training schools, and to other Federal agencies.

GENERAL SERVICES ADMINISTRATION,
Washington, D.C., March 18, 1971.

HON. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives,
Washington, D.C.

DEAR MR. CHAIRMAN: Enclosed are five summary tables on real property owned by the United States throughout the world as of June 30, 1970, and a statement on coverage, as requested in your letter of March 1, 1971.

We will furnish data on General Services Administration controlled public domain properties and realty listed at "no value" or at \$1.00 for accounting purposes no later than April 1, 1971.

On June 30, 1970, the Federal Government owned real property (worldwide) which cost \$78.8 billion (land and improvements), an increase of \$2.9 billion since June 30, 1969. The Department of Defense accounts for \$50 billion, or 63.5 percent, while all other agencies account for \$28.8 billion, or 36.5 percent of the total.

Sincerely,

ROBERT L. KUNZIG,
Administrator.

COVERAGE OF INVENTORY OF REAL PROPERTY OWNED BY THE UNITED
STATES THROUGHOUT THE WORLD, AS OF JUNE 30, 1970

The inventory of real property owned by the United States throughout the world as of June 30, 1970, includes all land, buildings, and other structures and facilities owned by the United States (including wholly owned Government corporations). It is based on detailed inventory reports submitted by the participating agencies as prescribed by Federal Property Management Regulations, part 101-3.

Land reported in the inventory includes unreserved public domain; public domain lands reserved for national forests, national parks, military installations, and other purposes; and land acquired by purchase, donations, and other methods. It also includes land in which the Government has long-term interest which is considered by the reporting agency as being equivalent to ownership.

Buildings or other structures and facilities owned by the Government, whether or not located on Government-owned land, are included in the inventory. Buildings and other structures and facilities in process of construction are included only if they were available for use as of June 30, 1970.

Real property excess to the needs of the reporting agency or surplus to the needs of the United States is included in the inventory.

The Federal Government accounts for real property at cost in accordance with principles prescribed by the General Accounting Office. The inventory consequently shows acquisition cost data for all federally owned real property. Estimated costs (as of date of acquisition) are used when actual costs are not reasonably ascertainable.

Costs include all capital improvements and such items as plumbing, elevators, heating and lighting fixtures, and air-conditioning systems, which are normally required for the functional use of a building. In

addition, costs include such items as safes and vaults, which are built into the structure or are permanently affixed thereto. No costs have been included in this inventory for (1) unreserved public domain; (2) public domain reserved for national parks, national forests, military installations, and other purposes; and (3) historical sites, when such sites have been acquired by methods other than by purchase. However, the acreage for such lands is included in the inventory.

Inventory data are presented in three major geographical groupings: (1) United States; (2) outlying areas of the United States (e.g., Commonwealth of Puerto Rico, Virgin Islands); and (3) foreign countries. The Department of Defense reported only summary data, separately for each State, covering number of installations, acreage, number and floor area of buildings, and costs for its military functions in Alaska and Hawaii. The Department of Defense also reported only overall summary data on total acres and total costs for its military functions located in outlying areas of the United States and in foreign countries.

Excluded from the inventory are lands administered by the United States under trusteeship by authority of the United Nations and lands owned by the sovereign governments of the various outlying areas of the United States. The inventory excludes properties acquired through foreclosure, confiscation, or seizure to be disposed of in settlement of a claim or debt to the Federal Government. It also excludes property owned by the District of Columbia government.

Machinery, processing equipment, demountable and movable structures, as well as furniture and special use items which are not considered part of the realty reported are also excluded from the inventory.

Easements, rights-of-way, as well as improvements to land, buildings, or structures and facilities occupied by the Government as lessee, are excluded. However, federally owned buildings and/or structures and facilities located on leased land are included.

ARCHITECT OF THE CAPITOL,
Washington, D.C., March 29, 1971.

HON. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.

MY DEAR MR. CHAIRMAN: In response to your request of March 1, 1971, I hereby submit a valuation of the personal and real property under my control or care, owned by the United States Government on June 30, 1970, as established by an inventory taken as of that date.

REAL PROPERTY

1. Land	\$97, 875, 992
2. Buildings and improvements	416, 820, 166
Total real property	514, 696, 158

Property under this heading is stated at estimated present-day evaluation and includes land acquisitions and property improvements which occurred during Fiscal Year 1970. The following properties are included: U.S. Capitol Building, Senate Office Buildings, House Office Buildings and Grounds, Site of an additional Senate Office Building, Site of an additional House Office Building and appurtenant facilities for the House of Representatives, Senate Garage, Capitol Power Plant, Main and Annex Library of Congress Building and Grounds, U.S. Botanic Garden and Nursery.

We are also enclosing for your information a copy of the report on Real Property held as of June 30, 1970, prepared for and submitted to the U.S. Senate Appropriations Committee. Property listed in this report is valued at acquisition cost.

Yours very truly,

GEORGE M. WHITE,
Architect of the Capitol.

REPORT OF FEDERAL REAL PROPERTY AS OF JUNE 30, 1970

UNITED STATES CAPITOL BUILDINGS AND GROUNDS

Properties under Legislative Branch of the Government, occupied by the Congress.

Land

Acquired by purchase.

Acquired: 1791 to 1969.

Area: 171 acres.

Cost: \$29,479,000.

(Includes site acquired in 1949-60 for additional office building for U.S. Senate and in 1956-65 for additional office building and appurtenant facilities for U.S. House of Representatives.)

Buildings

U.S. Capitol, Senate and House Office Buildings, Senate and House Garages.

Constructed: 1793 to 1970.

Floor area: 5,807,579 square feet.

Cost: \$218,995,000 (to June 30, 1970).

1. Occupancy and use of these buildings and grounds controlled by the Congress.

2. Assignment and reassignment of space in Capitol under Speaker of House of Representatives and Senate Committee on Rules and Administration; in Senate Office Buildings under Senate Committee on Rules and Administration; in Cannon, Longworth and Rayburn House Office Buildings under House Office Building Commission; in Senate Garage under Senate Committee on Rules and Administration; in House Garages under Select House Committee appointed pursuant to House Resolution 282, 91st Congress.

3. Architect of the Capitol has the physical care of these properties.

CAPITOL POWER PLANT

Property under the Legislative Branch of the Government. Supplies heat and air-conditioning refrigeration for the Capitol, Senate and House Office Buildings, for the Library of Congress Buildings and U.S. Supreme Court Building; heat for U.S. Botanic Garden, Senate Garage, Government Printing Office, Washington City Post Office, and Folger Shakespeare Library.

Land

Acquired by transfer.

Acquired: 1904.

Area: 6 acres.

Cost: Transferred without cost by Act of Congress.

Buildings

Main powerplant building: 244 feet by 117 feet with maximum height of 85 feet.

Annex powerplant building: 90 feet by 50 feet, 2 stories high.

Refrigeration plant building: 123 feet by 80 feet, height approximately 38 feet.

Walk-through tunnels, containing steam and chilled water distribution lines.

Constructed: 1904 to 1954.

Cost: \$22,954,800 (to June 30, 1970).

1. Architect of the Capitol has the physical care and operation of plant.

2. Plant under control of the House Office Building Commission.

LIBRARY OF CONGRESS BUILDINGS

Properties under Legislative Branch of the Government, occupied by the Library of Congress.

Land

Acquired by purchase.

Acquired: 1886 to 1932.

Area: 15 acres.

Cost: \$1,496,779.

Buildings

Main and Annex Buildings, Library of Congress.

Constructed: 1889 to 1938.

Floor area: 1,600,000 square feet.

Cost: \$28,830,700 (to June 30, 1970).

1. Occupancy and use of buildings and grounds controlled by the Congress.

2. Architect of the Capitol has structural and mechanical care of these properties.

3. All other care, including assignment and reassignment of space, under the Librarian of Congress.

UNITED STATES BOTANIC GARDEN

Properties under Legislative Branch of the Government, occupied by the U.S. Botanic Garden, including Poplar Point Nursery.

Land

Acquired by purchase, transfer and public domain.

Acquired: 1851 to 1946.

Area: 33 acres.

Cost: \$981,140.

Buildings

Conservatories, greenhouses, office, storage and potting sheds.

Constructed: 1873 to 1962.

Floor Area: 89,000 square feet.

Cost: \$1,819,900 (to June 30, 1970).

1. Architect of the Capitol serves as Acting Director of U.S. Botanic Garden.

2. Botanic Garden under control of Joint Committee on the Library.

UNITED STATES SUPREME COURT BUILDING

Property under the Chief Justice of the United States, occupied by the U.S. Supreme Court and the Administrative Office of the United States Courts.

Land

Acquired by purchase.

Acquired: 1929-1930.

Area: 8 acres.

Cost: \$1,768,741.

Building

U.S. Supreme Court Building.

Constructed: 1931-1935.

Floor area: 392,737 square feet.

Cost: \$10,617,800 (to June 30, 1970).

1. Occupancy and use of building and grounds controlled by the Congress.

2. Architect of the Capitol has structural and mechanical care of building.

3. All other care under Marshal of the Court, except assignment and reassignment of space, which is under the Court.

PART VI

**INVESTMENTS IN RELATED MATTERS (REALTY) OF
THE EXECUTIVE AGENCIES, OFFICES, AND ESTAB-
LISHMENTS OF THE UNITED STATES GOVERNMENT,

¹ Trust.

Note.—The June 30, 1968, report is revised to reflect the following changes:

- (1) Change in acreage at PHS Hospital, Winslow, Ariz., to correct amount previously erroneously reported.
- (2) PHS Indian School Infirmary, Riverside, Calif., transferred to Bureau of Indian Affairs fiscal year 1970.
- (3) Addition of properties at Acomita, Isleta, Santa Clara, N. Mex.
- (4) Status of land at Taos, N. Mex., changed from trust to institutional.
- (5) Lands held in trust at Mescalero, N. Mex., reported by Bureau of Indian Affairs.
- (6) PHS Indian Health Center, Laguna, N. Mex., building under "improvements" no longer carried at zero value.
- (7) Changes in value of land.

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, D.C., April 9, 1971.

HON. CHET HOLIFIELD,
*Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.*

DEAR MR. HOLIFIELD: In accordance with your request of March 1, 1971, and our acknowledgment of March 15, 1971, enclosed are the following tabulations covering public domain properties as of June 30, 1970:

Table I: Estimated market value of public domain lands administered by the U.S. Department of the Interior, together with the amount of land involved, average value per acre by State, and actual cost of the improvements on such land.

Table II: Cost of buildings on public domain land by predominant use.

Table III: Cost of structures on public domain land by predominant use.

Table IV: Changes in public domain withdrawals and restorations by Federal agencies during fiscal year 1970.

Table V: Mineral resources values of the public domain.

Also enclosed are reports by States, on GSA Form 1166, covering lands carried at "zero value" in the GSA Real Property Inventory, as of June 30, 1970. All lands reported in this category are historical sites under the jurisdiction of the National Park Service.

Sincerely yours,

RICHARD R. HITE.
Deputy Assistant Secretary for Administration.

U.S. DEPARTMENT OF JUSTICE,
Washington, D.C., April 5, 1971.

Hon. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: This refers to your letter dated February 26, 1971, requesting certain data on the present-day evaluation of real property under the jurisdiction of this Department presently reported at \$1 or less for accounting purposes.

Our report is as follows:

Carrizo Springs, Tex.

Border Patrol Station—0.3 acre—value \$4,800.

Eagle Pass, Tex.

Border Patrol Station—0.7 acre—value \$5,600.

El Centro, Calif.

Pistol Range—4.60 acres—value \$4,600

El Centro, Calif.

Border Patrol Sector Headquarters—3 acres—value \$75,000.

Laredo, Tex.

Pistol Range Site—7.2 acres—value \$43,200.

Sierra Blanca, Tex.

Border Patrol Station—0.4 acre—value \$3,500.

I trust that this information will be helpful to your committee.

Sincerely,

L. M. PELLERZI,
Assistant Attorney General for Administration.

RECAPITULATION

Total acreage-----	16.2
Estimated value-----	\$136,700

TREASURY DEPARTMENT,
Washington, D.C., March 26, 1971.

Hon. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: Referring to your letter of February 26, 1971, addressed to the Secretary, and the reply of March 4, 1971, there are enclosed reports showing the estimated present-day value of acreage (exclusive of public domain) listed in the Department of the Treasury's "Report of Owned Real Property" as having no acquisition, or negligible costs, for the following:

U.S. Treasury Building and Annex: Washington, D.C.

Bureau of the Mint: U.S. Bullion depository, West Point, N.Y.

Bureau of Customs: Installations at various locations.

The acquisition costs of buildings, structures, and facilities located on the sites referred to in these reports are shown on the "Report of Owned Real Property" submitted to the General Services Administration as of June 30, 1970.

Sincerely yours,

ERNEST C. BETTS, Jr.,
Assistant Secretary for Administration.

THE SECRETARY OF TRANSPORTATION,
Washington D.C., April 13, 1971.

HON. CHET HOLIFIELD,
*Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.*

DEAR MR. CHAIRMAN: As requested in your letter of March 1, 1971, enclosed in duplicate is the Departmental report covering public domain and "no value" real properties under the control of this Department as of June 30, 1970. This report consists of the individual tabulations of the U.S. Coast Guard, the Federal Aviation Administration and the Federal Railroad Administration.

There are no other properties under the jurisdiction of this Department which meet the established criteria.

Sincerely,

JOHN A. VOLPE,
Secretary of Transportation.

DEPARTMENT OF TRANSPORTATION

UNITED STATES COAST GUARD

PRESENT DAY VALUE OF LAND ACQUIRED AT NO COST EXCLUSIVE
OF
PUBLIC DOMAIN PROPERTIES

AS OF 30 JUNE 1970

REPORT NUMBER
RPR005A25B

PREPARED BY

DATA SYSTEMS DIVISION

LAND—PROPERTY CODE 1

Usage code	Description	Usage code	Description
01	Agricultural	16	Reclamation and irrigation
04	Grazing	18	Flood control and navigation
07	Forest and wildlife	19	Vacant
08	Parks and historic sites	20	Institutional
10	Office building locations	30	Housing
11	Military—Except airfields	40	Storage
12	Airfields	50	Industrial
13	Harbor and port terminals	80	Other land
15	Power development and distribution	99	Trust land

BUILDINGS—PROPERTY CODE 2

10	Office	40	Storage
21	Hospital	50	Industrial
22	Prisons	60	Service
23	Schools	70	Research and development
29	Other institutional uses	80	All other
30	Housing	99	Trust buildings

OTHER STRUCTURES AND FACILITIES—PROPERTY CODE 3

12	Airfield pavements	71	Utility systems
13	Harbor and port facilities	72	Communication systems
15	Power development and distribution	73	Navigation and traffic aids
16	Reclamation and irrigation	76	Roads and bridges
18	Flood control and navigation	77	Railroads
40	Storage—Other than buildings	78	Monuments and memorials
50	Industrial	79	Miscellaneous military facilities
60	Service (other than buildings)	80	All other
70	Research and development	99	Trust

Explanations: Property codes 1, 2, and 3 indicate whether an installation consists of land, buildings, and structures and facilities, respectively, or combinations thereof. Usage codes describe the predominant usage under each of these categories. How acquired code applies to land only and indicated manner of acquisition. Example: Entries 1 in the Property code column, 10 in the Usage code column, and 1 in the How acquired column would indicate that an installation includes land used predominantly for locating office buildings there, and was acquired as public domain. This same installation might have other entries, such as 2 in the Property code column and 10 in the Usage code column which would indicate an office building.

¹ Buildings, structures, and facilities computed at acquisition (known or estimated) cost, and these figures are included in the Federal realty section of this report.

DEPARTMENT OF AGRICULTURE,
Washington, D.C., March 26, 1971.

Hon. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives,
Washington, D.C.

DEAR MR. CHAIRMAN: In accordance with your March 1 request, there is enclosed a tabulation showing by States the acreages and estimated value of the public domain properties administered by this Department as of June 30, 1970.

Acquisitions, disposals, transfers and other authorized transactions made by the Department in fiscal years 1969 and 1970 have resulted in a decrease of 386,519 acres from the amount of public domain realty administered by the Department at the time of the last (1968) report.

In connection with this report, land and timber values have been restudied and adjusted to more accurately reflect current market conditions. The values shown are our best estimates of the present value of the public domain land and timber in the Department's custody. These lands contain or contribute to other public values not subject to accurate appraisal such as minerals, water, recreation, etc. Such values are not included in this report.

It is hoped that these data will be useful to your committee. We will be pleased to provide any additional information that would be helpful.

Sincerely,

FRANK B. ELLIOTT,
Acting Assistant Secretary for Administration.

THE SECRETARY OF COMMERCE,
Washington, D.C., April 1, 1971.

HON. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives,
Washington, D.C.

DEAR MR. CHAIRMAN: The data covering public domain properties under the jurisdiction of the National Oceanic and Atmospheric Administration, as requested in your letter of February 26, 1971, is attached.

The properties being transferred from the Department of Interior to the Department of Commerce, pursuant to Reorganization Plan No. 4 of 1970 and effective October 3, 1970, have been excluded from this report since the official transfer is subject to a final determination order. The Department of Interior has advised that they will include the properties being transferred in their report. I am attaching hereto copies of the GSA Form 1166 "Annual Report of Real Property Owned by the United States", covering the latter in the event that their report does not designate properties separately.

I trust this information will meet your requirements.

Sincerely,

MAURICE H. STANS,
Secretary of Commerce.

Fairbanks Weather Station

1. Number of acres and location:

(a) Acres: 810.

(b) Location: Fort Fairbanks, Fairbanks, Alaska.

2. Description of property:

(a) Land: All of section 16, parts of sections 15 & 17, T. 1 N., R. 1 W.

(b) Buildings, all permanent:*

	Number	Floor space (square feet)
(1) Office.....	2	4,784
(2) Storage.....	2	1,217
(3) Service.....	3	585

Total.....	7	6,586
------------	---	-------

(c) Facilities, all permanent:

(1) Electrical distribution system.

(2) Roads and bridges.

(3) Sewer system.

(4) Water supply.

(5) Fence.

(6) Concrete vaults.

3. Use of land and buildings:

(a) Geophysical Observatory and Communication Center.

4. Evaluation of lands, buildings and facilities:

(a) Land, estimated.....	\$81,000
(b) Buildings.....	138,000
(c) Facilities.....	287,000

Total.....	506,000
------------	---------

*Not to delay acquisition ESSA accepted building from the Army on an "as is" condition. Three buildings, main building, oil reservoir and shed (listed as storehouse), are not in a usable condition and will be demolished.

Point Barrow Observatory

1. Number of acres and location:

(a) Acres: 10.3.

(b) Location: Point Barrow, Alaska, within city limits.

2. Description of property:

(a) Land: Level residential type land within city limits.

(b) Buildings, all permanent:

	Number	Floor space (square feet)
(1) Houses	5	5, 740
(2) Storage	2	480
(3) Service	2	1, 593
(4) Observatory	1	640
(5) Inflation building	1	384

Total

11 8, 837

(c) Facilities, all permanent:

(1) Electrical distribution.

(2) Natural gas system.

(3) Water supply storage tank.

(4) Sewage system.

3. Use of land and buildings:

(a) A Weather Bureau Meteorological Observatory.

4. Evaluation of lands, buildings and facilities:

(a) Land, estimated	\$10, 000
(b) Buildings	254, 000
(c) Facilities	10, 000

Total

274, 000

Sitka Magnetic Observatory

1. Number of acres and location:

(a) Acres: 117.3.

(b) Location: Sitka, Alaska, Baranof Island.

2. Description of property:

(a) Land: Wooded land on northern outskirts of Sitka.

(b) Buildings, all permanent:

	Number	Floor space (square feet)
(1) Houses	2	4, 551
(2) Storage	1	323
(3) Service	1	252
(4) Observatory	3	2, 167

Total

7 7, 293

(c) Facilities, all permanent:

(1) Electrical distribution system.

(2) Roads and bridges.

(3) Sewage system.

(4) Water system.

3. Use of land and buildings:

(a) A primary magnetic observatory and seismological station.

4. Evaluation of lands, buildings and facilities:

(a) Land	\$35, 191
(b) Buildings	51, 000
(c) Facilities	4, 000

Total

90, 191

Tucson Magnetic Observatory

1. Number of acres and location:

(a) Acres: 173

(b) Location: Tucson, Pima County, Ariz.

2. Description of property:

(a) Land: Desert land located 10 miles east of Tucson.

(b) Buildings, all permanent:

	Number	Floor space (square feet)
(1) Office.....	1	1, 200
(2) Houses.....	2	2, 766
(3) Storage.....	2	778
(4) Observatory.....	10	2, 864
Total.....	15	7, 608

(c) Facilities, all permanent:

(1) Fencing: 4,400 feet.

(2) Gasoline storage tank: 280 gallons.

(3) Well: 200 feet, with 5,000-gallon storage tank.

(4) Sewage system.

3. Use of land and buildings:

(a) Primary magnetic observatory and seismological station.

4. Evaluation of lands, buildings, and facilities:

(a) Land.....	\$310, 000
(b) Buildings.....	54, 000
(c) Facilities.....	19, 000
Total.....	383, 000

Note: June 30, 1968, report is revised to reflect the following changes: (1) Transfer of 2.1 acres to Alaska Native Hospital Bethel. This is a portion of a tract of land originally withdrawn from public lands and reserved for use of Department of Air Force as the Bethel TACAN site. (2) Change in acreage at Kotzebue, Alaska, based on amendment to land survey. (3) Transfer of 34.2 acres at PHS Alaska Native Hospital, Mount Edgecumbe, to Bureau of Land Management. (4) Changes in value of land and improvements.

THE SECRETARY OF HOUSING AND URBAN DEVELOPMENT,
Washington, D.C., April 2, 1971.

HON. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.

DEAR MR. HOLIFIELD: Pursuant to your request of March 1, 1971, enclosed is the Department's portion of the "Federal Property Inventory Report" as of June 30, 1970.

If we can be of further assistance to the committee, please do not hesitate to call on us.

Sincerely,

RICHARD C. VAN DUSEN
(For George Romney).

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT FEDERAL PROPERTY
INVENTORY REPORT AS OF JUNE 30, 1970

Dawson, Okla.—Lanham Act Project

1. Sanitary Sewer Collector System in Dawson, Tulsa County, Okla.
2. Sewerage system constructed by the Federal Works Agency in Dawson under Title II of the Lanham Act. The town has a 20-year lease with an option to purchase. The last rental paid was as of July 1, 1968. *No land involved.* Sewer system consists of the following: pipe lines, manholes, lift stations and appurtenances on certain specified lands in the Town of Dawson.
3. Being used by the City of Dawson. HUD is negotiating with City officials to deed the property to the City.
4. Valuation of \$59,472.19 shown on HUD records based on construction costs. Present-day evaluation not known.

Newport, R.I.—Lanham Act Project

1. Water Supply System in Newport, Rhode Island.
2. Additional water supply facilities constructed in Newport in 1942 by the Federal Works Agency under Title II of the Lanham Act to relieve an acute shortage of such facilities in that area. Under an agreement with the City of Newport, the City would operate and maintain the facilities for a period of 40 years, and at the end of that time, title would vest in the City. The consideration for the agreement was a reduction of the water rates to be charged various Government agencies or establishments served by the City Waterworks System. *No land involved.* The facilities consist of: a dam and an impounding reservoir in Lawton Valley; a pumping station at the Lawton Valley dam; a filtration plant; a pumping station at the filtration plant; a storage reservoir and necessary water mains within the Project and connecting the Project with the Waterworks System of the City.
3. Being used by the City of Newport. The existing maintenance and operation agreement with the City will convey title of this property to it in 1982.
4. Valuation on HUD records is \$2,384,501.24. This is based on original construction costs. Present-day evaluation is not known.

Okla. 1-1—Enid, Okla.

1. 5.7 acres of land located in Garfield County, Enid, Okla.
2. Eight buildings containing 80 dwelling units of one- and two-story group houses.
3. This Housing Project, known as Cherokee Terrace, is being operated by HUD because the City of Enid has not established a Housing Authority and appears reluctant to take it over. In addition to the 80 dwelling units, which are fully occupied, the Project includes a complete utility system. Originally sponsored by the Enid Housing Advisory Committee, this Project was initiated as a Federal project by the Public Works Administration. Pursuant to the Housing Act of 1937, the project was transferred to the United States Housing Authority.

4. The Project was completed on October 1, 1937, at an actual total development cost of \$537,758 with a per dwelling unit cost of \$6,722 and a per room cost of \$1,730. Subsequent major improvements, acquisitions and dispositions to the property have increased the book value of the property to a total of \$561,313.72, as follows:

Land.....	\$78, 604. 92
Dwellings.....	466, 177. 43
Dwelling equipment.....	10, 874. 22
Automotive equipment.....	2, 385. 40
Nondwelling equipment.....	3, 271. 75
Total.....	561, 313. 72

No appraisal has been made of the land or the buildings; consequently, the present-day values are not known.

Cal. SF-LC-35—Yuba City, Calif.

1. 2.7 acres of land located on the easterly line of Garden City Highway, one-fourth mile South of Bell Avenue and the Yuba City Limits in Sutter County, California.

2. Vacant land remaining after relinquishing a Farm Labor Camp to the Housing Authority of Sutter County, California, on August 6, 1957.

3. This land is vacant and an attempt was made to sell it on May 2, 1958. An interested buyer was found, but the sale could not be consummated because the Government was not able to provide an acceptable title to the property at that time.

4. Book value is \$536.00. However, a HUD appraisal made in the Fall of 1967 established a value of \$16,000. The Department is negotiating with the Housing Authority of the County of Sutter for the sale of this property.

RECAPITULATION

U.S. DEPARTMENT OF THE INTERIOR,
OFFICE OF THE SECRETARY,
Washington, D.C., April 9, 1971.

HON. CHET HOLIFIELD,
*Chairman, Committee on Government Operations,
House of Representatives,
Washington, D.C.*

DEAR MR. HOLIFIELD: In accordance with your request of March 1, 1971, and our acknowledgment of March 15, 1971, enclosed are the following tabulations covering public domain properties as of June 30, 1970:

Table I: Estimated market value of public domain lands administered by the U.S. Department of the Interior, together with the amount of land involved, average value per acre by State, and actual cost of the improvements on such land.

Table II: Cost of buildings on public domain land by predominant use.

Table III: Cost of structures on public domain land by predominant use.

Table IV: Changes in public domain withdrawals and restorations by functions during fiscal year 1970.

Table V: Mineral resources values of the public domain.

Also enclosed are reports by States, on GSA Form 1166, covering lands carried at "zero value" in the GSA Real Property Inventory, as of June 30, 1970. All lands reported in this category are historical sites under the jurisdiction of the National Park Service.

Sincerely yours,

RICHARD R. HITE,
Deputy Assistant Secretary for Administration.

TABLE I.—ESTIMATED MARKET VALUE OF PUBLIC DOMAIN LANDS ADMINISTERED BY U.S. DEPARTMENT OF THE INTERIOR, AS OF JUNE 30, 1970

State	Acres	Estimated land value	Average value	Cost of improvements

TABLE V.—MINERAL RESOURCE VALUE ¹ OF THE PUBLIC DOMAIN ²

[In thousands of dollars]

State	Estimated Value ³ (rounded off)	Principal Sources
Alabama.....	340	Oil and gas; coal.
Alaska.....	197, 810	Do.
Arizona.....	7, 470	Oil and gas; phosphate; sodium; other.
Arkansas.....	1, 190	Oil and gas.
California.....	176, 320	Oil and gas; coal; phosphate; potash; sodium; other.
Colorado.....	177, 020	Do.
Florida.....	1, 710	Oil and gas.
Idaho.....	11, 980	Oil and gas; phosphate; other.
Kansas.....	10, 310	Oil and gas.
Louisiana.....	16, 190	Oil and gas; other.
Michigan.....	930	Oil and gas.
Minnesota ⁴	2, 900	Copper and nickel.
Mississippi.....	920	Oil and gas.
Montana.....	161, 290	Oil and gas; coal; phosphate; sodium; other.
Nebraska.....	140	Oil and gas.
Nevada.....	25, 090	Oil and gas; phosphate; potash; sodium; other.
New Mexico.....	703, 940	Oil and gas; coal; potash; sodium; other.
North Dakota.....	11, 480	Oil and gas; coal; sodium.
Oklahoma.....	11, 360	Oil and gas; coal; other.
Oregon.....	1, 580	Do.
South Dakota.....	10, 060	Oil and gas.
Utah.....	185, 740	Oil and gas; coal; phosphate; potash; other.
Washington.....	6	Oil and gas; coal.
Wyoming.....	1, 093, 220	Oil and gas; coal; phosphate; sodium.
Subtotal.....	2, 808, 996	
Outer Continental Shelf ⁵	7, 171, 000	Oil and gas; sulfur; salt.
Total.....	9, 979, 996	

¹ For the purpose of establishing a "real estate" value of the public domain, mineral resource values are the capitalized value of income accruing to the Federal Treasury. This income is almost entirely derived from minerals subject to mineral leasing acts. Only negligible income is derived from minerals subject to location under the mining laws because they pass from Federal ownership upon discovery; before discovery, they have only speculative assignable value best reflected in the surface values. Building stone, sand and gravel, and similar materials subject to disposal under the materials act are also reflected in surface values.

² Includes lands transferred from the public domain; excludes acquired lands.

³ Predicated on present receipts from mineral leases, licenses and permits taking into account probable future production and demand factors; capitalized (except where noted) as an annuity for 50 years at 4 percent compound interest and discounted to present value. Estimate as of June 30, 1970.

⁴ Minnesota copper and nickel royalty estimates are capitalized as the present value, at 4 percent compound interest, a 25-year annuity deferred 25 years.

⁵ The Outer Continental Shelf estimate is preliminary, subject to change with production experience, with litigation, with large bonuses from lease sales, and with technologic developments.

PUBLIC DOMAIN PROPERTIES UNDER THE CONTROL OF THE DEPARTMENT OF JUSTICE AS OF JUNE 30, 1970

U.S. PENITENTIARY, ALCATRAZ ISLAND, CALIF.

The 22.5 acres of land are valued at \$178,000. Although the buildings were valued at \$1,606,000 and other facilities at \$406,000 back in 1964 when this entire facility was transferred to GSA for disposition, we assume the buildings and facilities have deteriorated quite badly to date, making their value at this time almost impossible to determine. As of June 30, 1970, we have not been advised as to final disposition.

FEDERAL REFORMATORY, EL RENO, CALIF.

At present there are 3,595 acres of public domain land valued at \$224,000. The buildings are presently valued at \$2,439,000 and other structures and facilities at \$833,000 making a total book value of \$3,496,000. This represents an increase of \$123,000 to our buildings and other structures.

FEDERAL PRISON CAMP, FLORENCE, ARIZ.

Camp facilities were closed down in May 1968, only the detention center remaining active. This reduced acreage from 456.5 to 20.0 with present value at \$500. The remaining buildings are valued at \$365,000 and other structures and facilities at \$11,000 making a total book value of \$376,500. This represents a decrease of \$409,500 due to decreased operations of the prison facility.

U.S. PENITENTIARY, LEAVENWORTH, KANS.

The 1,296.4 acres of public domain land are valued at \$188,000, buildings at \$4,875,000 and other structures and facilities at \$1,962,000 making a total book value of \$7,025,000. This represents an increase of \$16,000.

FEDERAL PRISON CAMP, SAFFORD, ARIZ.

Acreage was reduced from 238.7 to 237.6 as the result of a small amount withdrawn by the Department of the Interior, the value reduced from \$2,387 to \$2,376. Buildings are valued at \$350,000 and other structures and facilities are valued at \$133,000 making the total valuation \$485,376. This represents an increase of \$4,989.

The above values,* as heretofore, were excluded from the 1970 fiscal year report on S.F. 1166 to GSA. Amounts represented above as increases or decreases are June 30, 1970 values compared with June 30, 1968, the date of our last report to the committee.

* Land only.

U.S. DEPARTMENT OF JUSTICE
RECAPITULATION, PUBLIC DOMAIN PROPERTIES, AS OF JUNE 30, 1970

Installation	Number of acres	Value of acreage	Value of buildings and facilities	Total value

(237)

THE SECRETARY OF TRANSPORTATION,
Washington, D.C., April 13, 1971.

HON. CHET HOLIFIELD,
*Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.*

DEAR MR. CHAIRMAN: As requested in your letter of March 1, 1971, enclosed in duplicate is the departmental report covering public domain and "no value" real properties under the control of this Department as of June 30, 1970. This report consists of the individual tabulations of the U.S. Coast Guard, the Federal Aviation Administration and the Federal Railroad Administration.

There are no other properties under the jurisdiction of this Department which meet the established criteria.

Sincerely,

JOHN A. VOLPE,
Secretary of Transportation.

(238)

DEPARTMENT OF TRANSPORTATION

UNITED STATES COAST GUARD

PRESENT DAY VALUE OF COAST GUARD HOLDINGS
OF
PUBLIC DOMAIN REAL PROPERTY

AS OF 30 JUNE 1970

REPORT NUMBER
RPR005A25A

PREPARED BY

DATA SYSTEMS DIVISION

LAND—PROPERTY CODE 1

Usage code	Description	Usage code	Description
01	Agricultural	16	Reclamation and irrigation
04	Grazing	18	Flood control and navigation
07	Forest and wildlife	19	Vacant
08	Parks and historic sites	20	Institutional
10	Office building locations	30	Housing
11	Military—Except airfields	40	Storage
12	Airfields	50	Industrial
13	Harbor and port terminals	80	Other land
15	Power development and distribution	99	Trust land

BUILDINGS—PROPERTY CODE 2

10	Office	40	Storage
21	Hospital	50	Industrial
22	Prisons	60	Service
23	Schools	70	Research and development
29	Other institutional uses	80	All other
30	Housing	99	Trust buildings

OTHER STRUCTURES AND FACILITIES—PROPERTY CODE 3

12	Airfield pavements	71	Utility systems
13	Harbor and port facilities	72	Communication systems
15	Power development and distribution	73	Navigation and traffic aids
16	Reclamation and irrigation	76	Roads and bridges
18	Flood control and navigation	77	Railroads
40	Storage—Other than buildings	78	Monuments and memorials
50	Industrial	79	Miscellaneous military facilities
60	Service (other than buildings)	80	All other
70	Research and development	99	Trust

Explanations: Property codes 1, 2, and 3 indicate whether an installation consists of land, buildings, and structures and facilities, respectively, or combinations thereof. Usage codes describe the predominant usage under each of these categories. How acquired code applies to land only and indicated manner of acquisition. Example: Entries 1 in the Property code column, 10 in the Usage code column, and 1 in the How acquired column would indicate that an installation includes land used predominantly for locating office buildings there, and was acquired as public domain. This same installation might have other entries, such as 2 in the Property code column and 10 in the Usage code column which would indicate an office building.

CURRENT MARKET VALUE OF COAST GUARD HOLDINGS OF PUBLIC DOMAIN REAL PROPERTY, JUNE 30, 1970

THE ALASKA RAILROAD,
Washington, D.C.

PROPERTY INVENTORY REPORT FOR PERIOD ENDING JUNE 30, 1970
PUBLIC DOMAIN LANDS

[All cost rounded to nearest thousand dollars]

1. All public domain lands under jurisdiction of the Alaska Railroad are located within the State of Alaska. (Acres to nearest tenth): 36,399.57.

2. Estimated value of public domain lands: \$36,400,000.

3. Usage of lands and buildings; and evaluation:

a. Lands are used for three purposes:

- (1) Right-of-way for tracks and roads.
- (2) Railroad yards, including lands occupied by Railroad owned buildings and structures.
- (3) Lands leased by Railroad to others for industrial purposes.

B. USAGE OF BUILDINGS

	Number of buildings	Acquisition cost
Office buildings.....	6	\$1, 140, 000
School.....	1	9, 000
Housing.....	51	916, 000
Storage.....	134	2, 202, 000
Service buildings (such as repair shops).....	19	6, 887, 000
Other buildings (such as passenger depots, trainmen and repairmen warming sheds, air compressor houses, etc.).....	23	736, 000
Total.....	234	11, 890, 000

Other structures and facilities:

	Acquisition cost
(1) Piers, jetties, and breakwaters associated with harbor and port facilities.....	\$10, 506, 000
(2) Storage tanks, silos, igloos, underground vaults, and im- proved open storage areas.....	80, 000
(3) Service facilities (such as sawmills, etc.).....	141, 000
(4) Waterlines, sewerlines, steamlines, electrical systems, storm sewerlines, pumphouses, wells, standby or auxiliary powerplants, and lighting structures.....	3, 900, 000
(5) Telephone plants, telephone and telegraph lines, including microwave system.....	1, 725, 000
(6) Roads and road bridges.....	484, 000
(7) Railroad tracks, bridges, culverts, tunnels, fuel, and water stations.....	85, 460, 000
(8) All others (such as fences, sidewalks, loading ramps, pe- destrian overpasses, car weighing facilities, etc.).....	630, 000

Total other structures and facilities..... 102, 926, 000

REMARKS

1. Relinquishments resulted in deletions or decreases at the following locations:

	Acres
Anchorage	14.9
Susitna	40.3
Aniak	288.5
Bethel	1,579.0
Juneau	18.3

424.4 acres was erroneously reported at Big Lake. It is held under a special land-use permit.

2. Changes in valuations of improvements are due to new installation or disposal of surplus properties.

3. Relinquishment actions are in process or are planned at the following locations:

Cordova	855.0	Summit	445.0
Fort Yukon	6.2	Woody Island	192.0
King Salmon	1,178.2	Umnak	143.0
King Salmon	579.8	Galena	1,049.6
King Salmon	356.4	Gulkana	77.8
Nenana	360.0	Iliamna	988.7
Nenana	160.0	Kenai	320.0
Northway	304.7	Kotzebue	112.5
Port Heiden	588.0	Talkeetna	20.0

U.S. ATOMIC ENERGY COMMISSION,
Washington, D.C., April 1, 1971.

HON. CHET HOLIFIELD,
*Chairman, Committee on Government Operations,
House of Representatives.*

DEAR MR. HOLIFIELD: Reference is made to your letter of March 1, 1971, requesting information as to the public domain land used by the Atomic Energy Commission and AEC-owned improvements thereon as of June 30, 1970.

Enclosed is a staff report with attachments furnishing the requested information.

Sincerely,

R. E. HOLLINGSWORTH,
General Manager.

Subject: June 30, 1970 values of public domain land used by AEC and AEC improvements on such land.

Reference: Letter dated March 1, 1971, from Chairman, House of Representatives, Committee on Government Operations relating to the above subject.

Attached is a tabulation by states showing (1) the area, the value as of June 30, 1970, and the use of the public domain land controlled by the Atomic Energy Commission in connection with its operations, (2) the number, classification, and the value as of June 30, 1970, of "Other Structures and Facilities" constructed on such land by the AEC. The statistical tabulation has been prepared on the basis of information furnished by field offices using public domain land in accordance with the following guidelines:

1. Public domain. For the purpose of the report the term public domain was defined as that land within the continental United States, title to which was acquired by the United States of America by treaty, conquest, or cession from the original thirteen colonies and such title is still vested in the United States; and, that land which has acquired the status of public domain by virtue of an Act of Congress.

2. Present value of public domain land. The values shown cover the surface land only. The value of land reported for this year is based on valuations furnished informally by the Department of the Interior as to the estimated value of public domain lands in 1970. These valuations, in general, represent the average of all classifications of land in a particular state.

3. Present value of buildings. The estimated present day value for buildings and other structures and facilities was determined by taking the total net book cost as of June 30, 1968, for each classification reported and applying a ratio from the Engineering News Record for June 1970 to a corresponding Engineering News Record cost index applicable at the time of construction. In general, this method results in a valuation based upon current replacement cost adjusted for depreciation.

General: The value for "Buildings" excludes the cost of equipment which is not capitalized as a part of the cost of the buildings.

GENERAL SERVICES ADMINISTRATION,
Washington, D.C., April 16, 1971.

Hon. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: In accordance with your request of March 1, 1971, there is enclosed a tabulation of public domain properties under the jurisdiction of the General Services Administration of June 30, 1970.

A review of General Services Administration accounting records shows no land (other than public domain) recorded at zero or \$1 for accounting purposes.

The five summary tables on real property owned by the United States throughout the world, as of June 30, 1970, and a statement of coverage was forwarded to you on March 18, 1971.

Sincerely,

OLIVER THURMAN,
Deputy Assistant Administrator.

INTERNATIONAL BOUNDARY AND WATER COMMISSION,
UNITED STATES AND MEXICO,
El Paso, Tex., March 17, 1971.

MR. CHET HOLIFIELD,
Chairman, Committee on Government Operations,
House of Representatives,
Washington, D.C.

DEAR CONGRESSMAN HOLIFIELD: We have enclosed in duplicate a detailed listing of the public domain properties under the jurisdiction of this section as of June 30, 1970, as requested in your letter of February 26, 1971.

This listing indicates the locations and descriptions of the properties, number of acres withdrawn, estimated value of acreage withdrawn, number of acres in use, the value of facilities (no buildings are included) and the estimated value of the acreage in use.

We appreciate the opportunity to assist your committee in the preparation of its "Federal Property Inventory Report."

Sincerely,

J. F. FRIEDKIN, *Commissioner.*

(280)

**TREASURY DEPARTMENT REGULATIONS
RE FINANCIAL STATEMENTS**

TREASURY DEPARTMENT

FISCAL SERVICE

WASHINGTON, D.C., *June 6, 1968.*

PREPARATION OF FINANCIAL STATEMENTS BY GOVERNMENT AGENCIES
PURSUANT TO TREASURY DEPARTMENT CIRCULAR NO. 966, DATED
JANUARY 30, 1956, AS SUPPLEMENTED AND AMENDED

The purpose of this notice is to call attention to certain requirements of Treasury Department Circular No. 966, as supplemented and amended through September 13, 1967, and to emphasize and clarify matters discussed in the following paragraphs:

A. Relating to amendment No. 1, dated September 13, 1967

1. Amendment No. 1 requires the annual submission of a Supplementary Statement of Commitments and Contingencies (Schedule 6) to accompany the Statement of Financial Condition (Standard Form 220) effective with the reports for fiscal year 1968. The original Supplementary Statement of Commitments and Contingencies should be sent to Treasury and two copies directly to the Bureau of the Budget, Washington, D.C. 20503.

2. The Report of Long-Range Commitments and Contingencies (Standard Form 223) was rescinded after the reports for fiscal year 1967 had been submitted to Treasury.

3. Amounts to be reported on the Supplementary Statement of Commitments and Contingencies (Schedule 6) for Categories B through J should be in millions; and, in thousands for Category A only.

4. Report under Category B all long-term contracts other than those recorded as obligations and included under *Category A*—Undelivered Orders and Contracts, (not *Category C* as incorrectly stated in par. 83.b of the instructions dated September 13, 1967). It is essential, in order to arrive at totals in Treasury financial statements to Congress, that an amount be stated for the "Cost of remaining portion of contract" even though it might only be a very rough estimate. Any pertinent comments, such as the basis used for the estimate, past experience, high and low estimates, etc. should be included under "Explanatory notes," using as many lines as necessary.

5. Report under Category G the actuarial status of annuity programs, such as veterans pensions and compensation, social security benefits, retirement benefits, and similar obligations for past services. Due to the varied bases used in the reports received for fiscal year 1967, a concise description of the basis used in determining the actuarial assets, liabilities, and deficiency or surplus must be given under "Explanatory notes." Section 402 of Public Law 89-809, approved November 13, 1966 (80 Stat. 1590), specifies that the actuarial status of insurance and annuity programs be shown; a mere projection of budget expenditures would not appear to comply with the intent of the law.

6. Agencies are to report under Category H all of their adjudicated claims, including any which may have been turned over to the Justice Department or the General Accounting Office for adjudication.

7. It is particularly important to show under "Explanatory notes," for each category of contingency reported, the amount of collateral pledged, assets available (or to be realized) as security for the various contingencies (with Government securities stated separately), and other assets and revenues that would become available in the normal course of events to liquidate such contingencies.

8. The Supplementary Statement of Commitments and Contingencies, and all other statements required under Department Circular No. 966 at the fiscal year end, must be submitted by all agencies as soon as possible following the close of the fiscal year, but not later than September 30.

B. Relating to the financial statements:

1. Unexpended balances of allocations made to other agencies (transfer appropriation accounts) must be reported as part of the fund balances on the SF 220 (Statement of Financial Condition) of the agency making the advance. These amounts must agree with the related amounts shown in column 5 (Postclosing Unexpended Balance) of BA-R 2108. Receivables, accounts payable and amounts equal to other unpaid obligations, and unobligated balances must also be reported on the SF 220 of the agency making the advance. The agency receiving the advance will furnish a schedule showing by line number of the SF 220, the amount that is applicable to allocations from other agencies as reported on line 5 (Allocations from other agencies) of the SF 220.

2. The balances in the F0101 accounts and the reciprocal amounts must be excluded from the body of the SF 220 and shown in a footnote. The same applies to imprest funds, which are carried in the accountability of disbursing officers (par. 13b of the Instructions under Circular No. 966).

3. Report on line 51 (Accrued annual leave) of the SF 220 the amount of unpaid accrued annual leave. Compensatory leave may be included if not reported as a liability elsewhere.

4. (a) The gross amount of participation certificates issued and outstanding is to be shown by the trustor under "Other Liabilities," appropriately identified on line 52 or 53 of the SF 220. The amount of collections (principal and interest) turned over to the trustee and held for payment of principal and interest on participation certificates must be shown under "Advances to Contractors and Agents" on line 11 (Government agencies) and appropriately identified.

(b) Interest accruals on outstanding participation certificates must be shown under "Interest expense" on line 20 (Other) of the SF 221 (Statement of income and expense). Allocations of interest income and administrative expenses of the trustee to the trustor must be shown on line 3 (Other interest income), and line 17 (Administrative expenses).

(c) The face amount of participation certificates sold must be shown by the trustor on line 36 (Issuance of obligations not guaranteed by the U.S.) of the SF 222 (Statement of Sources and Application of Funds), and identified. Transfers of principal to the trustee

must be shown and identified on line 46 of the SF 222. When the trustee makes principal payments, line 46 of the SF 222 will be reduced by such amounts, and line 48 (Redemption of obligations not guaranteed by the U.S.) of the SF 222 increased by an equal amount. Therefore, the balance of line 60 (Advances to contractors and agents . . .) of the SF 222, as it relates to transfers to the trustee should not include amounts attributable to principal.

5. The face amount of participation certificates and mixed-ownership agency securities held is to be shown on line 9 (Other securities) of the SF 220.

6. Agency holdings of family housing mortgages issued by the Department of Defense must be included under "Investments" on line 7 (Securities of wholly owned Government enterprises) of the SF 220, and identified.

7. *Relating to Direct and Guaranteed Loans (Schedule 4a).*—(a) All agencies must report annually, on Schedule 4a, the gross amount of outstanding loans made, purchased or otherwise acquired. Guaranteed and insured loans, and loans sold with recourse must also be included. The data reported must be consistent with similar information reported to the Bureau of the Budget. The amount of direct loans included must agree with the amount shown under "Loans receivable" on line 24 (Other) of the SF 220. The amount of guaranteed and insured loans must agree with comparable information included on Schedule 6.

(b) All columns must be completed. If information for any column is not applicable or is indefinite, it must be fully disclosed by a footnote.

S. S. SOKOL,
Commissioner of Accounts.

TREASURY DEPARTMENT

FISCAL SERVICE

Washington

REGULATION RELATING TO THE SUBMISSION OF CERTAIN FINANCIAL
STATEMENTS BY GOVERNMENT AGENCIES

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D.C., September 13, 1967.

Department Circular No. 966
Amendment No. 1

Fiscal Service
Bureau of Accounts

To Heads of Departments and Agencies and Others Concerned:

AUTHORITY AND PURPOSE

1. This amendment is issued pursuant to Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66b) which authorizes the Secretary of the Treasury to require reports and information from Government agencies for preparing financial reports for the President, the Congress, and the public.

The requirements of this amendment will enable the Secretary of the Treasury to discharge his responsibilities under Section 402 of Public Law 89-809, approved November 13, 1966 (80 Stat. 1590), which requires him to submit to the Congress annual reports relating to contingent and unfunded liabilities of the Government.

REPORTING REQUIREMENTS

2. This amendment requires annual submissions of reports of commitments and contingencies which are not presently included on the Statement of Financial Condition (Standard Form 220). The Report of Long-Range Commitments and Contingencies (Standard Form 223) is hereby superseded by the Supplementary Statement of Commitments and Contingencies (Schedule 6).

AMENDMENTS TO DEPARTMENT CIRCULAR NO. 966 REGULATIONS
DATED JANUARY 30, 1956

3. a. The first sentence of paragraph 6 of the regulations is amended to read as follows:

“Agencies responsible for the administration of corporate or noncorporate activities of the type specified in subparagraphs a,

b, and c in paragraph 3 shall furnish all of the following periodic financial statements for each such activity, whereas agencies referred to in subparagraph d of paragraph 3 are requested to furnish only the Statement of Financial Condition and the Supplementary Statement of Commitments and Contingencies referred to in subparagraphs a and d of this paragraph."

b. Subparagraph d of paragraph 6 is amended to read as follows:

"d. A *Supplementary Statement of Commitments and Contingencies* containing a brief description of the program and showing the maximum amounts of commitments and contingencies, related assets, and other explanatory data."

APPLICABILITY

4. The provisions of this amendment are applicable Government wide to each department, agency, and instrumentality thereof. As with the other reports required under this Circular, these reports shall cover all programs and activities under the control of the agency reporting, with trust programs or activities reported separately and so identified.

EFFECTIVE DATE

5. The provisions of this amendment are effective with the reports for fiscal year 1968. However, agencies are requested to report for fiscal year 1967, by October 31, 1967, those additional liabilities called for in the Supplementary Statement of Commitments and Contingencies (Schedule 6) which are not presently required to be reported on the Statement of Financial Condition (Standard Form 220) or the Statement of Long-Range Commitments and Contingencies (Standard Form 223). The Statement of Long-Range Commitments and Contingencies (Standard Form 223) is rescinded after the reports for June 30, 1967 have been submitted to Treasury.

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

TREASURY DEPARTMENT

FISCAL SERVICE

Washington

AMENDMENTS TO INSTRUCTIONS UNDER TREASURY DEPARTMENT CIRCULAR No. 966

Relating to the submission of certain financial statements by
Government agencies

1. Delete the following from paragraph 4:
"Standard Form 223. Statement of Long-Range Commitments and Contingencies"
2. Delete the following from paragraph 7:
"Standard Form 223----- Semiannually----- X X"

3. Insert the following in paragraph 7 immediately below schedule 5:
 "6. Supplementary Statement of Commitments and Contingencies---- Annually---- X X"
4. Amend subparagraphs b and c of paragraph 28 to read:
 "b. *Accrued annual leave (line 51).*—Report on this line the amount of unpaid accrued annual leave.
 "c. *Blank lines (lines 52 and 53).*—Report on line 52 the amount of unfunded liabilities other than accrued annual leave (i.e. those liabilities for which current obligational authority has not been provided). Liabilities which cannot be classified under any other line shall be reported on line 53 with appropriate descriptive title."
5. Delete part V (pars. 81, 82, and 83) and insert the following:

"V. SUPPLEMENTARY STATEMENT OF COMMITMENTS AND CONTINGENCIES

"81. This statement is supplementary to the Statement of Financial Condition (Standard Form 220) and, as such, will be prepared at the same level as, and will be submitted annually as an attachment to, the Statement of Financial Condition for June 30. It will include all financial commitments and contingencies of Government agencies stated at the maximum limit of risk—not the expected actual cost. This statement is designed to capture those items which are normally included in footnotes to a balance sheet since they cannot properly be classified as real liabilities. The objective is to capture all contractual commitments which bind the Federal Government to pay out money under specified conditions, but which do not represent present liabilities of the Government in the sense of debts owing for cash, goods, services, or other consideration received.

"82. *Form to be Used.*—Attached is an exhibit of the Supplementary Statement of Commitments and Contingencies (Schedule 6) which includes all of the categories described in paragraph 83. It is not necessary to reproduce those categories of the statement for which there are no amounts to be reported. If there is more than one significant program for a category, report each program separately. Information to be submitted should be typed on 8 by 10½ inches bond paper with two copies.

"Amounts to be reported under the various categories will be stated gross. Lines have been provided under Category A—Undelivered orders and contracts, for deducting the amount obligated to other Government funds to arrive at the amount of the Government's commitment to the public. Lines have also been provided under Categories C, E, F, and H for deducting amounts for which funds have already been obligated and included under Category A as undelivered orders and contracts.

"For each of the categories described in paragraph 83, use as many lines as necessary under 'Explanatory notes' to show the amounts of collateral pledged, assets available (or to be realized) as security for such contingencies (with Government securities stated separately), and other assets specifically available to liquidate such contingencies. Description of the assets is essential even if the dollar amounts cannot be ascertained. Also include under 'Explanatory notes' comments pertaining to the significance of the contingencies in terms of past experience and probable risk. Use as much space as needed.

"Amounts to be reported are to be rounded to the nearest million, except amounts for undelivered orders which are to be rounded to the nearest thousand.

"As with the other statements required under Department Circular No. 966 for the period ending June 30, postclosing rather than preclosing balances are to be used. Agencies are also reminded that pursuant to paragraph 5 of the instructions under this circular trust programs and activities will be reported separately and so identified.

"83. Description of Categories To Be Reported:

"a. *Undelivered Orders and Contracts.*—Report in this group obligations legally incurred against appropriations and funds for goods and services not yet received, including undisbursed balances of loan agreements entered into. This amount should exclude advances and equal the amount reported on the Analysis of Appropriation and Fund Balances (Form No. BA-R 2108, Treasury Department Circular No. 965, Revised) in column 9—Undelivered orders and contracts.

"b. *Long-term Contracts* (other than those recorded as obligations and included under Category C).—Report in this category long-term purchase agreements, leases, lease-purchase agreements, and other contracts under which delivery is expected in the future although there may be cancellations in some cases.

"c. *Guaranteed or Insured Credits.*—Report in this category the maximum amount of coverage provided for short- or long-term loans or mortgages made or held by financial institutions, public authorities, or agents, which are guaranteed or insured by Government agencies. In cases where coverage is less than 100 percent, the uninsured or unguaranteed portion of the loans should be stated in the explanatory notes. Also include in this category, on a separate line, the maximum amount of coverage to be provided under commitments outstanding for the guarantee and insurance of loans which have not yet been disbursed by the financial institution, public authority, or agent.

"d. *Participation Certificates.*—Report in this category the face amount of participation certificates outstanding. Under 'Explanatory notes' show the amount of pooled loans and other assets underlying such certificates.

"e. *Insurance Programs.*—Report in this category the maximum amount of coverage provided under programs of insurance for bank deposits, crops, life, war risk, etc. Exclude loans and credit insurance covered under Category C. Where the total risk is readily identifiable the amount and portion not insured by the Government should be identified in the explanatory notes.

"f. *Indemnity Agreements.*—Report in this category the maximum amount of coverage provided under agreements of indemnification. An example which would be included in this category is the Atomic Energy Commission's agreements to indemnify licensees and contractors from public liability rising from nuclear incidents. Where the amount of the indemnity agreement is indefinite, an explanatory note should indicate the nature of the open-end indemnity agreements and the number of such agreements in effect.

"g. *Actuarial Status of Annuity Programs.*—Report in this category the actuarial liabilities, assets, and deficiencies of each annuity program.

"h. *Unadjudicated Claims*.—Report in this category the total amount of unadjudicated claims.

"i. *Commitments to International Institutions*.—Report in this category programs committing the use of Government funds in the future, such as unpaid subscriptions to capital stock of international organizations, etc.

"j. *Other Contingencies*.—Report in this category other contingent liabilities which are not included in any of the above categories."

S. S. SOKOL,
Commissioner of Accounts.

EXHIBIT SCHEDULE 6

Supplementary statement of commitments and contingencies (agency, program, and fund—at the same level as the standard form 220)

	<i>In Thousands</i>
A. Undelivered orders and contracts:	
1. Total amount of undelivered orders and contracts as reported on BA-R 2108.....	-----
2. Less amount obligated to other Government funds.....	-----
3. Net amount obligated to the public.....	-----
4. Explanatory notes (use as much space as needed):	
B. Long-term contracts (delivery is expected in the future although there may be cancellations in some cases):	
1. Annual rental or cost.....	-----
2. Remaining life of contract.....	-----
3. Cost of remaining portion of contract.....	-----
4. Explanatory notes:	
C. Guaranteed or insured credits:	
1. Amount of guarantees or insurance in force.....	-----
2. Amount of commitments to insure.....	-----
3. Total.....	-----
4. Less: Amount included under Category A—Undelivered orders and contracts.....	-----
5. Net amount of contingent liability.....	-----
6. Explanatory notes:	
D. Participation certificates:

TREASURY DEPARTMENT

FISCAL SERVICE

Washington

REGULATION RELATING TO THE SUBMISSION OF CERTAIN FINANCIAL
STATEMENTS BY GOVERNMENT AGENCIES

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D.C., June 16, 1965.

Department Circular No. 966
Supplement No. 1 (Revised)

Fiscal Service
Bureau of Accounts

To Heads of Departments and Agencies and Others Concerned:

PURPOSE OF THIS SUPPLEMENT

1. This revision has as its basic purpose the clarification and updating of requirements for descriptive narrative (a) on the source of data for the reports submitted; (b) explanation of the accounting bases, principles, and standards; (c) the nature of underlying assets and liabilities; and (d) such other information as may be of assistance in the proper evaluation of such reports. The basic purpose is set forth in paragraph 5.

In addition, this revision consolidates, without substantive change, all amendments and instructions issued subsequent to January 30, 1956, the date of the basic regulation and instruction.

With the effective date of this revised Supplement, the following releases are hereby rescinded: Supplement No. 1 to Department Circular No. 966, dated June 1, 1956 and instructions relating thereto, and the Amendment of Instructions under Department Circular No. 966, dated June 23, 1960.

AMENDMENTS TO DEPARTMENT CIRCULAR NO. 966 REGULATIONS DATED
JANUARY 30, 1956

2. Paragraph 3 of the regulations is amended by adding the following subparagraph:

“d. Each executive agency and activity not included in the preceding subparagraphs.”

3. The first sentence in paragraph 6 of the regulations is amended to read as follows:

"Agencies responsible for the administration of corporate or noncorporate activities of the type specified in subparagraphs a, b, and c of paragraph 3 shall furnish all of the following periodic financial statements for each such activity, whereas agencies referred to in subparagraph 'd' of paragraph 3 are requested to furnish only the Statement of Financial Condition referred to in subparagraph 'a' of this paragraph."

AMENDMENTS TO INSTRUCTIONS UNDER DEPARTMENT CIRCULAR NO. 966

4. Paragraph 5 of the Instructions is amended to read:

"The reports required shall cover all programs and activities under the control of the agency reporting, including those operations conducted in the Territories or overseas. Trust programs or activities will be reported separately and so identified. Agencies maintaining accounts at the bureau level will submit individual bureau reports without consolidation. Assets and liabilities accounted for at the departmental level and not included in the individual bureau reports should be reported separately so that all assets of the department will be included. Where there are several regional corporations or institutions in a financial system performing identical functions, such as the twelve banks of the Federal intermediate credit bank system, consolidated statements shall be prepared and submitted for the system. Separate statements for each regional corporation or institution are not required. Where a single fund operated by an unincorporated agency covers activities made up of unlike functions, agencies may be requested to submit separate statements on a program or functional basis."

5. Paragraph 6 of the Instructions is amended to read:

"As stated in the regulations, one of the principles upon which the Treasury Department is proceeding in connection with its responsibility for preparing central financial reports is that such reports should present fairly the financial condition and results of operations of the agencies as shown by their books and supporting records. Therefore, all statements submitted shall be supported by a descriptive narrative summary as follows:

"(a) A general description of the accounting system including (1) the extent to which the accounting system is on the accrual basis; (2) the extent to which the financial statements are based on an integrated set of accounts; (3) where data are derived from non-integrated records, the nature of such records and the accounting or statistical control thereover, and the basis for any estimates used; and (4) whether the accounting system underlying all or specified segments of the financial statements has been approved by the General Accounting Office under Section 113 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66(a)), or has been submitted to the General Accounting Office for approval. In either case the date of approval or submission for approval should be indicated.

"(b) A statement of accounting principles and standards applied to major accounts, covering such matters as (1) basis of valuation—whether at cost, market, appraisal, or other basis; (2) inventory method—whether on first-in—first-out, weighted average or other method; (3) method of determining allowances

for losses; and (4) method of computing depreciation and amortization.

“(c) A description of each major account group as to the nature of the underlying assets or liabilities, terms and conditions of financial agreements, and other factors having a material bearing on the interpretation of the statements. The descriptive narrative shall be presented in the same order in which the account groups appear in the statements, and may be combined with the material required by sub-paragraph (b) above.”

The submission of this descriptive material shall be effective for all statements submitted for the fiscal year ending June 30, 1965, but need not be repeated thereafter unless there has been a change from the preceding report (in which case an explanation of the change should be made, including the effect, if any, on comparability with the financial statements of the preceding June 30). Each set of financial statements thereafter submitted to the Treasury should carry a reference to the most recently submitted descriptive material and indicate that it is still applicable. From time to time the Treasury Department may ask for revised descriptive statements. This descriptive material does not eliminate the need for current notes to the financial statements dealing with specific matters of significance in interpreting the data.

6. Paragraph 7 of the Instructions is amended as follows:

(a) Insert Schedule 4a in proper numerical sequence:

Statement or schedule	Frequency	Original to Treasury	2 copies to Budget Bureau
4a Direct and guaranteed loans.....	Annually.....	X	X

(b) Delete “Description of Items” and references thereto, inserting in lieu thereof:

“Description of Accounting Support (see par. 5 above)”

(c) Change the address to whom the original of each statement and schedule should be submitted to read:

“Division of Government Financial Operations
Bureau of Accounts
Treasury Department”.

7. Delete paragraph 8 of the Instructions.

8. Paragraph 9 of the Instructions is amended to read:

“Reporting agencies shall exercise care to insure consistency of data submitted under these regulations with any similar information reported to committees of the Congress, the Bureau of the Budget, the General Accounting Office, and other Government agencies, or with the regularly published reports of the agency. Where periodic financial reports dealing with financial condition and results of operations stated on the accrual basis are prepared by the agency and are published for general distribution, one copy thereof shall be furnished to the Division of Government Financial Operations, Bureau of Accounts, Treasury Department, and two copies to the Bureau of the Budget at the time the report becomes available.”

9. Paragraph 19 of the Instructions is amended as follows:

(a) Revise the first sentence to read:

"Report in this group the balance of outstanding loans receivable made, purchased, or acquired by rediscount, also purchase money mortgages and similar long-term paper accepted in the sale of acquired security or collateral."

(b) Insert a new subparagraph (d) in connection with Schedule 4a (see par. 6 above) relating to "Direct and Guaranteed Loans" which reads:

"(d) Report on Schedule 4a both the direct and insured or guaranteed loans, by agency and program, as illustrated in the suggested form attached. This Schedule should be submitted as of June 30 of each year. If an agency prepares reports for internal use, containing substantially the data called for in Schedule 4(a), such reports will be accepted in lieu of the suggested form."

10. The third sentence of paragraph 21 of the Instructions, relating to the reporting of buildings, structures, and facilities in process of construction, is amended by deleting the period and inserting a comma, followed by:

"and will be reported and so identified on line 36 of Form 220 rather than on lines 30 and 31."

11. The first two sentences of paragraph 22 of the Instructions are amended to read:

"22. *Other assets*.—Report under this group all other assets which cannot be properly classified under any of the previous asset groups. Real estate or installment sales contracts and other owned property will be reported under this group."

12. In the case of agencies reporting under paragraph 3d of the regulations to Department Circular No. 966 (see par. 2 above), line 68 may be used for reporting the amount of "Unexpended Appropriations" and line 69 may be used for reporting "Invested and Donated Capital" or its equivalent. Such titles shall be typed in.

EFFECTIVE DATE

13. The provisions of this revised supplement to Department Circular No. 966 are effective immediately.

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

SCHEDULE 4A

Direct and Guaranteed Loans, as of

Agency or Fund

Type of loans (for illustration)	Amount outstanding (in thousands) ¹		Maximum authorization ²		Maturity range (number of years) ³		Interest rate range (percent) ³		Range of Government fee or premium on guaranteed loans ³	
	Direct	Guaranteed	Direct	Guaranteed	Adminis- trative	Statutory	Adminis- trative	Statutory	Adminis- trative	Statutory

Total.....										

¹On guaranteed or insured loans report as outstanding the U.S. portion of guarantee only, with footnote as to the amount held by private lenders, if any.

²Show the total including the Government guaranteed and amount of private participation with footnote as to extent of private participation. Where authorization is indefinite as to amount, the amount of loans outstanding may be repeated in this column, with appropriate note. Also indicate

if the authorization is for a limit on the amount outstanding at any one time or on the cumulative amount of loans that can be made. If the authorization covers loans and grants, show the amount available for loans only.

³Report in these columns the minimum and maximum range based on administrative determination of the agency and/or statutory provisions.

TREASURY DEPARTMENT

Washington

REGULATION RELATING TO THE SUBMISSION OF BUSINESS-TYPE
FINANCIAL STATEMENTS BY GOVERNMENT CORPORATIONS AND
CERTAIN UNINCORPORATED AGENCIES*

1956
Department Circular No. 966

Fiscal Service
Bureau of Accounts

TREASURY DEPARTMENT,
OFFICE OF THE SECRETARY,
Washington, D.C., January 30, 1956.

To Heads of Departments and Agencies and Others Concerned:

PURPOSE OF REGULATION

1. The financial statements and related information to be submitted under these regulations are required to furnish financial information for use by the Treasury Department in discharging its responsibility under the Budget and Accounting Procedures Act of 1950 for compilation of overall financial reports of the Government, and for use by the Bureau of the Budget in following through with the budgetary programs of the reporting agencies.

AUTHORITY FOR REGULATION

2. This regulation is issued pursuant to section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66b) which authorizes the Secretary of the Treasury to require from agencies reports and information for the effective performance of his responsibility for preparing such reports for the information of the President, the Congress, and the public as will present the results of the financial operations of the Government. As authorized by said section, the regulation provides for the furnishing of such financial data as are required by the Director of the Bureau of the Budget.

SCOPE OF REGULATION

3. This regulation requires the submission of financial statements by corporate and noncorporate Government agencies of the following character:

*With corrections made by supplement No. 1 of June 16, 1955, and amendment No. 1 of Sept. 13, 1967.

a. All wholly-owned and mixed ownership Government corporations specifically included in the Government Corporation Control Act and amendments thereto, or subsequently brought under the provisions of that act.

b. All other activities of the Government operating as revolving funds (accounts symbolized 4000-4999 and 8400-8499 by the Treasury Department), for which business-type public enterprise or intragovernmental fund budgets are required by the Bureau of the Budget.

c. Other activities or agencies (1) which are of a business-type nature; or (2) whose operations, services, or functions are largely self-liquidating or primarily of a revenue producing nature; or (3) whose operations result in the accumulation of substantial inventories, investments or other recoverable assets. Agencies and other activities to report under this category will be designated by the Fiscal Assistant Secretary of the Treasury.

d. Each executive agency and activity not included in the preceding subparagraphs.

ISSUANCE OF INSTRUCTIONS

4. Financial statements and related information under this regulation shall be prepared and submitted by the agencies concerned, in the form and the manner prescribed in the procedural instructions issued by the Fiscal Assistant Secretary of the Treasury.

WAIVERS

5. The Fiscal Assistant Secretary of the Treasury is authorized to waive the provisions of this regulation in whole or in part as to any agency or activity when it is determined that full compliance by such agency or activity is not necessary to accomplish the overall objective to obtain information required for the preparation of financial reports or for the purposes of the Bureau of the Budget.

PERIODIC REPORTS REQUIRED

6. Agencies responsible for the administration of corporate or non-corporate activities of the type specified in subparagraphs a, b, and c in paragraph 3 shall furnish all of the following periodic financial statements for each such activity, whereas agencies referred to in subparagraph d of paragraph 3 are requested to furnish only the Statement of Financial Condition and the Supplementary Statement of Commitments and Contingencies referred to in subparagraphs a and d of this paragraph.

a. A *Statement of Financial Condition* showing the assets, liabilities, and investments of the United States Government in the enterprise.

b. A *Statement of Income and Expense and Changes in Accumulated Net Income (or Deficit)* showing in condensed form the earnings or losses arising from operations and changes in accumulated net income (or deficit) for the fiscal year to the end of the reporting period.

c. A *Statement of Sources and Application of Funds* showing the manner in which funds have been applied to the acquisition

of assets, to expenses, and to retirement of borrowings and capital; the manner in which funds have been provided by the realization of assets, by income, by borrowings and capital contributions; and from which the net effect of such operations on the budget for the Government as a whole can be determined.

d. A *Supplementary Statement of Commitments and Contingencies* containing a brief description of the program and showing the maximum amounts of commitments and contingencies, related assets, and other explanatory data.

ACCOUNTING SUPPORT FOR REPORTS

7. One of the principles upon which the Treasury Department is proceeding in connection with the responsibility for preparing central financial reports is that such reports should present fairly the financial condition and results of operations of the agencies as shown by their books and records. Hence, agencies shall furnish the Treasury Department with such information regarding the accounting basis for their reports submitted under this regulation, as may be required for proper evaluation of such reports.

EFFECTIVE DATE

8. This regulation, with the concurrence of the Director of the Bureau of the Budget, supersedes Budget-Treasury Regulation No. 3, dated September 1, 1944, and revised March 15, 1947, issued pursuant to Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942, and shall be effective with the period ending March 31, 1956.

W. RANDOLPH BURGESS,
Acting Secretary of the Treasury.

TREASURY DEPARTMENT

FISCAL SERVICE

Washington

INSTRUCTIONS UNDER TREASURY DEPARTMENT CIRCULAR No. 966

Relating to the submission of
business-type financial statements
by Government corporations
and certain unincorporated agencies

I. GENERAL

AUTHORITY FOR INSTRUCTIONS

1. These instructions are issued pursuant to Treasury Department Circular No. 966, issued under the authority contained in Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66b).

SCOPE OF INSTRUCTIONS

2. These instructions explain the kinds of reports and other information to be furnished to the Treasury Department under the regulation; the periods of time to which the reports shall relate; and other reporting specifications, including information concerning accounting support for the data reported.

3. All questions pertaining to the regulations or these instructions should be submitted to the Bureau of Accounts, Treasury Department.

KINDS OF REPORTS AND INFORMATION REQUIRED

4. The financial statements shall be submitted on the following standard forms:

Standard Form 220. Statement of Financial Condition

Standard Form 221. Statement of Income and Expense

Standard Form 222. Statement of Sources and Application of Funds

The printed forms may be purchased through the General Services Administration. Supporting schedules to be submitted as hereinafter required should be prepared or reproduced on letter size (8 by 10½ inches) paper with appropriate title and references. Minus or "red" figures should be indicated by an asterisk (*). A duly authorized officer of the reporting agency will sign the original Standard Form 221. The copies need not be signed but should bear the name of the signing officer.

5. The reports required shall cover all programs and activities under the control of the agency reporting, including those operations conducted in the territories or overseas. Trust programs or activities will be reported separately and so identified. Agencies maintaining accounts at the bureau level will submit individual bureau reports without consolidation. Assets and liabilities accounted for at the departmental level and not included in the individual bureau reports should be reported separately so that all assets of the department will be included. Where there are several regional corporations or institutions in a financial system performing identical functions, such as the twelve banks of the Federal intermediate credit bank system, consolidated statements shall be prepared and submitted for the system. Separate statements for each regional corporation or institution are not required. Where a single fund operated by an unincorporated agency covers activities made up of unlike functions, agencies may be requested to submit separate statements on a program or functional basis.

6. As stated in the regulations, one of the principles upon which the Treasury Department is proceeding in connection with its responsibility for preparing central financial reports is that such reports should present fairly the financial condition and results of operations of the agencies as shown by their books and supporting records. Therefore, all statements submitted shall be supported by a descriptive narrative summary as follows:

(a) A general description of the accounting system including

(1) the extent to which the accounting system is on the accrual basis; (2) the extent to which the financial statements are based on an integrated set of accounts; (3) where data are derived from nonintegrated records, the nature of such records and the account-

ing or statistical controls thereover, and the basis for any estimates used; and (4) whether the accounting system underlying all or specified segments of the financial statements has been approved by the General Accounting Office under section 113 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66 (a)), or has been submitted to the General Accounting Office for approval. In either case the date of approval or submission for approval should be indicated.

(b) A statement of accounting principles and standards applied to major accounts, covering such matters as (1) basis of valuation—whether at cost, market, appraisal, or other basis, (2) inventory method—whether on first-in—first-out, weighted average or other method, (3) method of determining allowances for losses, and (4) method of computing depreciation and amortization.

(c) A description of each major account group as to the nature of the underlying assets or liabilities, terms and conditions of financial agreements, and other factors having a material bearing on the interpretation of the statements. The descriptive narrative shall be presented in the same order in which the account groups appear in the statements, and may be combined with the material required by subparagraph (b) above.

REPORTING PERIODS AND DISTRIBUTION OF STATEMENTS

7. See table below for forms and schedules and frequency of reporting.

Statement or schedule	Frequency	Original to Treasury	2 copies to Budget Bureau
Forms:			
Standard Form 220.....	Quarterly.....	×	×
Standard Form 221.....	do.....	×	×
Standard Form 222.....	do.....	×	×
Schedules:			
1. Cash and fund balances.....	do.....	×	×
1a. Cash in banks.....	Annually.....	×	×
2. Investments in public debt securities.....	Monthly.....	×	×
3. Investments other than public debt securities.....	Quarterly.....	×	×
4. Loans receivable—Other loans.....	do.....	×	×

5. Bonds, debentures, and notes payable.....	Quarterly.....	×	×
6. Supplementary statement of commitments and contingencies.....	Annually.....	×	×
Description of accounting support. (See 5 above.).....	do.....	×	×

The statements due quarterly as of the quarters ending September 30, December 31, March 31, and June 30 of each year shall be submitted on or before the 15th of the second month following those dates, except that all statements required at the fiscal year end should be submitted as soon as possible following the close of the fiscal year, but not later than the following September 30. Schedule 2—Investments in Public Debt Securities, provided for in paragraph 14f, shall be submitted each month within 20 days after the month for which it is rendered. The original of each statement and schedule shall be submitted to:

Division of Central Accounts and Reports
Bureau of Accounts
Treasury Department

Two copies of each statement indicated above for the Bureau of the Budget shall be submitted directly to that agency at the same time the originals are sent to the Treasury.

ACCOUNTING SUPPORT FOR REPORTS

9. Reporting agencies shall exercise care to insure consistency of data submitted under these regulations with any similar information reported to committees of the Congress, the Bureau of the Budget, the General Accounting Office, and other Government agencies, or with the regularly published reports of the agency. Where periodic financial reports dealing with financial condition and results of operations stated on the accrual basis are prepared by the agency and are published for general distribution, one copy thereof shall be furnished to the Division of Central Accounts and Reports, Bureau of Accounts, Treasury Department, and two copies to the Bureau of the Budget at the time the report becomes available.

EFFECTIVE DATE

10. These procedural instructions shall be effective with the reports to be submitted for the quarter ending March 31, 1956.

II. STATEMENT OF FINANCIAL CONDITION

GENERAL

11. The *Statement of Financial Condition (Standard Form 220)* will show in condensed form the assets, liabilities, investment of the United States Government, and other capital of each of the reporting corporations and enterprises. The items to be reported under each classification are described below with appropriate reference to the line number on Standard Form 220. For purposes of uniformity, reporting agencies will adhere to the group classifications provided. Certain group classifications contain blank lines for reporting items to be determined and titled by the reporting agency. Supporting detail for certain items shall be furnished in supplemental schedules as indicated. Other supplemental schedules in addition to those specified herein may on occasion be requested from selected reporting agencies.

12. *Interagency Items.*—Interagency receivables and payables representing amounts due to and from other Federal Government agencies on open accounts, notes, or similar indebtedness will be reported on the separate lines provided therefor under the appropriate asset and liability groups on the Statement of Financial Condition. Any reporting agency holding securities or a proprietary interest in the capital of another Government agency will report such holding under investments and include the same as a separate item in schedule 3 (see par. 14f). Bonds, debentures, and notes payable of the reporting agency which are payable to other Government agencies shall be reflected on schedule 5.

REPORTING OF ASSETS

13. *Cash and Fund Balances.*—Report under this group cash belonging to the reporting agency or held for the account of others, including unexpended balances of funds made available by appropri-

tion. Balances on deposit in banks and in the Treasury should be reflected on a basis of confirmed deposits and checks issued and consistent with the basis for determining unexpended balances of appropriations and funds in the Treasury central accounts. The itemization hereunder will show:

a. *Cash in banks (line 1).*—Report on this line cash in commercial banks which is subject to withdrawal by the reporting agency for regular operations.

b. *Cash on hand and in transit (line 2).*—Report on this line cash on hand. Imprest funds and advances with agent cashiers will be included only in cases where the amount of the initial advance was made from a commercial bank account or was treated as a reduction in the fund balance available with the United States Treasury. Imprest funds, advances to agent cashiers, and all other cash on hand not related to specific appropriations or funds but treated as part of the accountability of disbursing officers shall not be included. This item will also include collections undeposited and deposits for which certificates of deposit have been confirmed by depositaries as of the close of the period except where such amounts have been included in the accountability of disbursing officers.

c. *Fund balances with U.S. Treasury.*—

(1) *Operating funds (line 3).*—Report on this line (a) amounts available in general, special, and revolving fund accounts including all amounts on deposit in corporation checking accounts with the Treasurer of the United States and on deposit with the Treasurer as special agent for the payment of matured principal and interest of bonds and debentures; and (b) unexpended balances of allocated working fund advances *made to* other agencies.

(2) *Trust and deposit funds (line 4).*—Report on this line balances of trust and deposit fund accounts which have been segregated as such under separate symbols in the Treasury and for which the liabilities are included on lines 46 and 47.

(3) *Allocations from other agencies (line 5).*—Report on this line unexpended balances of allocation and allocated working fund advances received *from* other agencies, regardless of the type of fund account from which advanced (consolidated reports prepared by the Treasury will eliminate this line together with the corresponding liability).

d. *Supplementary Schedule 1.*—A schedule showing the distribution by appropriation and fund account symbol of the amounts reported under "Cash and Fund Balances," by line item, will be presented in accordance with the format illustrated. In those instances where the statement covers only a single fund, the symbol of the fund may be shown in the stub for the appropriate line in lieu of submitting a separate schedule. Once each year, as of June 30, the amount of "Cash in banks" (line 1) will be itemized by bank, location, and amount in accordance with the format illustrated as schedule 1a.

14. *Investments.*—Report under this group securities acquired and held for investment purposes. The itemization hereunder will show:

a. *Public debt securities (par value) (line 6).*—Report on this line the par value of investments in bonds, notes, bills or other public debt obligations issued by the United States.

b. *Securities of wholly owned Government enterprises (line 7).*—Report on this line investments in securities wholly owned Government enterprises, including evidences of obligations, capital stock, and paid-in surplus. Such securities shall be reported at par.

c. *Unamortized premium or discount (line 8).*—Report on this line the amount of unamortized premium (+) or discount (−) applicable to the securities reported on lines 6 and 7.

d. *Other securities (line 9).*—Report on this line all securities acquired and held for investment purposes other than those reported on lines 6 and 7 above. Such securities shall be reported at par, plus or minus unamortized premium or discount, if any.

e. *Allowance for losses (line 10).*—Report on this line the estimated losses on “Other securities” line 9.

f. *Supplemental schedules 2 and 3.*—The supporting data for “Public debt securities (par value)” (line 6) will be prepared *monthly* as illustrated by schedule 2 and submitted each month within 20 days after the month for which it is rendered. Data supporting “Securities of wholly owned Government enterprises” (line 7) and “Other securities” (line 9) will be prepared *quarterly* to accompany the Statement of Financial Condition. The amounts of investments shown on line 7 shall be supported in detail in schedule 3 showing for each issue, the name of the issuing agency, the date of the issue, the interest rate, the call and maturity dates, the par and book values and whether guaranteed or not guaranteed by the United States. Investments reported on line 9 shall be shown on schedule 3 itemized to show securities of mixed-ownership and Government-sponsored corporations separately from securities in other general classifications.

15. *Advances to Contractors and Agents.*—Report under this group the amount of unapplied advances outstanding with contractors or agents. The itemization hereunder will show:

a. *Government agencies (line 11).*—Report on this line advances made to other Government agencies net of the unexpended balances remaining in allocated working funds advanced to such agencies. (Since an advancing agency normally debits an advance account for the full amount of advances made, a reporting adjustment will be necessary at the end of each period transferring from this account to “Operating funds,” line 3, an amount equal to the unexpended balance remaining in any allocated working fund held by the receiving agency. No such adjustment is necessary where the advance is made to a revolving fund or consolidated working fund.)

b. *Other (line 12).*—Report on this line the balance of advances made to private contractors and other individuals, except where such advances are included in the accountability of a disbursing officer.

16. *Accounts and Notes Receivable.*—Report under this group accounts and notes receivable. Notes receivable under this item normally should include only those short-term notes that have been accepted in liquidation of open accounts as distinguished from loans made in connection with authorized lending programs which should be reported under “Loans Receivable.” The itemization hereunder will show:

a. *Government agencies (line 13).*—Report on this line receivables due from other Government agencies, exclusive of advances which are to be reported on line 11 above.

b. *Other (line 14).*—Report on this line the amount of accounts and notes receivable due from other than Government agencies, exclusive of advances which are to be reported on line 12 above.

c. *Allowance for losses (line 15).*—Report on this line the estimated losses on "Accounts and Notes Receivable—Other."

17. *Inventories.*—Report under this group inventories purchased, produced or acquired by forfeiture of loan collateral or donation. The itemization hereunder will show:

a. *Commodities for sale, finished goods, etc. (line 16).*—Report on this line commodities, completed work not yet delivered or finished goods available for sale or delivery though sometimes used by the reporting agency.

b. *Work-in-process (line 17).*—Report in this line the value of work-in-process.

c. *Materials and supplies (line 18).*—Report on this line supplies or materials to be used in the manufacture of a finished product or charged to expense when used. (Supplies normally charged to expense at time of purchase shall not be included.)

d. *Allowance for losses (line 19).*—Report on this line the estimated losses which may be realized on the disposition of the above inventories.

18. *Accrued Interest Receivable.*—Report under this group accrued interest receivable. The itemization hereunder will show:

a. *On public debt securities (line 20).*—Report on this line the amount of accrued interest receivable on direct obligations of the United States issued by the Treasury. The accrual should be computed on the same basis that the Treasury Department computes the accrued interest liability, as set forth in Treasury Department Circular No. 300, Revised, dated April 30, 1955.

b. *On securities of other agencies (line 21).*—Report on this line accrued interest in securities of other Government agencies. This item would include interest on obligations issued by other Government agencies whether guaranteed or not guaranteed by the United States.

c. *Other (line 22).*—Report on this line all accrued interest receivable not reported on lines 20 and 21.

19. *Loans Receivable.*—Report in this group the balance of outstanding loans receivable made, purchased, or acquired by rediscount, also purchase money mortgages and similar long-term paper accepted in the sale of acquired security or collateral. The amounts reported hereunder will include matured and unmatured principal; extensions, and advances to borrowers. Deposits of borrowers held subject to refund or disbursement on behalf of the borrowers will be reported under the group "Trust and Deposit Liabilities." The itemization hereunder will show:

a. *Government agencies (line 23).*—Report on this line loans to Government agencies, which will usually be evidenced by notes receivable or other similar obligations.

b. *Other (line 24).*—Report on this line loans to other than Government agencies made pursuant to authorized lending pro-

grams of the agency. The amount of other loans will be supported by supplemental schedule 4, showing the following information:

(1) *Loans to aid agriculture*.—Report under this item loans to farmers and to institutions whose primary purpose is to aid agriculture. In this classification will be included loans to agricultural credit corporations; cooperative associations; crop, livestock, and commodity loans; farm mortgage loans; and similar loans.

(2) *Loans to aid homeowners*.—Report under this item loans to homeowners and to institutions whose primary purpose is to aid homeowners. In this classification will be included mortgage loans; reconditioning loans; loans to savings and loan associations; and similar loans.

(3) *Loans to aid industry*.—Report under this item loans to industrial and commercial enterprises. In this classification will be included loans to railroads, manufacturing concerns, and public utilities; ship construction and reconditioning loans; and similar loans.

(4) *Loans to aid States, territories, etc.*—Report under this item loans to public bodies, such as States, territories, possessions, municipalities, and similar governmental subdivisions.

(5) *Loans to aid financial institutions*.—Report under this item loans to general financial institutions such as banks, insurance companies, loan companies, and other similar financial institutions.

(6) *Foreign loans*.—Report under this item loans to foreign governments and private entities in foreign countries.

(7) *Other loans*.—Report under this item loans which cannot be appropriately classified under any of the previous loan classifications.

c. *Allowance for losses (line 25)*.—Report on this line the estimated losses on "Loans Receivable—Other" (line 24).

d. Report on Schedule 4a both the direct and insured or guaranteed loans, by agency and program, as illustrated in the suggested form attached. This schedule should be submitted as of June 30 of each year. If an agency prepares reports for internal use, containing substantially the data called for in schedule 4(a), such reports will be accepted in lieu of the suggested form.

20. *Acquired Security and Collateral*.—Report under this item real estate and other mortgage property and pledged collateral acquired and held for sale, including real estate acquired subject to redemption. This acquired security or collateral should be reported net of prior mortgages or liens not assumed. Where the reporting agency has assumed any mortgages or liens in connection with the acquisition of security or collateral, the value of such assets will be reported gross and the mortgage or lien assumed will be reported under "Other Liabilities" (line 52 or 53).

a. *Real estate (line 26)*.—Report on this line real estate, including improvements, acquired in the liquidation of loans.

b. *Other (line 27)*.—Report on this line other types of security and collateral acquired in the liquidation of loans where the collateral acquired is not commingled in the accounts of the agency with similar items purchased.

c. *Allowance for losses (line 28).*—Report on this line the estimated losses on “Acquired Security and Collateral.”

21. *Land, Structures, and Equipment.*—Report under this group the cost of real and personal property acquired by purchase, donation or other methods of acquisition. Residential and farm properties, and other real estate and improvements acquired through foreclosure incident to a lending operation or other Federal-aid projects will not be reported in this section but will be included on line 26. Real property shall be determined for lines 29, 30, and 31 in accordance with General Services Administration Circular No. 80, as supplemented, except that buildings, structures, and facilities in process of construction shall be *included* whether or not “available for service” as of the reporting date, and will be reported and so identified on line 36 of form 220 rather than on lines 30 and 31.

Line 32 (leasehold improvements) shall include the cost of easements, rights-of-way, and leasehold improvements to land, buildings, or structures, and facilities occupied by the Government as lessee. However, cost of Government-owned buildings, structures, and facilities located on leased land shall be included on lines 30 and 31 as appropriate.

Line 33 (machinery and equipment) shall include the cost of machinery and processing equipment, motor vehicles, office machinery, furniture, etc.

Accumulated depreciation (line 34) should represent the amount of depreciation (including amortization of leasehold improvements) applicable to the properties listed which has been charged to costs or depreciation expense.

22. *Other Assets.*—Report under this group all other assets which cannot be properly classified under any of the previous asset groups. Real estate or installment sales contracts and other owned property will be reported under this group.

a. *Deferred and undistributed charges (line 35).*—Report on this line prepaid expenses, unamortized discount on bonds or debentures issued and outstanding and other deferred charges applicable to the operations of future periods as well as debits arising from disbursements or other charges, the distribution or final disposition of which has not been made.

b. *Blank lines (lines 36 and 37).*—Report on these lines, with appropriate descriptive titles, any other assets which cannot be properly classified under any of the previous asset groups.

c. *Allowance for losses (line 38).*—Report on this line the estimated losses on “Other Assets.”

Reporting of Liabilities

23. *Accounts Payable.*—Report under this group accounts payable consisting of amounts owed to creditors on open account (including voucher schedules not yet accomplished by disbursing officers). The itemization under this group will show:

a. *Government agencies (line 40),*

b. *Other (line 41).*

24. *Accrued Liabilities.*—Report under this group accrued interest and other accrued liabilities. Insofar as practicable, similar liabilities which have matured should be reported under “Accounts Payable.”

The itemization hereunder will show:

a. *Government agencies (line 42).*—Report on this line accrued liabilities due Government agencies including accrued interest due the Treasury.

b. *Other (line 43).*—Report on this line all other accrued liabilities, including interest on obligations issued to the public.

25. *Advances from.*—Report under this group the amount of unapplied advance payments received for goods or services to be furnished by the reporting agency. The itemization hereunder will show:

a. *Government agencies (line 44).*—Report on this line the amount due Government agencies for advance payments received, including any unliquidated liability for goods and services in connection with an advance of funds under section 601 of the Economy Act or similar legislation (regardless of the type of fund which advanced).

b. *Other (line 45).*—Report on this line all other liabilities arising from advance payments for goods and services.

26. *Trust and Deposit Liabilities.*—Report under this group the liabilities for amounts held in trust or on deposit (including the unexpended balances of trust fund appropriations) covering such items as cash collateral, proceeds of loans held for the borrowers, time and demand deposits, withholding tax and United States savings bond deductions, undeposited general fund receipts, and other deposits held subject to refund or application. The itemization hereunder will show:

a. *Government agencies (line 46).*—Report on this line the trust and deposit liabilities due Government agencies, including such items as withheld Federal taxes and undeposited general fund receipts.

b. *Other (line 47).*—Report on this line all other trust and deposit liabilities not recorded under line 46.

27. *Bonds, Debentures and Notes Payable.*—Report under this group the par value of all outstanding bonds, debentures, notes, and other obligations of a similar character held by the public or other Government agencies (other than the Treasury). The itemization hereunder will show:

a. *Government agencies (line 48).*—Report on this line bonds, debentures, notes, etc., issued to other wholly-owned Government corporations and agencies (other than the Treasury). Borrowings from the Treasury are to be reported under "United States Interest."

b. *Other (line 49).*—Report on this line bonds, debentures, notes, etc., issued to other than wholly-owned Government corporations and agencies. All marketable obligations shall be reported here even though a portion may have been acquired by another Government agency.

c. *Supplemental Schedule 5.*—Information on the balances reported on these lines will be submitted as illustrated on supplemental Schedule 5, "Bonds, Debentures and Notes Payable," showing the character, date of issue, the interest rate, the call and maturity dates, the par value of each issue outstanding and whether guaranteed by the United States. The fact that another Government agency may own marketable obligations issued to the public by the reporting agency need not be reported.

28. *Other Liabilities*.—Report under this group deferred and undistributed credits and on the blank lines provided, with appropriate descriptive titles, all liabilities which cannot be properly classified under any of the other liability groups.

a. *Deferred and undistributed credits (line 50)*.—Report on this line deferred income, unamortized premium on bonds or debentures issued and outstanding and other credits applicable to operations of future periods as well as items arising from receipts or other credits, the distribution or final disposition of which has not been made.

b. *Accrued annual leave (line 51)*.—Report on this line the amount of unpaid accrued annual leave.

c. *Blank lines (line 52 and 53)*.—Report on line 52 the amount of unfunded liabilities other than accrued annual leave (i.e. those liabilities for which current obligational authority has not been provided). Liabilities which cannot be classified under any other line shall be reported on line 53 with appropriate descriptive title.

29. *Reserves*.—Report on blank lines 54 and 55 operating reserves established for deferred maintenance, liability reserves, reserves established for the benefit of equity holders and other similar special reservations of earnings not classified as part of the "Accumulated net income or deficit" of the enterprise.

REPORTING OF NET INVESTMENT—PRIVATE INTEREST

30. *Private Interest*.—Report under this group the amount of capital provided from non-governmental sources and the accumulated income or deficit applicable thereto. The par value of the capital stock held by the public will be reported on line 57, and the accumulated net income or deficit, segregated as between reserved and unreserved, on lines 58 and 59.

REPORTING OF NET INVESTMENT—UNITED STATES INTEREST

31. *Interest-bearing Investment*.—Report under this group capital stock, paid-in capital, paid-in surplus, advances from revolving funds, bonds, notes, or other capital items provided directly by the United States Treasury or through other Government agencies where interest is payable, without regard to earnings, to the Treasury or other Government agencies on such capital investment items. The itemization hereunder will show:

a. *Capital stock (line 60)*.

b. *Borrowings from Treasury (line 61)*.—Report on this line borrowings from Treasury represented by notes, bonds, or any other means of borrowing. The amount of unused borrowing authority remaining available shall be reported as a footnote.

c. *Blank line (line 62)*.—Report on this blank line, with appropriate title, any additional items necessary to reflect the proper total interest-bearing investment of the United States Government, including advances from revolving funds, paid-in capital, paid-in surplus, etc. The title "Paid-in capital" or "Paid-in surplus" shall be used only for those items of Government investment specifically identified as such in the legislation authorizing the capitalization. Where a portion of the capital made available by

Congress for an item reported on this line is retained by the Treasury in a separate revolving fund or other holding account, the gross amount remaining available shall be reported as a footnote.

32. *Non-Interest-Bearing Investment*.—Report under this group capital stock, paid-in capital, paid-in surplus, advances from revolving funds, bonds, notes, appropriations, or other capital items, which are non-interest bearing, provided directly by the United States Treasury or through other Government agencies, including the capitalization of assets. The itemization hereunder will show:

a. *Capital stock (line 63)*.

b. *Borrowings from Treasury (line 64)*.—Report on this line borrowings from Treasury represented by notes, bonds, or any other means of borrowing. The amount of unused borrowing authority enacted by the Congress shall be reported as a footnote.

c. *Appropriations*.—Report under this group the cumulative amounts made available through congressional appropriations to finance the activity being reported upon, net of appropriation balances rescinded, transferred to "Payment of Certified Claims" or otherwise returned to the Treasury. Agencies operating from other than revolving funds will show on blank lines 65 and 66 a segregation of appropriations as between the amounts expended and unexpended. Revolving fund enterprises may use blank line 66 for reporting the amount of appropriated funds repaid to the Treasury as a capital transfer in those instances where such presentation is required.

d. *Capitalization of assets (line 67)*.—Report on this line the net amount derived through recognition of the capitalized value of property, inventory, and other assets on hand at the inception of the fund, donated to the reporting agency or charged to appropriations other than those included in amounts reported on line 65 or 66 above.

e. *Blank lines (lines 68 through 70)*.—Report on these lines with appropriate titles any other segregation of the investment of the Government which by statute or otherwise is required for full disclosure, including advances from revolving funds, paid-in capital, paid-in surplus, etc. The titles "Paid-in capital" or "Paid-in Surplus" shall be used only for those items of Government investment specifically identified as such in the legislation authorizing the capitalization. Where a portion of the capital made available by Congress for an item reported on this line is retained by the Treasury in a separate revolving fund or other holding account, the amount so retained shall be reported as a footnote.

33. *Accumulated Net Income or Deficit*.—Report under this group the accumulated earnings or losses applicable to the "United States Interest," segregate as between reserved earnings as required by statute or otherwise and unreserved earnings or deficit. The itemization hereunder will show:

a. *Non-revenue-producing operations (line 71)*.—Report on this line as a deficit (*) item the cumulative net expenses incurred for any programs set up by law to be non-revenue producing and not associated, or identified with the regular revenue producing services provided by the agency.

b. *Reserved (line 72).*—Report on this line the reserves which are established by statute or otherwise from annual earnings. Normally direct charges should not be made to such reserves for losses incurred, such losses should be reflected in the income and expense statement.

c. *Unreserved (line 73).*—Report on this line the cumulative deficit or unreserved surplus resulting from operations.

34. *Deposit of general and special fund revenues (line 74).*—Those enterprises which are not permitted to reuse or hold their receipts but are required to deposit their collections into the Treasury as miscellaneous receipts shall report the cumulative amount of such deposits on this line as a deduction from the investment of United States Interest. This will apply only to enterprises that are financed by other than revolving funds.

APPENDIX B
GSA REGULATIONS
RE REAL PROPERTY MANAGEMENT

(319)

GENERAL SERVICES ADMINISTRATION
Washington, D.C. 20405

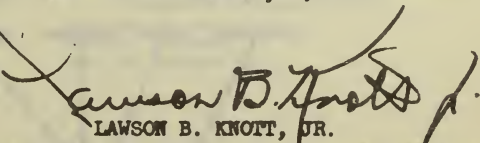

December 22, 1964

FEDERAL PROPERTY MANAGEMENT REGULATIONS
AMENDMENT NO. A-1

TO: Heads of Federal Agencies

SUBJECT: Revision of Subchapter A - General

1. Purpose. This amendment transmits revisions of FPMR Subchapter A-General.
2. Background. The attached material represents the first revision of Subchapter A promulgated to the Heads of Federal Agencies by memorandum of September 14, 1964, from the Administrator of General Services.
3. Explanation of changes.
 - a. Part 101-3, Annual Real Property Inventories, continues previous reporting requirements on this subject.
 - b. Subpart 101-6.1, Commuted Rate Schedule for Transportation of Household Goods, continues in effect the prior regulatory requirements.
 - c. Subpart 101-6.2, Nondiscrimination in Federally Assisted Programs of the General Services Administration - Effectuation of Title VI of the Civil Rights Act of 1964, contains the Presidentially approved regulations of GSA under Title VI to promote nondiscrimination in designated programs or activities.
4. Effect on other issuances.
 - a. Title 1, Personal Property Management, Title 2, Real Property Management, and Title 3, Federal Records, Regulations of the General Services Administration, are superseded.
 - b. General Regulation No. 25, Nondiscrimination in Employment, March 29, 1961, is superseded.
5. Effective dates. Part 101-3 and Subpart 101-6.1 are effective on December 15, 1964. Subpart 101-6.2 is effective January 3, 1965.

LAWSON B. KNOTT, JR.
Acting Administrator of General Services

(a) On each page appears the number and date (month and year) of the FPMR Amendment which transmitted it.

(b) Retention of FPMR Amendments and removed pages will provide a history of FPMR issuances and facilitate determining which regulations were in effect at particular times.

(c) Arrows printed in the margin of a page indicate material changed, deleted, or added by the FPMR Amendment cited at the bottom of that page. Where insertion of new material results in shifting of unchanged material on following pages, no arrows will appear on such pages but the FPMR Amendment transmitting such new pages will be cited at the bottom of each page.

→ OR ← — Line on which change begins.

┌ → OR ← ┐ — Line on which change ends.

→ OR ← — Line on which change both begins and ends.

→ OR ← — Opposite a blank space, indicates deletion of a division of material (section, subsection, or paragraph).

(d) In the numbering system, all FPMR material is preceded by digit 101-. This simply means that it is Chapter 101 in Title 41 of the Code of Federal Regulations. It has no other significance. The digit(s) before the decimal point indicates the part; the digits after the decimal point indicate, without separation, the subpart and section, respectively, the latter always in two digits; and the digit(s) after the dash indicates the subsection. For example:

SUBCHAPTER A — GENERAL**PART 101-2 [RESERVED]**

(NEXT PAGE IS 301)

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 105

§ 101-3.000 Scope of part.

This part prescribes the procedure and forms for use by executive agencies in connection with the preparation of annual reports necessary for the maintenance and publication of inventories of real property owned by and leased to the United States as of June 30 each year.

Subpart 101-3.1—General Provisions**§ 101-3.100 Scope of subpart.**

This subpart deals with the background, objectives, and coverage of reports in connection with the real property owned by and leased to the United States.

§ 101-3.101 Background.

(a) The inventory of Federal real property was initiated and is being continued at the request of the Senate Committee on Appropriations.

(b) The House Committee on Government Operations annually requests data on all Federally-owned real property for inclusion in its real and personal property inventory reports.

§ 101-3.102 Program objectives.

The principal objectives of the Government-wide real property inventory program are:

(a) To provide a centralized source of information on Federal real property holdings,

(b) To achieve the most effective control and economical Government-wide utilization of available property,

(c) To facilitate disposal of surplus property,

(d) To provide a basis for the intelligent evaluation and appraisal of budgetary requirements, and

(e) To establish a ready reference for answering inquiries from the Congress, the press, trade associations, educational institutions, Federal, State, and local government agencies, and the general public.

§ 101-3.103 Coverage.

The inventory reports prescribed in this Part 101-3 shall cover land, buildings, and other structures and facilities throughout the world, which are owned by or leased to the United States, including wholly-owned Federal Government corporations.

§ 101-3.104 Source of data.

Data reported shall be based on agency real property and accounting records.

§ 101-3.105 Agency liaison.

Each reporting agency shall designate an official to serve as agency representative for each of the real property inventories. The same representative may be designated for the federally owned and leased real property inventories. The General Services Administration, Office of Finance and Administration, Washington, D.C. 20405, shall be advised in writing of the names of all such representatives and subsequent changes.

(NEXT PAGE IS 303)

SUBPART 101-3.2 ANNUAL REPORT-REAL PROPERTY OWNED BY THE UNITED STATES

101-3.204(e)(4)

Subpart 101-3.2—Annual Report—Real Property Owned by the United States

§ 101-3.200 Scope of subpart.

This subpart prescribes the procedure and forms to be used by executive agencies in connection with annual reports on real property owned by the United States.

§ 101-3.201 Reporting agency.

Reports on real property owned by the United States shall be submitted by the agency responsible for the maintenance of real property records and accounts as prescribed by General Accounting Office principles and standards and illustrated in 2 GAO 1270 and 2 GAO 7030; i.e., the agency which has control of and the authority to assign and reassign the use of the property or any portion thereof. For purposes of this inventory, the above rule shall apply regardless of the manner of acquisition or which agency is currently using the property. For example:

(a) For general purpose buildings, such as office buildings or warehouses, which are occupied by a Federal agency or agencies upon determination by GSA, and for which GSA is responsible for elevator and guard service, and for cleaning and maintenance, GSA is the reporting agency.

(b) For special purpose buildings, such as Coast Guard stations, military reservations, hospitals, and prisons, those agencies having control of building management and operation including authority to assign or reassign space in such buildings, will be considered as the reporting agencies.

§ 101-3.202 Coverage.

The annual reports of real property owned by the United States shall cover land, buildings, and other structures and facilities owned by the United States throughout the world. These reports shall include the following:

- (a) Unreserved public domain lands.
- (b) Public domain lands reserved for national forests, national parks, military installations, or other purposes.
- (c) Real property acquired by purchase, construction, donation, and other methods.
- (d) Real property in which the Government has a long-term interest con-

sidered by the reporting agency as being equivalent to ownership.

(e) Buildings or other structures and facilities owned by the Government whether or not located on Government-owned land.

(f) Excess and surplus real property. (The reporting agency, as defined in § 101-3.201, shall continue to retain accountability and report excess and surplus real property pending its transfer to a Federal agency or disposal.)

(g) Buildings being acquired under the terms of the Public Buildings Purchase Contract Program or Lease Purchase Agreements (39 U.S.C. 2103, 40 U.S.C. 356). Buildings shall be reported upon completion of construction. Separate annual reports shall also be submitted for real properties held in trust by the Federal Government.

§ 101-3.203 Exclusions.

Annual inventory reports on real property owned by the United States shall not include the following:

- (a) Properties acquired through foreclosure, confiscation, or seizure to be liquidated in settlement of a claim or debt to the Federal Government.
- (b) Rights-of-way or easements granted to the Government.
- (c) Lands administered by the United States under trusteeship by authority of the United Nations.
- (d) Machinery and processing equipment which are not part of the realty.
- (e) Land held under permit from another Government agency.

§ 101-3.204 Reports to be submitted.

(a) Each agency shall prepare in accordance with instructions in § 101-3.4901-1166(I) and submit to GSA a separate report on GSA Form 1166, Annual Report of Real Property Owned by the United States (see § 101-3.4901-1166) for:

- (1) Each newly acquired or previously omitted installation.
- (2) Each installation received by transfer from another Federal agency which is not merged with an existing installation.
- (3) Each installation with increases or decreases in cost of \$1,000 or more affecting any line item or the total for the installation.
- (4) Each installation declared excess or surplus, in whole or in part.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3.204(a)(5)

(5) Each disposal of a complete installation.

(6) Each installation for which a revision of an entry on a previous report is necessary to reflect a change in the name of an installation, date or method of acquisition of property, acreage, number and/or floor area of buildings, or predominant usage category of land, buildings, or other structures and facilities.

(b) Each agency shall prepare, in accordance with instructions in § 101-3.4901-1209(I) and submit to GSA a separate report on GSA Form 1209, Summary of Number of Installations Owned by the United States (see § 101-3.4901-1209) for each bureau or other major organizational unit, for (1) properties in the United States; and (2) properties outside the United States. Reports on GSA Form 1209 shall be submitted

whether or not changes have occurred since the previous report.

§ 101-3.205 Optional reporting method.

Agencies with electrical accounting machine equipment may make arrangements with the GSA, Office of Finance and Administration, to furnish detailed machine listings together with the supporting punch cards, in lieu of GSA Forms 1166. However, GSA Forms 1209 shall be submitted as prescribed in § 101-3.204(b).

§ 101-3.206 Preparation and due dates.

The annual inventory reports prescribed in § 101-3.204 shall be prepared as of June 30, each year. An original and one copy of each report shall be submitted to the General Services Administration, Office of Finance and Administration, Washington, D.C. 20405, not later than September 1.

SUBPART 101-3.3 ANNUAL REPORT—REAL PROPERTY LEASED TO THE UNITED STATES

101-3, 306

Subpart 101-3.3—Annual Report— Real Property Leased to the United States

§ 101-3.300 Scope of subpart.

This subpart prescribes the procedure and forms to be used by executive agencies in connection with annual reports on real property leased to the United States.

§ 101-3.301 Reporting agency.

Reports on real property leased to the United States shall be submitted by the agency currently administering the lease and making payments to the lessor, regardless of which agency executed the original lease or is currently using the property.

§ 101-3.302 Coverage.

(a) The annual report of real property leased to the United States shall include all real property leased from private individuals, organizations, and municipal, county, State, and foreign governments, as evidenced by a written agreement involving a monetary consideration and a landlord-tenant relationship. It shall also include right of use and occupancy obtained under eminent domain proceedings or equivalent procedures.

(b) Real property leased rent free or for nominal rental may be included when the property is considered significant by the reporting agency. 35 Comp. Gen. 713 is suggested as a guide to help resolve questions pertaining to the definition of nominal payment.

§ 101-3.303 Exclusions.

Items to be excluded from the annual reports are: (a) real property occupied under permit or other arrangements with other Federal agencies or wholly owned Federal Government corporations; (b) leasehold improvements (Government-

owned buildings or structures located on leased land shall be reported as owned); (c) rights-of-way and easements; and (d) real property leased rent free or for nominal rent when property is not considered significant by the reporting agency.

§ 101-3.304 Reports to be submitted.

(a) Each agency shall prepare, in accordance with instructions in § 101-3.4901-1166A(I) and submit to GSA a report of its leased real property holdings on GSA Form 1166A, Annual Report of Real Property Leased to the United States (see § 101-3.4901-1166A).

(b) Each agency shall prepare, in accordance with instructions in § 101-3.4901-1209A(I) and submit to GSA a separate report on GSA Form 1209A, Comparative Summary of Properties Leased to the United States (see § 101-3.4901-1209A), for each bureau of other major organizational unit, for: (1) properties in the United States; and (2) properties outside the United States.

§ 101-3.305 Optional reporting method.

Agencies with electrical accounting equipment may make arrangements with the General Services Administration, Office of Finance and Administration, to furnish detailed machine listings, together with the supporting punch cards, in lieu of GSA Forms 1166A. However, GSA Forms 1209A shall be submitted as prescribed in § 101-3.304(b).

§ 101-3.306 Preparation and due dates.

The annual inventory reports prescribed in § 101-3.304 shall be prepared as of June 30, each year. An original and one copy of each report shall be submitted to the General Services Administration, Office of Finance and Administration, Washington, D.C. 20405, not later than October 1.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901

Subpart 101-3.49—Forms and Reports**§ 101-3.4900 Scope of subpart.**

This subpart contains illustrations of forms and instructions for their completion, to be used by executive agencies in connection with the submission of annual reports of real property owned by and leased to the United States.

§ 101-3.4901 GSA forms.

The GSA forms illustrated and instructions for their preparation are included in this subpart to provide a ready source of reference. The subsection numbers in this section correspond to the GSA form numbers and related instructions for their preparation. Thus, in § 101-3.4901-1166 appears GSA Form 1166, and in § 101-3.4901-1166(I) appears instructions for the preparation of GSA Form 1166.

(NEXT PAGE IS 353)

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1166(1)

§ 101-3.4901-1166(1) Instructions for the preparation of GSA Form 1166: Annual Report of Real Property Owned by the United States.**(a) Page 1 of Instructions for the preparation of GSA Form 1166:****(a) General Instructions.**

GSA Form 1166, Annual Report of Real Property Owned by the United States (subsection 100-3.4901-1166) shall be used by agencies to report their real property holdings, as defined in Subpart 101-3.2.

Agencies obtaining approval from the Administration may use the "optional method of reporting," in lieu of GSA Form 1166 (section 101-3.205 of Subpart 101-3.2).

Reports shall be prepared annually as of June 30, and an original and one copy of each submitted to the Administration not later than September 1.

For purposes of this inventory, the reporting entity shall be an installation. An installation may consist of land, buildings, other structures and facilities, or any combination thereof. Installations may vary in size and may be a national forest, national park, hydro-electric project; or, on the other hand, may be a single office or warehouse building, or an unimproved site. The determination as to the real property to be included in an installation shall be made by the reporting agency. However, it shall be in conformance with the agency's real property and accounting records.

In the case of an installation located in more than one State, the portion located in each State shall be treated as a separate installation and made the subject of a separate report.

A complete report covering the entire installation shall be submitted for:

- (1) Each newly acquired or previously omitted real property installation;
- (2) Each transfer of an installation from another Federal agency which is not merged with an existing installation; and

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3.4901, 1166(1)

(b) Page 2 of Instructions for the Preparation of GSA Form 1166.

- (3) Each previously reported installation having an increase or decrease of \$1,000 or more, affecting any line item or total cost for the installation; or for a change in acreage, irrespective of cost. A complete report shall also be submitted for changes in the number and/or floor area of buildings and predominant usage category of land, buildings, or other structures and facilities.

In the case of item(3) above, the adjusted report shall be a complete restatement, giving effect to all realty changes involving the installation, such as; acquisitions, dispositions, new construction, and correction of errors or omissions in the previous report.

A report, requiring no entries for Blocks 11 thru 25 on GSA Form 1166, shall be submitted for:

- (1) Disposal of a complete installation;
- (2) Transfer of a complete installation to another Federal agency;
- (3) An installation declared excess or surplus, in whole or in part (the reporting agency, as defined in § 101-3.201 of Subpart 101-3.2, shall continue to retain accountability and report excess and surplus real property pending its transfer to a Federal agency or disposal); and
- (4) Revision of the name of an installation or of the date or method of acquisition of the real property.

An appropriate notation regarding the above transactions or revisions shall be made in Block 26, Remarks.

A report shall not be submitted for a previously reported installation in which no change has occurred.

(b) Specific Instructions.

- (1) Date, Agency, and Property Identification.

Block 1. Report as of. Enter the effective date of the report.

Block 2. Agency Control No. For identification purposes, each reporting agency may assign an agency control number to each installation.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4991, 1166(1)

(c) Page 3 of Instructions for the Preparation of GSA Form 1166.

Block 3. GSA Control No. The GSA Control Number consists of two parts, separated by a dash. The first part, comprised of four digits, is the agency-bureau code, while the second part, comprised of five digits, is the installation number. These control numbers are assigned by the Administration.

The reporting agency shall fill in the GSA Control Number for previously reported installations. Enter the same control number shown on the latest machine listings of installations furnished to each reporting agency by the Administration. Use all nine digits, e.g., 1413-07984; not 1413-7984. It is essential that this GSA Control Number be filled in by the reporting agency so that the current report can be identified with the corresponding report previously submitted.

When an installation is reported for the first time, this block shall not be filled in by the reporting agency.

Block 4. Name of Installation. Enter the name assigned to the installation; such as, U. S. Customs House, Fort Bragg, or Rock Island Arsenal. When an installation is located in more than one State, a separate report is required to cover the portion of the installation located in each State.

Abbreviate the name of the property, when necessary, so that it shall not exceed 23 type spaces, including blank spaces between letters or words. For example: "Yellowstone National Park" which has 25 type spaces may be abbreviated "Yellowstone Nat Park."

Block 5. Reporting Agency. Enter the name of the reporting agency, that is, the department, commission, administration, or authority. For example: Department of Commerce, Atomic Energy Commission, Veterans Administration, or Tennessee Valley Authority.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-2, 4001, 1166(1)

(d) Page 4 of Instructions for the Preparation of GSA Form 1166.

Block 6. Bureau of Other Major Organization. Enter the name of the reporting bureau or comparable major organizational unit within the reporting agency. For example: National Bureau of Standards.

(2) Location.

Block 7. State or Continent. Enter the name of the State (in U.S.) or continent (outside U.S.) in which the real property is located. When an installation is located in more than one State, a separate report shall be submitted to cover the portion of the installation located in each State.

Block 8. City or Town. Enter the name of the city or town in or near which the installation is located, provided (1) the installation is in one county only; and (2) the designated city or town is in the same county as the location of the installation (block 9). When these circumstances do not apply, enter "No city identification."

Block 9. County or Country. Enter the name(s) of the county, counties, parish, or parishes (in U.S.) or U.S. possession, or foreign country (outside U.S.) in which the real property is located. Separate reports for each county in the same State are not required. If space is insufficient, complete the list of counties under Remarks, Block 26, or on the reverse of the form.

Block 10. Street Address, RFD, Route No., or Other Local Designation. Enter the street address, RFD, route number, or other local designation.

Geog. Code

Block. Geographical Code. Enter the appropriate numerical code for the location of the installation as shown in Blocks 7, 8, and 9 in the following sequence: State or Continent (2 digits), City or Town (4 digits), County or Country (3 digits). (Example: Coral Gables, Dade County, Florida, will be shown as

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4991, 1166(1)

(e) Page 5 of Instructions for the Preparation of GSA Form 1166.

09-0670-025, and Paris, France, Europe, will be shown as 93-6300-350.)

Codes shall be obtained from the publication, "Geographical Location Codes," issued by the General Services Administration, Office of Assistant Administrator for Finance and Administration. Do not fill in this space if the geographical location code is not known.

When the location of the installation cannot be identified with any city (Block 8), the code under "City" shall be reported as 9999. When the installation is located in more than one county (Block 9), the code under "County" shall be reported as 999.

- (3) Land. Report all land areas or sites owned by the Government as of the inventory date. In the case of an installation comprised of both Government-owned and trust lands, separate reports on GSA Form 1166 shall be prepared for each.

Do not include the following: (a) land acquired through foreclosure, confiscation, or seizure to be liquidated in settlement of a claim or debt to the Federal Government; (b) rights-of-way and easements granted to the United States Government; (c) lands administered by the United States under trusteeship by authority of the United Nations; and (d) land held under permit from another Government agency.

Block 11. Usage Code and Classification. Enter in this block the present predominant use and related code (see below) of the land area or site being reported. Sites acquired for new projects or on which construction is in process shall be classified for its eventual use. A breakdown of secondary usages is not required. If there are significant secondary usages, mention thereof should be made under Remarks.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4001, 1166(f)

(f) Page 6 of Instructions for the Preparation of GSA Form 1166.

Enter one of the following usage codes and classifications in Blocks 11(A) and 11(B), respectively, as appropriate:

<u>Code</u>	<u>Classification</u>
01	<u>Agricultural.</u> Land under cultivation for production of food and fiber.
04	<u>Grazing.</u> Those conservation lands primarily administered for the preservation, protection, management, and development of grass and other forage resources suitable for livestock.
07	<u>Forest and Wildlife.</u> Those conservation lands primarily administered for the preservation, protection, management, and development of timber, wildlife, watershed, and recreational resources.
08	<u>Parks and Historic Sites.</u> Land administered for national parks, historical parks, monuments, military parks, memorial parks, battlefield parks, battlefield sites, historic sites, memorials, cemeteries, parkways, recreation areas, and national capital parks.
10	<u>Office Building Locations.</u> Land on which office buildings are located or are to be constructed.
11	<u>Military (except airfields).</u> Land under the control of Department of Defense (military functions) which cannot be classified elsewhere.
12	<u>Airfields.</u> Land used for military air bases or stations and military or civilian landing fields.
13	<u>Harbor and Port Terminals.</u> Land used for harbor and port facilities.
15	<u>Power Development and Distribution.</u> Land used for power development and distribution projects.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(g) Page 7 of Instructions for the Preparation of GSA Form 1166.

<u>Code</u>	<u>Classification</u>
16	<u>Reclamation and Irrigation.</u> Land used for reclamation and irrigation projects.
18	<u>Flood Control and Navigation.</u> Land used for flood control and navigation projects.
19	<u>Vacant.</u> Land not being utilized.
20	<u>Institutional.</u> Land used for institutional purposes such as hospitals, prisons, schools, libraries, chapels, and museums.
30	<u>Housing.</u> Land used primarily for public housing projects, military personnel quarters, and dwellings for other Federal personnel.
40	<u>Storage.</u> Land used primarily for supply depots and other storage areas.
50	<u>Industrial.</u> Land used for industrial plants engaged in the production and manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, magnesium, etc.
70	<u>Research and Development.</u> Land used directly in basic or applied research in the sciences (including medicine) and in engineering.
80	<u>Other Land.</u> Land which cannot be classified elsewhere.
90	<u>Trust Land.</u> All land held in trust by the reporting agency.

The above usage codes and classifications shall be used exclusively by all agencies for purposes of reporting land on GSA Form 1166.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4901, 1166(1)

(h) Page 8 of Instructions for the Preparation of GSA Form 1166.

When the report covers only Government-owned buildings and/or structures and facilities, but the land is (1) leased, (2) held under permit, or (3) jointly held and another agency is reporting such land, so state in this block. Give additional details in Block 26, when necessary. However, no entries shall be made in Blocks 12-16 when land is held under these circumstances.

Block 12. Acquisition Code. Enter the code number for each method of acquisition of land being reported. The codes to be entered in this block are as follows:

<u>Code No.</u>	<u>Method of Acquisition</u>
1.	Public domain (applicable only for installations in the United States).
2.	Purchase, donation, exchange, etc.
3.	Long-term interest (applicable only for installations in the Canal Zone and foreign countries).

Include under Code 1 all public domain lands including those withdrawn from public domain. The term original public domain land embraces all the area title to which was vested in the United States Government by virtue of its sovereignty. Public domain lands are original public domain lands which have never left Federal ownership and also include lands within Federal ownership which were obtained by the Government in exchange for public lands or for timber on such lands. It also includes original public domain lands which have reverted to Federal ownership through the operation of public land laws.

Include under Code 2 any land acquired by purchase, condemnation, donation, exchange, and other methods of acquisition (other than public domain or long-term interest).

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(1) Page 9 of Instructions for the Preparation of GSA Form 1166.

Include under Code 3 all land in which the United States Government has a long-term interest; such as, that acquired by treaty or long-term lease (e.g., 99 years, in perpetuity) and which the reporting agency, as a matter of policy, considers as the equivalent to ownership by the United States.

Block 13. Date(s) Acquired. Enter the year(s) in which the land was originally acquired by the Federal Government for each method of acquisition set forth in Block 12. For public domain land withdrawals, show the year of the Executive order or the public land order as the year of acquisition. If various portions were acquired in different years, indicate the range of years; e.g., 1910-1921.

Blocks 14. Area - Urban and Rural. For each item in Block 11, and 15. enter the area of the land to the nearest tenth of an acre. If acreage to be reported is a whole number, enter "0" to the right of the decimal point; e.g., 10.0. If acreage to be reported is less than a whole number, enter "0" to the left of the decimal point; e.g., 0.4. If acreage to be reported is less than 0.1 of an acre, enter the letter "N" (negligible).

Urban. Land shall be classified as urban when (1) located in an incorporated place of 2,500 inhabitants or more; (2) in a densely settled unincorporated place of 2,500 inhabitants or more; or (3) in a densely settled urban fringe area around cities of 50,000 inhabitants or more.

Enter in this block the area of urban land, to the nearest tenth of an acre, acquired by each method of acquisition reported in Block 12.

Rural. Classify as rural all properties not classified as urban. Enter in this block the area of rural land, to the nearest tenth of an acre, for each method of acquisition reported in Block 12.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101.3, 4901, 1166(1)

(j) Page 10 of Instructions for the Preparation of GSA Form 1166.

Block 16. Cost. Enter the cost of land to the Federal Government, rounded to the nearest thousand dollars, for each entry in Block 11. For example: if the records indicate a cost of \$500, report as "1"; similarly, enter "1" for cost of \$1,400. If cost is \$1 through \$499, enter the letter "N" (negligible).

No cost shall be entered in Block 16 for the following types of land: (1) land held in trust; (2) unreserved public domain; (3) public domain reserved for national forests, national parks, military installations, or other purposes, and (4) land donated for historical sites. Properties in categories (1) through (4) shall be shown as "0" in this block.

Cost need not be reported for acquired lands which are intermingled with public domain lands and which constitute a relatively minor portion thereof.

The cost of sites for monuments, memorials, and statutes shall be reported (except for sites of the types described in the two preceding paragraphs).

The cost of items incidental to the acquisition or preparation of land for use should generally be included in the cost of the land. Cost may include:

Appraisal	Plats and surveys
Clearing	Removal and relocation of the property of others as part of purchase contract
Damage to property of others	
Drainage	Removal of structures or facilities purchased, but not used
Grading	
Landscaping	Legal fees and expenses

The above land improvements when applied to public domain in lands shall be reported as costs under Other Structures and Facilities, Code 80, All Other,

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(k) Page 11 of Instructions for the Preparation of GSA Form 1166.

Blocks 23 and 24, and identified as such in Remarks, Block 26; rather than as costs under Land.

When records for acquisition costs are not available, report estimated costs and enter the letter "E" after the amount. Such estimates shall be based on costs at date of original acquisition by the Government, adjusted for subsequent capital changes.

Estimate, if not known, the "cost" of property acquired through donation, devise, forfeiture, or judicial process. The estimated "cost" should represent the amount the Government would have had to pay for the land if purchased at the date of original acquisition.

- (4) Buildings. Report all federally owned buildings completed and available for service as of the inventory date.

A temporary building (not demountable) on a concrete foundation shall be reported as real property. However, temporary buildings set up for purposes related to construction shall not be reported.

In the case of an installation comprised of both Government-owned and trust buildings, a separate report on GSA Form 1166 shall be prepared for each category. With regard to buildings held in trust by the reporting agency, Blocks 20, 21, and 22 shall not be completed.

For purposes of this inventory, include buildings being acquired under the Public Buildings Purchase Contract Program or Lease-Purchase Agreements, Public Law 519, 83rd Congress, as amended. Buildings shall be reported upon completion of construction.

Block 17. Usage Code and Classification. The present predominant use of a building shall govern its classification. The various usage categories are preprinted in this block. The coverage of each of these categories follows:

<u>Code</u>	<u>Classification</u>
10	<u>Office</u> . Buildings used primarily for office space.
21	<u>Hospital</u> . Buildings used primarily for furnishing in-patient diagnosis and treatment under the supervision of physicians

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4901, 1166(1)

(1) Page 12 of Instructions for the Preparation of GSA Form 1166.

<u>Code</u>	<u>Classification</u>
	and which have 24-hour-a-day registered graduate nursing services. Include medical laboratories used in routine testing. Exclude buildings used directly in basic or applied research in medicine which should be reported as Research and Development.
22	<u>Prison.</u> Buildings under the jurisdiction of the Department of Justice used for the confinement of Federal prisoners.
23	<u>School.</u> Buildings used primarily for formally organized instruction; such as, schools for dependent children of Federal employees, Indian schools, and military training buildings.
29	<u>Other Institutional Uses.</u> Buildings used for institutional purposes other than schools, hospitals, and prisons. Include libraries, chapels, museums, out-patient clinics, etc.
30	<u>Housing.</u> Buildings used primarily for dwelling purposes; such as, apartment houses, single or row houses, and barracks. Includes public housing, housing for military personnel, housing for personnel in various Federal agencies, and housing for institutional personnel.
40	<u>Storage.</u> Buildings used for storage purposes; such as, warehouses, ammunition storage, and cover sheds. Also include in this category, garages used primarily for storage of vehicles or materials. Do not include such facilities as water reservoirs and oil storage tanks, which are to be reported as Other Structures and Facilities, Blocks 23 and 24.
50	<u>Industrial.</u> Buildings specifically designed and used primarily for production or manufacturing. Include buildings used for the

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(m) Page 13 of Instructions for the Preparation of GSA Form 1166.

<u>Code</u>	<u>Classification</u>
	production or manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, and magnesium. Also include laboratories used for routine testing of industrial products.
60	<u>Service.</u> Buildings used in connection with service activities; such as, maintenance and repair shops, laundry and dry cleaning plants, post exchanges, stores, and airport hangars. Also include garages used primarily for vehicle maintenance and repair.
70	<u>Research and Development.</u> Buildings used directly in basic or applied research in the sciences (including medicine) and in engineering. Include buildings used in the design, development, and testing of prototypes and processes such as chemistry, physics, and medical laboratories and observatories for meteorological research. Do not include medical or industrial laboratories used in routine testing which should be reported as Hospital and Industrial, respectively.
80	<u>All Other.</u> Buildings which cannot be classified elsewhere. Whenever this classification is utilized, give a brief description of use in Remarks block.
99	<u>Trust Buildings.</u> All buildings held in trust by the reporting agency. Whenever this classification is utilized, give a brief description of use in Remarks block.
<u>Block 18.</u>	<u>Number of Buildings.</u> Enter the number of buildings for each applicable usage classification printed in Block 17.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3,4901, 1166(1)

(n) Page 14 of Instructions for the Preparation of GSA Form 1166.

Block 19. Date(s) Acquired. Enter the year the building was originally acquired by the Federal Government. When several buildings of the same classification were acquired in different years and are being reported as a single line item, enter the range of years; e. g., 1930-1942. When a building, previously reported has undergone a major expansion (e. g.; addition of a new wing), both the year of original acquisition and the year of expansion should be included in the range of years.

Block 20. Gross Floor Area - Total Square Feet. Enter the total gross floor area (applies to outer dimensions of the building) in square feet for each class of building reported. Include the total floor area of the building(s) regardless of any secondary usages or occupancy by another agency. Floor area for buildings held in trust shall not be reported.

Block 21. Gross Floor Area - Percent Occupied. Enter the estimated percentage of occupancy or use by the Federal Government for each applicable class of building printed in Block 17. However, percent occupied shall not be reported for buildings held in trust by the reporting agency.

For buildings which are outleased 100 percent, enter the letters "OL" in this column. When only a portion of a building is outleased, the percent occupied shall be the percentage used by the Federal Government. A brief statement regarding the outlease shall be included in the Remarks block.

Block 22. Cost. Enter in this block the total cost to the Federal Government for each classification of building reported. Cost of \$500 and over should be rounded to the nearest thousand dollars as described for Block 16. If cost is \$1 through \$499, enter the letter "N" (negligible).

For purposes of reporting federally owned real property, the cost of each building shall include the cost of such fixtures and equipment as are

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901.1166(1)

(c) Page 15 of Instructions for the Preparation of GSA Form 1166.

normally required for its functional use. For example, include plumbing, heating and lighting fixtures, elevators, air-conditioning systems, as well as safes and vaults which are built into the building or are permanently affixed thereto, the removal of which would materially damage the structure. However, the cost of machinery and processing equipment, as well as furniture, laboratory equipment, and special use items which are not part of the realty, shall not be included.

The cost of buildings shall include the cost of all capital improvements incurred subsequent to date of original acquisition by the Government. Capital improvements, as prescribed in the GAO Policy and Procedures Manual, Section 7030, Par. 30, are defined as: "Betterments or improvements to realty are capitalized when they: (1) constitute an enlargement of a structure, (2) provide additional or enlarged facilities, or (3) constitute a major renovation or other substantial improvement which materially increases the usefulness, productivity, or other value of real property, or substantially extends the useful life of the real property."

Costs of federally owned buildings located on land not owned by the Government (e.g., land under lease or other right of occupancy) shall be reported. However, the cost of buildings held in trust by the reporting agency shall be excluded.

In the absence of any recorded data as to costs, they shall be estimated and noted by the letter "E" after the amount. Estimates shall be based on costs at date of original acquisition by the Government, adjusted for subsequent capital changes.

Estimate, if not known, the "cost" of the buildings acquired through donation, exchange, devise, forfeiture, or judicial process. The estimated "cost" should represent the amount the Government would have had to pay for the buildings if purchased at the date of original acquisition.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4901, 1166(1)

(p) Page 16 of Instructions for the Preparation of GSA Form 1166.

The cost of buildings being acquired under the Public Buildings Purchase Contract Program or Lease-Purchase Agreements, Public Law 519, 83rd Congress, as amended, shall be recorded at purchase price (total amount of principal payments), plus all other capitalized costs, such as: drawings and specifications; architectural, engineering and inspection fees; and miscellaneous project costs. For identification purposes, the letter "P" should be inserted after the amount and a brief explanation given in Block 26, Remarks.

- (5) Other Structures and Facilities. Include only structures and facilities completed and available for service as of the reporting date.

In the case of an installation comprised of both Government-owned and trust structures and facilities, a separate report on GSA Form 1166 shall be prepared for each category.

Block 23. Usage Code and Classification. The various usage categories are preprinted in this block. The coverage of each of these usage categories follows:

<u>Code</u>	<u>Classification</u>
12	<u>Airfield Pavements.</u> Include runways, helicopter landing pads, taxiways, and aprons.
13	<u>Harbor and Port Facilities.</u> Include docks, piers, jetties, and breakwaters.
15	<u>Power Development and Distribution.</u> Include hydroelectric and other power development projects which produce power for resale (generally consisting of dams and powerhouses). Transmission lines which are an integral part of Federal power development systems shall also be included even though the power is produced by another Federal agency.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(q) Page 17 of Instructions for the Preparation of GSA Form 1166.

<u>Code</u>	<u>Classification</u>
16	<u>Reclamation and Irrigation</u> . Include canals, laterals, pumping stations, storage, and diversion dams.
18	<u>Flood Control and Navigation</u> . Include river improvements, revetments, dikes, dams, and docks.
40	<u>Storage (Other than Buildings)</u> . Include storage tanks, silos, igloos, underground vaults, and open storage areas (improved only).
50	<u>Industrial (Other than Buildings)</u> . Include structures and facilities (other than buildings) used for production or manufacturing; such as, sliding shipways, retaining basins, and pipelines.
60	<u>Service (Other than Buildings)</u> . Include structures used for maintenance and repair; such as, underground fueling systems, vehicle washing and greasing facilities, aircraft boresight ranges, guided missile maintenance facilities, and ship repair.
70	<u>Research and Development (Other than Buildings)</u> . Include structures and facilities used directly in basic or applied research in the sciences (including medicine) and in engineering; such as, facilities used in design, development, and testing of prototypes and processes. Do not include facilities used in routine testing which should be reported as Hospital and Industrial, respectively.
71	<u>Utility Systems (Heating, Sewage, Water, and Electrical Systems)</u> . Include heating, sewage, water, and electrical systems when they serve several buildings and/or other structures of an installation. When they serve a single

CodeClassification

building which is reported separately, the cost of such utility systems shall be included in the cost of the building.

The usage category for "utility systems" includes heating plants and related steam and gas lines; sewage disposal plants, storm and sanitary sewer lines; water treatment plants, wells, pump houses, reservoirs, and pipelines; and electrical substations, standby or auxiliary power plants, lighting structures, and conduits.

Structures and facilities utilized by an installation in the production of its own power requirements (not for resale) shall be included in this category.

- | | |
|----|--|
| 72 | <u>Communications Systems.</u> Include telephone and telegraph lines and radio towers. |
| 73 | <u>Navigation and Traffic Aids.</u> Include structures, other than buildings, which provide for aircraft and ship navigation and traffic aids; such as, beacon lights, antenna systems, ground control approach systems, and obstruction lighting. |
| 76 | <u>Roads and Bridges.</u> Include federally owned highways, roads, related culverts, and connecting bridges. Also include roads within national parks and forests and other Federal installations. |
| 77 | <u>Railroads.</u> Include tracks and bridges, tunnels, and fuel and water stations servicing railroads. |
| 78 | <u>Monuments and Memorials.</u> Include all Federal monuments, memorials, and statues. |

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(s) Page 19 of Instructions for the Preparation of GSA Form 1166.

<u>Code</u>	<u>Classification</u>
79	<u>Miscellaneous Military Facilities.</u> Include all structures and facilities of the Department of Defense (military functions) not included in any other classification.
80	<u>All Other.</u> Include sidewalks, parking areas, fences, and trails, which cannot be readily classified under the above categories. Include also, improvements to public domain lands; such as, drainage, grading, and landscaping.
99	<u>Trust.</u> All structures and facilities held in trust by the reporting agency. Identify in Remarks, Block 26.

Block 24. Cost. Enter in this block the total cost to the United States for each classification of other structures and facilities reported. Cost of \$500 and over should be rounded to the nearest thousand dollars as described for Block 16. If cost is \$1 through \$499, enter the letter "N" (negligible).

Costs shall include any capital improvements (as defined under Block 22) incurred subsequent to the date of acquisition.

The cost of Government-owned structures and facilities located on land not owned by the Government (e.g., leased land) shall be included.

Costs shall not be reported for (1) other structures and facilities held in trust and (2) historic structures, monuments, memorials, and statues donated to the Federal Government.

In the absence of any recorded data, costs shall be estimated and noted by the letter "E" after the amount. Estimates shall be based on costs at date of original acquisition by the Government, adjusted for subsequent capital changes.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3.4901, 1166(1)

(t) Page 20 of Instructions for the Preparation of GSA Form 1166.

Estimate, if not known, the "cost" of structures and facilities acquired through donation, exchange, devise, forfeiture, or judicial process. The estimated "cost" should represent the amount the Government would have had to pay for the structures or facilities if purchased at the date of original acquisition.

Block 25. Total Cost: Land, Buildings, and Other Structures and Facilities. Enter the sum of the totals of Blocks 16, 22, and 24.

(6) Remarks.

Block 26. Remarks. Enter in this block any notation necessary to clarify or expand any entry in the report. Reasons for changes in a report for an installation previously reported should be especially noted; e. g., capital improvement, writeoffs, refinement of data, etc.

Other pertinent notations may include: from whom property was acquired, to whom property was sold (public, State, city, etc.), any unusual or significant feature regarding acquisition, omission, transfer, disposal, or revision.

When an installation is considered excess to the needs of the reporting agency, in whole or in part, a notation to this effect should be entered. Include the GSA Control Number assigned to SF 118, Report of Excess Real Property, where applicable (see subpart 101-3.2).

If space provided in this block is insufficient, continue on reverse of the form.

(7) Type of Transaction.

Block 27. Type of Transaction. Check the appropriate box to reflect the nature of the real property change between the current and the prior inventory report.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901, 1166(1)

(u) Page 21 of Instructions for the Preparation of GSA Form 1166.

When practicable, include in Remarks a short notation giving an explanation of the change. Descriptions of the various types of transactions follow:

<u>Code</u>	<u>Descriptions</u>
1	<u>New Acquisition.</u> Include newly acquired installations obtained by purchase, construction, or other means. Do not include transfers from other Federal agencies or additions to installations previously reported.
2	<u>Omission.</u> Include only complete installations erroneously omitted from the inventory for the prior fiscal year.
3	<u>Transfer-In.</u> Include only installations transferred from other Federal agencies or major organizational units within the agency which are not merged with existing installations. (Transfers-in which become part of an existing installation shall be coded 6.)
4	<u>Disposal.</u> Include only complete installations disposed of by the Federal Government through sale, donation, exchange, or other disposition to private citizens and organizations or to State and local governments. Do not include transfers to other Federal agencies or major organizational units within the agency.
5	<u>Transfer-Out.</u> Include only complete installations transferred to other Federal agencies or major organizational units within the agency.
6	<u>Revision.</u> Include all changes not covered by one of the above codes. These changes include additions to installations previously reported, disposition of a part of an installation previously reported, capital improvements, writeoffs, and corrections to prior years reports.

FEDERAL PROPERTY MANAGEMENT REGULATIONS
(AMENDMENT NO. A-1, DECEMBER 1964)

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1166A(1)

§ 101-3.4901-1166A(I) Instructions for the preparation of GSA Form 1166A: Annual Report of Real Property Leased to the United States.

(a) Page 1 of Instructions for preparation of GSA Form 1166A.

(a) General Instructions.

GSA Form 1166A, Annual Report of Real Property Leased to the United States (subsection 101-3.4901-1166A), shall be used by agencies to report their leased real property holdings, as defined in Subpart 101-3.3 of this part.

Reports shall be prepared annually as of June 30, and an original and one copy of each submitted to General Services Administration not later than October 1.

An individual report shall be submitted for a lease or combination of leases covering: (1) land, (2) buildings or portions thereof, (3) other structures and facilities, or (4) combinations thereof. Real property leased to the United States shall be reported as follows:

- (1) Single Leases - Single Reports. Each lease executed for a building location(s), other structures and facilities, or combination thereof (whether or not land is included), with a total annual rental of \$2,000 or more, shall be the subject of a single report. Each lease executed for land only, with an annual rental of \$500 or more, shall be the subject of a single report.
- (2) Multiple Leases - Single Reports. At the discretion of the agency, a lease executed for a building location(s), other structures and facilities, or combinations thereof (whether or not land is included), with a total annual rental of less than \$2,000, may be combined with similar leases to form a single report, provided the location(s) of the properties is in the following geographical areas:
 - (i) The same major city (in the United States only--limited to cities listed in subsection 101-3.4901-1166A(I-A);
 - (ii) The same State (excluding leases for properties in major cities); and
 - (iii) The same U. S. possession or foreign country.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-2, 4001-1166A(1)

(b) Page 2 of Instructions for preparation of GSA Form 1166A.

A lease executed for land only, with an annual rental of less than \$500, may be combined with similar leases to form a single report, provided it meets the location restrictions outlined in b. (1), (2), and (3), above.

When leases have been combined to form a single report, supporting detailed information for each lease shall be available in the files of the reporting agency.

In no case shall one report cover real property in more than one State. When a lease covers property in more than one State, a separate report shall be prepared for the property in each State.

(b) Specific Instructions.

(1) Date, Agency, and Property Identification.

Block 1. Report As Of. Enter effective date of the report.

Block 2. Agency Control No. For purpose of identification, each agency may assign a control number for each report submitted.

Block 3. GSA Control No. Leave this space blank. For use by General Services Administration, Central Office only.

Block 4. Name of Property. Enter the commonly used name for the property being reported; such as, U. S. Post Office, American Embassy, or Wilkins Building. When a property has no name, use the street address or other local designation. For consolidated reports covering more than one lease, enter the word "Consolidation" in this block.

Abbreviate the name of the property, when necessary, so that it will not exceed 23 type spaces including blank spaces between letters or words. For example: "First National Bank Building" which has 28 type spaces may be abbreviated "First Nat Bank Bldg."

SUBPART 101-3.49 FORMS AND REPORTS

101-2,491-1166A(1)

(c) Page 2 of Instructions for preparation of GSA Form 1166A.

Block 5. Reporting Agency. Enter the name of the agency currently administering the lease and making rental payments to the lessor, regardless of which agency made the original lease or is currently using the property. For example: Department of Tennessee Valley Authority.

Block 6. Bureau or Other Major Organization. Enter the name of the reporting bureau or comparable major organizational unit within the reporting agency; for example, National Bureau of Standards.

(2) Location.

Block 7. State or Continent. Enter the name of the State (in U. S.) or continent (outside U. S.) in which the real property is located. When an installation is located in more than one State, a separate report shall be submitted to cover the portion of the installation located in each State.

Block 8. City or Town. Enter the name of the city or town in or near which the real property is located, provided (1) the property is in one county only; and (2) the designated city or town is in the same county as the location of the property (Block 9). When these circumstances do not apply, enter "No city identification."

Block 9. County or Country. Enter the name(s) of the county, counties, parish, or parishes (in U. S.) or U. S. possession, or foreign country (outside U. S.) in which the real property is located. Separate reports for each county in the same State are not required. If space is insufficient, complete the list of counties under Remarks, Block 24, or on the reverse of the form.

Block 10. Street Address, RFD, Route No., or Other Local Designation. Enter the street address, RFD, route no., or other local designation. When the street address is the same as the building name, this block may be left blank.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4001-1166A(1)

- (d) Page 3 of Instructions for preparation of GSA Form 1166A.

Geog. Code Block **Geographical Code.** Enter the appropriate numerical geographical code for the location of the property as shown in Blocks 7, 8, and 9 in the following sequence: State or Continent (2 digits), City or Town (4 digits), County or Country (3 digits). (Example: Coral Gables, Dade County, Florida, will be shown as 09-0670-025.)

Codes may be obtained from the publication "Geographical Location Codes," issued by General Services Administration.

Do not fill in this space if the geographical location code is not known.

When the location of the property or properties cannot be identified with a city (Block 8), the code under "City" shall be reported as 9999. When the property or properties are located in more than one county (Block 9), the code under "County" shall be reported as 999.

- (3) **Land.** Land shall be reported only when specifically provided for in the lease. Leases may include unimproved lands as well as lands upon which federally owned buildings or other improvements have been constructed. (The Federal agency controlling these buildings or other structures shall report them on GSA Form 1166.)

Easements, rights-of-way, and encroachments shall not be reported.

Block 11. **Usage Code and Classification.** Enter the predominant use and related code of land area or site as of the effective date of the report. A breakdown of secondary usages is not required.

Leased land shall be classified on the same basis as federally owned land except for Post Offices. Land leased in conjunction with a Post Office and used predominantly as a general service and access area, shall be reported as

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1166A(1)

(e) Page 4 of Instructions for preparation of GSA Form 1166A.

Code 14 - Post Office Land. Applicable definitions of all usage categories, other than Post Office Land, are contained in subsection 100-3.4901-1166(I).

Blocks 12 and 13. Area - Urban and Rural. For each entry in Block 11, enter the area of the land to the nearest tenth of an acre. If acreage to be reported is a whole number, enter "0" to the right of the decimal point; e.g., 10.0. If acreage to be reported is less than a whole number, enter "0" to the left of the decimal point; e.g., 0.4. If acreage to be reported is less than 0.1 of an acre, enter the letter "N" (negligible).

Block 12. Urban. For purposes of this report, land shall be classified as urban when (1) located in an incorporated place of 2,500 inhabitants or more, (2) in a densely settled unincorporated place of 2,500 inhabitants or more, or (3) in a densely settled urban fringe area around cities of 50,000 inhabitants or more. Enter in this block the total acreage of urban land acquired for each usage category reported in Block 11.

Block 13. Rural. Classify as rural all properties not covered under "urban" as defined above. Enter in this block the total acreage of rural land for each usage category reported in Block 11.

(4) Buildings.

Block 14. Usage Code and Classification. For purposes of this report, the predominant use of the space in each leased building location, as of the effective date of the report, shall govern its classification.

Leased buildings shall be classified on the same basis as federally owned buildings, except for Post Offices. Buildings or portions of buildings leased for use as Post Offices should be reported as Code 14 - Post Office. Applicable definitions of all usage categories, other than Post Offices, are contained in subsection 100-3.4901-1166(I).

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3.4901-1166A(1)

(f) Page 5 of Instructions for preparation of GSA Form 1166A.

Block 15. Number of Locations. Enter the number of building locations for each applicable usage classification printed in Block 14. A lease location is the space in each building covered by a lease. When a lease covers several buildings, space in each is considered a location. When several leases cover one building, the space covered by each lease is considered a leased building location.

Block 16. Floor Area Leased - Total Square Feet. Enter the square feet of floor area under lease for each class of building reported. Include the total floor area under lease, regardless of any secondary usages or areas used by other occupying agencies under permit or other arrangements.

(5) Other Structures and Facilities.

Block 17. Place a check mark in the space provided in Block 17 if the lease provides for the rental of any structures or facilities.

Block 18. Enter the usage classification and a brief description of leased structures or other facilities. The usage classification applicable to the federally owned real property, as defined in subsection 100-3.4901-1166(I), shall also be used exclusively for reporting leased structures and facilities in this block.

(6) Lease Terms. When the report covers a single lease, entries shall be made in Blocks 19 through 23.

When a consolidated report is made covering leases within the same installation, State, country, or city, entries shall be made only in Blocks 19 and 23.

Block 19. Number of Leases Reported. Enter the number of leases included in this report.

Block 20. Effective Date. Enter the numerical designation, using six digits, for the month and year that the current lease became effective; e.g., 06-1958 for June 1958.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1166A(1)

(g) Page 6 of Instructions for preparation of GSA Form 1166A.

Block 21. Expiration Date. Enter the numerical designation using six digits for the month and year that the current lease will terminate; e. g., 12-1965 for December 1965. If any option has been exercised, the expiration date of the extended period shall be used. In no case shall this date be prior to the effective date of the report. When the expiration date of the lease is indefinite, such as in a month to month or year to year lease, enter 99-9999.

Block 22. Period of Renewal Option. When the agreement provides that the U. S. Government may renew the lease beyond the expiration date of the current lease, enter the remaining renewal period to the nearest whole year using two digits; e. g., (3 years) 03. Enter an "X" in this block if one of the following conditions exists: (1) the lease contains no renewal provisions; (2) the renewal option is for less than six months; (3) the expiration date of the lease is indefinite.

Block 23. Annual Rental Rate. Enter the annual rental rate for the leased property to the nearest whole dollar. When the rental period is less than one year or the rental is paid on a monthly, daily, or other than an annual basis, convert the rate to an annual basis. If the rental is nominal or free, but the lease provides for payments to the lessor for utilities and/or services, enter the annual rental rate as specified in the lease. The other amounts paid to the lessor shall not be included in the rental figure. If the agency wishes to report such payments, they shall be entered in the Remarks block.

(7) Remarks.

Block 24. Remarks. When it is necessary to clarify or expand any entries beyond the space provided in the various blocks, make such notations in this block and continue, as necessary, on the reverse of the form.

101-3.4901-1209(1)

**§ 101-3.4901-1209(I) Instructions for the preparation of GSA Form 1209:
Summary of Number of Installations Owned by the United States.**

(a) Page 1 of Instructions for the preparation of GSA Form 1209.

(a) General Instructions.

GSA Form 1209, Summary of Number of Installations Owned by the United States (subsection 10103.4900-1209), shall be used by reporting agencies to summarize the real property holdings, as defined in Subpart 101-3.2 of this part, of each bureau or other organizational unit.

This form shall be submitted even though no inventory changes have occurred since the previous submission. GSA Form 1209 shall be submitted whether inventory reporting is by GSA Form 1166 (subsection 101-3.204 of Subpart 101-3.2) or by detailed machine listings and supporting punch cards (see section 101-3.205 of Subpart 101-3.2).

A separate GSA Form 1209 shall be prepared for each bureau or other comparable organizational unit for (a) properties in the United States, and (b) properties outside the United States. An original and one carbon copy of these forms shall be submitted together with either the related GSA Forms 1166 or related detailed machine listings and supporting punch cards. Reports shall be prepared annually as of June 30, and submitted to General Services Administration not later than September 1.

(b) Specific Instructions.

- (1) Summary Identification. Enter the effective date of the report. Place a check mark in the appropriate box to indicate whether the accompanying GSA Forms 1166 or detailed machine listings cover properties in the United States or outside the United States.
- (2) Reporting Agency. Enter in this block the name of the reporting agency, that is, the department, commission, administration, or authority. For example: Department of Commerce, Atomic Energy Commission, Veterans Administration, or Tennessee Valley Authority.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 4901-1209(1)

(b) Page 2 of Instructions for the preparation of GSA Form 1209.

(3) Bureau or Other Major Organizational Unit. Enter on this line the name of the bureau or other comparable major organizational unit within the reporting agency. For example: National Bureau of Standards or Bureau of Land Management.

(4) Items.

Item A. Installations at End of Prior Year. Enter the number of installations previously reported as of the end of the prior fiscal year. This number must agree with that shown in the detailed electrical accounting machine listings of the previous inventory reports, copies of which have been furnished by General Services Administration to each reporting agency.

Item B. New Installations Acquired Since Prior Report. Enter (in both columns) the number of installations acquired since the prior report. Do not include omissions (Item C) or transfers from other Federal agencies or transfers from other Federal agencies or major organizational units of the same agency (Item D).

Item C. Complete Installations Omitted from Prior Reports. Enter (in both columns) the number of complete installations erroneously omitted from the inventory in the prior fiscal year.

Item D. Installations Transferred from Other Federal Agencies. Enter (in both columns) the number of reports representing transfers of either complete or partial installations from other Federal agencies, or major organizational units of the same agency. Transfers-in which become a part of an existing installation shall be reported in Item G.

Item E. Complete Installations Disposed of Since Prior Report. Enter (in both columns) the number of complete installations disposed of by the Federal Government since the prior report. Transfers to other Federal agencies or major organizational units of the same agency shall be reported separately in Item F.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1209(1)

(c) Page 3 of Instructions for the preparation of GSA Form 1209.

Item F. Complete Installations Transferred to Other Federal Agencies. Enter (in both columns) the number of reports representing the transfer of complete installations to other Federal agencies or major organizational units of the same agency.

Item G. Reports Adjusting Those Submitted in Prior Years. Enter the number of reports affecting installations previously reported and still in the inventory for which changes have occurred during the fiscal year. Include all revised reports not specifically provided for in Items B through F, above.

Item H. Installations at End of Current Year. Enter the sum of Items A, B, C, and D less the sum of Items E and F. This figure represents the total number of installations controlled by the reporting agency as of the inventory date.

Item I. Total Number of GSA Forms 1166 Submitted. Enter the sum of Items B, C, D, E, F, and G. This figure represents the total number of GSA Forms 1166 currently being submitted.

- (5) Remarks. Enter a brief summary statement of all major or significant changes in the bureau's or agency's real property inventory during the fiscal year. Summary may include changes in acreage, buildings, floor area, costs, predominant usages of land, buildings, and other structures and facilities. Cite examples of changes and identify by GSA control numbers.

Include significant trends, new or continuing programs or policies or any other pertinent information reflecting the bureau's or agency's real property activities for the fiscal year.

- (6) Signature and Date.

Prepared By. Type in the name and title of the official responsible for the preparation of the report.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1209A(1)

**§ 101-3.4901-1209A(1) Instructions for the preparation of GSA Form 1209A:
Comparative Summary of Properties Leased to the United States.**

(a) Page 1 of Instructions for the preparation of GSA Form 1209A.

(a) General Instructions.

GSA Form 1209A, Comparative Summary of Properties Leased to the United States (subsection 101-3.4901-1209A), shall be used by reporting agencies to summarize leased real property holdings, as defined in Subpart 101-3.3 of this part, of each bureau or other organizational unit.

GSA Form 1209A is intended to provide (a) a control over individual inventory reports on leased properties submitted on GSA Form 1166A for the current year, and (b) a comparison between data reported for the prior and current years to show changes in lease data between inventory reports.

A separate GSA Form 1209A shall be prepared for each bureau or other comparable organizational unit for (a) properties in the United States, and (b) properties outside the United States. An original and one carbon copy of this form, together with the related GSA Forms 1166A, shall be prepared annually as of June 30, and submitted to General Services Administration by October 1.

(b) Specific Instructions.

- (1) Summary Identification. Enter the current and prior year dates for which data are being reported.

Check the applicable block in the upper right corner of the form to indicate if the summary is for real property located (a) in the United States, or (b) outside the United States.

- (2) Agency and Bureau Identification.

Reporting Agency. Enter in this block the name of the reporting agency, that is, the controlling department, commission, administration, or authority. For example: Department of Commerce, Atomic Energy Commission, Veterans Administration, or Tennessee Valley Authority.

PART 101-3 ANNUAL REAL PROPERTY INVENTORIES

101-3, 0001-1200A(1)

- (b) Page 2 of Instructions for the preparation of GSA Form 1209A.

Bureau or Other Major Organization. Enter in this block the name of the bureau, or comparable major organizational unit, within the reporting agency: for example, National Bureau of Standards.

- (3) Summary Data.

Column (c) Current GSA Forms 1166A. This column shall contain a summarization and consolidation of statistics included in the Annual Reports of Real Property Leased to the United States, GSA Forms No. 1166A, submitted for the current inventory. Data for each line of this column shall be entered as described below:

- Line 1. Enter the total number of GSA Forms 1166A submitted in the current report.
- Line 2. Enter the total number of leases in effect on the inventory date by adding the entries in Block 19 of all GSA Forms 1166A submitted.
- Line 3. Enter the total acreage leased by adding the totals of Blocks 12 and 13 of all GSA Forms 1166A submitted.
- Line 4. Enter the total number of building locations leased by adding the totals of Block 15 on all GSA Forms 1166A submitted.
- Line 5. Enter the total square feet of floor area leased by adding the totals of Block 16 of all GSA Forms 1166A submitted.
- Line 6. Enter the total annual rental reported for leased real property by adding the entries in Block 23 of all GSA Forms 1166A submitted.

Column (d) Prior GSA Forms 1166A. This column shall not be completed for the first year an agency submits its report. Data for completion of this column shall be obtained from the previous year's detailed listing of leases furnished to each agency by the General Services Administration.

SUBPART 101-3.49 FORMS AND REPORTS

101-3.4901-1209A(1)

(c) Page 3 of Instructions for the preparation of GSA Form 1209A.

Column (e) Difference. Enter on each line the result of column (c) minus column (d). Enter negative quantities in parentheses, e.g., (312). Column (e) shall not be completed for the initial report submitted by an agency.

- (4) Remarks. Significant changes in leases between the prior and current report shall be explained or commented on in this block. When as a result of a new program or termination of an old program, an agency's leasing activity changes, the cause thereof shall be noted. Property management activities of a bureau or other major organization which result in net economies to the Government shall be explained. Program plans which will affect future leasing operations shall also be noted. All items which the bureau believes would interest the Congress, regulatory executive agencies, or the general public shall be described in this block.

- (5) Signature and Date.

Prepared By. Type in the name and title of the official responsible for the preparation of the report.

Signature. The official designated as responsible for the preparation of the report shall sign his name in this block.

Date. Enter date on which the report was prepared.
